Journal of Oral Science & Rehabilitation

Journal for periodontology, implant dentistry, dental prosthodontics and maxillofacial surgery

The *Journal of Oral Science & Rehabilitation* publishes original and high-quality research and clinical papers in the fields of periodontology, implant dentistry, dental prosthodontics and maxillofacial surgery. The aim of the journal is to promote rapid communication of scientific information between academia, industry and dental practitioners, thereby influencing the decision-making in clinical practice on an international level. Priority is given to papers focusing on clinical techniques and with a direct impact on clinical decision-making and outcomes in the above-mentioned fields. Furthermore, book reviews, summaries and abstracts of scientific meetings are published in the journal.

Papers submitted to the *Journal of Oral Science & Rehabilitation* are subject to rigorous double-blind peer review. Papers are initially screened for relevance to the scope of the journal, as well as for scientific content and quality. Once accepted, the manuscript is sent to the relevant associate editors and reviewers of the journal for peer review. It is then re-

turned to the author for revision and thereafter submitted for copy editing. The decision of the editor-in-chief is made after the review process and is considered final.

Published quarterly with a print run of 10,000 copies, this high-gloss English-language journal is sent to subscribers around the world and distributed at all major international dental congresses and exhibitions. Moreover, e-paper versions of all journal editions are accessible online at www.dental-tribune.com /epaper and www.dtscience.com and are sent to our global subscriber base of over 75,000 dental professionals.

Exclusive sponsorship options are available for a selected and limited amount of partners. Please note: The *Journal of Oral Science & Rehabilitation* is purely scientific and designed for academic and educational purposes only. Therefore, aggressive product marketing is to be avoided. Marketing materials are reviewed by the editorial board and accepted or rejected at their discretion.

Deadlines

Once a paper has been approved by the board for publication and given a publication date, print adverts will need to be sent at the latest, four weeks prior to release month.
