CDA Presents: Diverse ideas, fresh solutions

150-plus courses and workshops, hundreds of exhibitors

One of the nation’s biggest dental conventions, CDA Presents The Art and Science of Dentistry, will be in San Francisco Aug. 24-26, with online registration now available at www.cdapresents.com/sf2017.

Full program available
The CDA Presents Program, available through the meeting’s dedicated website as a mobile-friendly PDF, is color-coded, organized by day (Thursday–Saturday) and categorized into lectures and workshops, to help attendees identify courses and plan a personal daily schedule.

Early registration for workshops will help guarantee a seat at these ticketed events. And while all lectures are free, attendees will have the option to reserve a seat for a nominal cost for some popular lectures. Details, including course descriptions and speaker biographies, are in the program.

A return to Moscone West
After many consecutive years in Moscone Center South, this year the San Francisco convention will take place directly across the street in Moscone West, offering attendees two floors of dental innovation from nearly 400 exhibitors to explore. All courses will be held on the second and third floors.

Limited preferred lodging
A limited number of rooms are available at preferred rates at the 11 hotels in the CDA housing block. Early reservation will help ensure choice of hotels. This close to the meeting, reservations cannot be guaranteed but will be made if space is available. Moscone West is easily accessible from all hotels in the housing block.

The hotel information section of the program includes a map of the hotels and their proximity to the convention, along with hotel descriptions, rates and directions for finding potential rooms online and by phone, fax or email.

Diverse ideas and fresh solutions
CDA Presents The Art and Science of Dentistry, held biannually in Anaheim in the spring and San Francisco in the fall, offers continuing education through more than 150 courses and workshops plus the latest dental products and services from hundreds of exhibitors.

Those who attend the three-day convention will have numerous opportunities to spot emerging trends, gain new perspectives on practice and find solutions for common problems through engagement with peers and mentors. You can find the CDA Presents Program in the June issue of the Journal of the California Dental Association or you can visit www.cdapresents.com/sf2017 for a PDF version for mobile reading.
