digital — international magazine of digital dentistry

Digital—international magazine of digital dentistry covers the most significant developments in the field with the aim of providing comprehensive knowledge and information on the latest technology that can profitably be integrated into treatment concepts.

The magazine presents an overview of the latest research results, case studies, new products, trends in procedures and techniques, news in education and events reviews. Topics include rapid prototyping, digital imaging, virtual articulation, digital impressions, software processing and innovations in digital dentistry.

Various clinical applications within virtual reality and augmented reality as complementary resources in daily practice are addressed to help general dentists and specialists in various fields, such as implantology, maxillofacial surgery, endodontics, orthodontics and prosthodontics.

Each edition of *digital* has a **print distribution of 10,000** copies, with **additional digital reach** from e-paper subscriptions via the Dental Tribune website, e-newsletters and social media channels.

In addition, the magazine is distributed **free of charge to attendees** at major international congresses, exhibitions and specialty-specific events, with **free e-papers** being offered for online events.

Within the e-papers, adverts are linked to the client's supplied URL. Complementary PR and product texts as well as clinical articles or case studies may be submitted in support of advertising campaigns and are subject to review and approval by the managing editor.
