SOME FAVORITES OF OUR FACULTY

Objet Eden260VS Dental Advantage 3-D printer

The Objet Eden260VS Dental Advantage (Stratasys) builds parts directly from digital files. It takes workflow automation a step further with soluble support material that dissolves easily from tiny cavities, overhangs and crevasses.

SoundLink Mini Bluetooth speaker II

The SoundLink Mini II from Bose has been updated with a speakerphone, longer battery life for all-day listening, multiple connectivity for a phone and a tablet, as well as voice prompts for easy pairing, while still delivering the powerful, lifelike audio quality that made it the most famous little speaker in the world. With the built-in speakerphone, taking calls requires just the press of a button on the top of the speaker and the music resumes automatically once you’re finished.

Inspiro composite system
Inspiro from Edelweiss DR offers simplicity and excellence in direct and indirect bonding using a simple shading and layering concept to address all natural shade variations, easily identified using an accurate bilaminar shade guide. Different shade-matching consistencies, flowable tints for characterizations and a truly universal homogeneous nanohybrid technology make this system suitable for all traditional clinical indications. It boasts superior mechanical properties, outstanding polishability and gloss retention for predictable and invisible restorations.
