# Dental Tribune International

cosmetic dentistry\_beauty & science

The DTI CE magazine *cosmetic dentistry\_beauty & science* presents the most significant developments and experiences in the field to practitioners around the world. It is aimed at specialists and general practitioners alike, as well as industry leaders. This high-gloss, English-language magazine is published once per year and distributed at all major international congresses and exhibitions. *cosmetic dentistry* also receives a wide bonus distribution at several specialty-specific events. Additionally, an ePaper version of the magazine is sent to a database of 65,000 dentists worldwide (mainly Europe, Middle East and Asia Pacific).

While it is being supported by a distinguished advisory board, *cosmetic dentistry* is the official publication of the Asian Academy of Aesthetic Dentistry (AAAD), the South Asian Academy of Aesthetic Dentistry (SAAAD), the

Global Academy of Minimally Invasive Cosmetic Dentistry and the European Society of Cosmetic Dentistry (ESCD). The content is a combination of scientific articles, clinical cases, interviews, industry reports, event previews and reviews, business and product news as well as lifestyle articles. Additionally, the magazine includes at least one article that provides between one and three ADA CERP-recognized CE credits. Regional editions of *cosmetic dentistry* are available in China (*cosmetic & implants*), Germany, Iran, Italy and Poland.

Please note: Complimentary PR as well as product and industry news are offered in support of advertising. The publication of clinical articles and case studies is limited in each edition. Therefore, submissions are subject to review and approval by the managing editor.
