PGK DENTARE LAUNCHES NEW WORKFLOW FOR STREAMLINED PROSTHETICS

PGK Dentare, a pioneer in dental innovation, has unveiled the PGK Studio, a fully integrated digital workflow for streamlined prosthetics. This innovative system combines precision, efficiency, and advanced technology to revolutionize the prosthetic process. The PGK Studio is a fully integrated digital workflow for streamlined prosthetics, combining precision, efficiency, and advanced technology to revolutionize the prosthetic process.

From start to finish, it's built around three essential components: the patient, the technician, and the lab. As a leading manufacturer of dental prosthetics, PGK Dentare has been a pioneer in the field for over 30 years, combining traditional craftsmanship with modern technology to create a seamless workflow for dental professionals and patients alike.

The PGK Studio is built around three essential components: the patient, the technician, and the lab. As a leading manufacturer of dental prosthetics, PGK Dentare has been a pioneer in the field for over 30 years, combining traditional craftsmanship with modern technology to create a seamless workflow for dental professionals and patients alike.

Together, these elements ensure a seamless workflow that streamlines the entire process, from patient data collection to final delivery. The PGK Studio is built around three essential components: the patient, the technician, and the lab. As a leading manufacturer of dental prosthetics, PGK Dentare has been a pioneer in the field for over 30 years, combining traditional craftsmanship with modern technology to create a seamless workflow for dental professionals and patients alike.

Optimizing efficiency and ease of use

The PGK Studio is designed to streamline the entire prosthetic process, from patient data collection to final delivery. The PGK Studio is built around three essential components: the patient, the technician, and the lab. As a leading manufacturer of dental prosthetics, PGK Dentare has been a pioneer in the field for over 30 years, combining traditional craftsmanship with modern technology to create a seamless workflow for dental professionals and patients alike.

A legacy of dental innovation

PGK Dentare has a long history of innovation in the dental industry. The PGK Studio is built around three essential components: the patient, the technician, and the lab. As a leading manufacturer of dental prosthetics, PGK Dentare has been a pioneer in the field for over 30 years, combining traditional craftsmanship with modern technology to create a seamless workflow for dental professionals and patients alike.

28 AEECD Dental 10-21 January 2025

As the official trade show newspaper of the UAE International Dental Conference and Arab Dental Exhibition (AEEDC Dubai), *today* is the ultimate reference guide for more than 80,000 attendees, providing useful information about over 4,300 exhibitors and educational sessions at one of the largest annual scientific dental conference and exhibitions in the world.

Distributed daily and free of charge within the main exhibition halls by hostesses, *today* AEEDC Dubai keeps attendees up to date about the latest dental news from the Middle East region and worldwide. In addition, it includes valuable information about the latest technologies on display and thus provides dental companies participating in AEEDC Dubai with a perfect opportunity to educate dental professionals and potential business partners on their brands and products by strategically placing advertisements and press releases in the *today* show dailies.
