They are user friendly and offer a great price performance ratio with a choice of 17 or 23 litre spray-channels.

Multidem supplies top quality ultrapure demineralised water for generating

Hygiene matters

There are several key infection hazards within a dental surgery which necessitate the need for stringent legislation. Anything that reduces the risk is the benefit of all concerned. A fully HTM 01-05 compliant ChairSafe is one such example. The lifesaver is one of the best solutions available; it is easy to install, user friendly and offers the patient the peace of mind that their dental hygiene is ensured as there is no risk of infection for bacteria to escape the confines of the chair.

To make sterilisation easier with Melag MELAtherm from Henry Schein
