Welcome to the Exhibition Hall
Continental Breakfast, Lunch and Coffee

Tabletop and Poster Presentations
Thursday, 26 August 2010: 18:30–20:00

Perhaps the most popular feature of our World Congress is the Tabletop and Poster Presentation competition that occurs during the Welcome Reception in the Exhibit Hall on Thursday from 18:00 - 19:30. This competition provides the perfect forum for delegates to interact with colleagues in a social, yet instructive manner. Tabletop presentations should be kept to 5–7 minutes so that the presentation can be repeated as others prepare to review the case studies, etc. Poster presentations will be placed on bulletin boards at the start of the Congress and will remain on display throughout the Congress. Poster sessions should be at their posters to address questions during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI and DGOI meetings.

General Information

Hotel information
The site for this World Congress is the Hamburg Convention Center. The Congress is held in room blocks in the Radisson Hotel, adjacent to the Convention Center and at the Grand Elysée Hotel a five minute walk from the Convention Center. Special Congress rates at the Radisson are 165 Euros (about US$225) or at the Grand Elysée Hotel for 120 Euros (about US$165). For the full list of hotels, their rates and contact information, visit the Congress web-site, www.icoi-worldcongress-2010.com; click on the hotel tab and download the list of hotels.

Accreditation
ICOI and ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in obtaining quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. ICOI designates this activity for 20 continuing education credits.
ICOI is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit.
Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from April 1, 2010 to March 31, 2014. Provider ID# 21373R.

Accompanying persons
Persons accompanying the delegates to the World Congress can enjoy spending time at the Congress and enjoying some of the benefits. For a fee of US$125 or 75 Euros, accompanying persons will receive the following:
• Continental Breakfast, Lunch and Coffee
• Breaks with the delegates
• Admission to the Welcome Reception on Thursday evening
• Admission to the Exhibition Hall

Social Program

Welcome Reception
Thursday, 26 August 2010, 18:30–20:00
Plan to attend the Welcome Reception in the Exhibition Hall which follows the afternoon session on Thursday.
This party allows for the delegates and spouses to relax with drinks and hors d’oeuvres and visit with colleagues. Take advantage of discounts offered by our exhibitors at their booths and to view and judge posters in the tabletop/poster presentation competition.

Awards Ceremony
Friday, 27 August 2010, 18:00–19:00
The awarding of advanced credentials to ICOI and DGOI members will take place following the final speaker on Friday afternoon.
From 18:30 to 19:30 on Friday evening, the newest ICOI Fellows, Masters and Diplomates and DGOI Masters will be recognized in the Convention Center.

Harbor Party
Friday, 27 August 2010, 20:00 to midnight
There will be a dancing and social setting on board the Palmer Richter.

NobelProcera offers a new generation of highly esthetic provisional restorations.

**Precision milled, full-contour provisional restorations**

With Ivoclar Vivadent, a member of its Preferred Partner Program, NobelProcera now offers individually manufactured single crowns and bridges up to 6 units in Telio® CAD acrylate.

The material homogeneity of Telio CAD ensures a balance between tensile strength and elasticity with high marginal stability compared with chairside temporaries. The result is a precision milled provisional available in six shades with excellent natural fluorescence and excellent surface finish for outstanding esthetics.

With Telio CAD, NobelProcera will create a new standard for temporary restorations on natural teeth and implant abutments. Milled from a solid bloc of Telio CAD acrylic polymer crowns and bridges up to six units are designed individually using the intuitive NobelProcera Software, industrially produced at Nobel Biocare’s state-of-the-art manufacturing facilities, and delivered to the dental laboratory.

This process creates an individualized precision milled full contour temporary solution with a high-end surface finish with exceptional strength. The restorations are subsequently polished or characterized with stains and layering materials. Telio CAD is part of Ivoclar Vivadent’s temporary solution system which includes next to the veneering material a composite for provisional cementation and a chairside material for underlining.

Digital solutions to dental professionals and patients

Biomet, Inc announces the collaboration of its subsidiary, Biomet 3i, an industry leader in implant dentistry, and Renishaw plc, a leading manufacturer of in-lab dental scanning systems, to offer comprehensive digital solutions to dental professionals and patients worldwide.

Building on its portfolio of Precision Specifics® CAD/CAM Restorative Products, Biomet 3i is expanding the boundaries of a traditional “dental implant” company by providing a series of innovative digital solutions from which laboratories, clinicians and patients can benefit. For Renishaw:

- **Cobalt Chrome only available in Europe.**
- **510(k) pending for precision copy milled bars**

Biomet and Renishaw will provide our mutual dental customers with unsurpassed access to the latest in digital dentistry including the ability to scan precision copy milled bar patterns. "Laboratories utilizing the ProConForge® Scanner can also benefit from all of these options by using the 3i In-CAD software. Clinicians can now offer patients 3i Anatomic Copings and Frameworks in Zirconia and Cobalt Chrome** and precision copy milled bars**. These options are patient specific and designed to result in beautifully crafted new smiles.

"We feel that this partnership will provide our mutual dental customers with unsurpassed access to the latest in digital dentistry technology," said Maggie Anderson, President of Biomet 3i. Sir David McMurtry, Chairman and Chief Executive of Renishaw plc agreed, adding "Renishaw is thrilled to be combining its innovative engineering and CAD/CAM capabilities with Biomet 3i’s renowned clinical excellence. These digital solutions offered by Biomet 3i and Renishaw include:

- 3i Anatomic Copings and Frameworks;
- Renishaw contact scanners;
- 3i In-CAD software; and
- Renishaw in-lab milling machines.

Using the Renishaw scanner and 3i in-CAD software, laboratories can obtain broader access to a wide range of dental milling options, including the ability to scan precision copy milled bar patterns. Laboraories utilizing the ProConForge® Scanner can also benefit from all of these options by using the 3i In-CAD software. Clinicians can now offer patients 3i Anatomic Copings and Frameworks in Zirconia and Cobalt Chrome** and precision copy milled bars**.

Ergonomical and easy to use

Single or complete systems by Nouvag AG.

No matter if you need a single component or complete systems, NOUVAG AG has the solution for you. From Hand pieces up to complete Surgical Units. The powerful and user-friendly Motor System “MD300” with a frequent-controlled torque system will amaze you just as much as the powerful Suction Pump that comes with it. The mobile Suction System “Vacuson 40” is a ready to use solution for all needs of Dental Surgery. Tri power plugs and antistatic, lockable rollers are provided on the "Sonare" tubing frame. The combination of these features result in the ideal Surgical Unit for your doctor’s practice.
