Dr. Tiziano Testori

He received his MD in 1981, his DDS in 1984, and his specialty qualification in orthodontics in 1986, all from the University of Milan, Italy. He completed fellowships at the Loma Linda University School of Dentistry, California, U.S., in 1991 and the University of Miami Leonard M. Miller School of Medicine, U.S., in 2000.

Dr. Testori is currently head of the Section of Implantology and Oral Rehabilitation at the University of Milan’s Dental Clinic at the I.R.C.C.S. Istituto Ortopedico Galeazzi.

He is also clinical associate professor at the Department of Periodontics and Oral Medicine of the University of Michigan School of Dentistry, Ann Arbor, Michigan, U.S., and an adjunct professor in the Department of Biomedical, Surgical and Dental Sciences at the University of Milan.

He is the author of 112 peer-reviewed publications and four books on implantology.
Location
The Lake Como Institute is located in the town of Como, famous for its silk manufacturers. Within what remains of its 12th-century walls is a charming historical center. The town is set on the shores of Lake Como, situated in a basin surrounded by wooded mountains and said to be the most beautiful of the Italian lakes. There is plenty to see while strolling around, including stunning villas, gardens, and sites of historical and cultural significance.

What to see and do
Como is a very small old town and the best way to get to know it is by exploring its narrow passages, old streets, quaint markets and piazzas, stopping to enjoy a cappuccino on the terrace of one of its many cafes.

The remarkable 11th-century Romanesque Basilica di Sant’Abbondio has a beautiful fresco series inside the apse and a university occupies what was once the cloister.

Lake Como’s shores feature a varied landscape of fields, forests, imposing rocks, charming villages facing the lake and magnificent mansions with beautiful gardens, particularly from Cernobbio to Gravedona and Bellagio. The following include only some of the innumerable sights:

The middle of Lake Como, where its three branches come together, offers a spectacular view of the whole promontory of Bellagio, of the northern Grigna mountains overlooking Valassina, and of the upper basin against the backdrop of the Alps if the skies are clear. It has the mildest climate and can be reached by boat.
www.taxiboat.it

Besides the glorious views of the Lecco branch of the lake, which turns southward, there are natural springs, like Fiumelatte, described by Leonardo da Vinci, and the impressive Orrido di Bellano (gorge), situated not far from the Renaissance Villa Monastero at Varenna.
