

Implants — international magazine of oral implantology is published in cooperation with the German Association of Dental Implantology (DGZI), Europe's oldest implantology society. The quarterly journal reports on key developments in the field and provides in-depth knowledge on new technologies that can be profitably integrated into treatment concepts. Topics include innovations in surgical techniques, biomaterials and digital workflows, making the magazine a trusted source for both clinicians and researchers.

With a print run of 10,000 copies and additional digital reach via e-paper, newsletters and social media, implants ensures broad international visibility. Distribution extends to major international congresses, trade exhibitions and specialist events, while free e-papers are offered to participants of online events.

For advertisers, digital editions provide direct linking of ads to company websites, enhancing engagement and lead generation.
