Mohegan Sun Casino and Resort to host AGD 2019

Academy of General Dentistry’s 2019 Scientific Session is from July 18-20 in Uncasville, Conn.

The Mohegan Sun Casino and Resort in Uncasville, Conn., is the host site of the Academy of General Dentistry’s 2019 Scientific Session, July 18-20.

The Mohegan Sun has night clubs, spas, 50 bars and restaurants, 40 shops and a golf club. Nearby are Ocean Beach Park, the U.S. Naval Submarine Base, Mystic Museum of Art, Mystic Seaport, Mystic Aquarium and other attractions.

Registration for AGD2019 includes the opening session, exhibit hall, scientific E-poster presentations and invitation to the president’s welcome reception.

Course packages available
Optional "course packages" are spaced to not overlap, giving attendees a quick way to create a schedule around a primary interest.

AGD Foundation highlights
The AGD Foundation has committed to raising awareness of oral cancer, risk factor prevention, and supporting the general dentist as the public’s first line of defense against oral cancer.

Oral cancer screenings
Dental health professionals can build on their normal role in educating patients and the public about oral cancer prevention and screening by volunteering to screen the public at the Mohegan Sun.

Working toward cavity-free world

Henry Schein Inc. demonstrated its commitment to expanding access to health care and developing high-level capabilities in oral health leaders from around the world by sponsoring the Senior Dental Leaders Programme for a 13th year. The six-day conference took place recently at The Westin Copley Place in Boston and included representatives from 10 countries who benefitted from leadership development training they can use to address oral health challenges in their communities across the globe.

Conceived in 2007 at King’s College London by professor Raman Bedi, DDS, the event is attended by dental policy-makers, national chief dental officers, representatives from non-governmental organizations, members of the clinical and academic communities and other stakeholders working collaboratively toward a cavity-free world for children.

Participants shared research, best practices and strategies to meet oral health challenges facing people and communities in need. They gained insight into team leadership, change management, scenario planning and public health innovation, and how the oral health landscape may change in the next decade.

106th annual National Dental Association meeting, July 17-21

The 106th Annual Convention of the National Dental Association (NDA) will convene July 17-21, at the Renaissance Downtown Hotel in Washington, D.C. The NDA, one of the oldest professional associations in America, is the premier dental organization for ethnic minorities, representing more than 10,000 oral health professionals. The theme of the 2019 meeting is “Bridging Generations: Keeping Cultural Traditions Relevant in the New Oral Health Era.”

The mission of the NDA is to promote oral health equity among people of color through advocacy, mentoring dental students and community outreach. The annual convention features world-class continuing education, a state-of-the-art product and resource center and a variety of networking opportunities for oral health students and professionals alike.

Oral health professionals from the country gather to learn the latest dental techniques and practice management solutions. Workshops will be offered on a broad range of important topics, such as opioid addiction, inter-professional training and care, local anesthesia and surgical updates, practice management, the industry’s latest research and a variety of offerings to improve private and corporate practice.

The NDA is an inclusive organization, and all oral-health-care professionals are welcome at NDA events. For more information and to register, you can visit the NDA’s website at www.ndaonline.org.
