**Social Program**

#### Welcome Reception

- **Thursday, 26 August 2010, 18:30–20:00**
- Plan to attend the Welcome Reception in the Exhibition Hall which follows the afternoon session on Thursday.
- This party allows for the delegates and spouses to relax with drinks and hors d’oeuvres and visit with colleagues, take advantage of discounts offered by our exhibitors at their booths and to view and立项 part in the tabletop/poster presentation competition.

#### Awards Ceremony

- **Friday, 27 August 2010, 18:00–19:00**
- The awarding of advanced credentials to ICOI and DGOI members will take place following the final speaker on Friday afternoon.
- From 18:30 to 19:10 on Friday evening, the newest ICOI Fellows, Masters and Diplomates and DGOI Masters will be recognized in the Convention Center.

#### Harbor Party

- **Friday, 27 August 2010, 20:00 to midnight**
- There will be a dinner and a cruise on board the Princess Victoria.

### Tabletop and Poster Presentations

**Thursday, 26 August 2010, 18:30–20:00**

- Perhaps the most popular feature of our World Congress is the Tabletop and Poster Presentation competition that occurs during the Welcome Reception in the Exhibit Hall on Thursday from 18:00 – 19:30. This competition provides the perfect forum for delegates to interact with colleagues in a social, yet instructive manner. Tabletop presentations should be kept to 5 – 7 minutes so that the presentation can be repeated as new observers gather to review the case studies, etc. Poster presentations will be placed on bulletin boards at the start of the Congress and will remain on display throughout the Congress. Poster presentations should be at their positions to address questions during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI and DGOI meetings. 

### Hotel information

- The site for this World Congress is the Hamburg Convention Center. The Congress is held in room blocks at the Radisson Hotel, adjacent to the Convention Center and at the Grand Elysée Hotel, five minutes walk from the Convention Center. Special Congress rates at the Radisson are 165 Euro (about US$225) or at the Grand Elysée Hotel for 120 Euros (about US$145).
- For the full list of hotels, their rates and contact information, visit the Congress web-site, www.icoi-worldcongress-2010.com, click on the hotel tab and download the list of hotels.

### Welcome to the 44th Scandinavian Dental Fair

**The leading annual dental fair in Scandinavia**

**SCANDEFA 2011**

Precision milled, full-contour provisional restorations

NobelProcera offers a new generation of highly esthetic provisional restorations.

Biocompatibility and strongest temporary material

Telio CAD by NobelProcera provides temporary restorations of exceptional fit, natural fluorescence, and optimum soft tissue support. It is easy to polish and has a high strength and stability in marginal areas. Owing to its material composition and a high-end surface finish, plaque accumulation is extremely low. Telio CAD acrylics polymer is a biocompatible material.

Digital solutions to dental professionals and patients

Biomet, Inc announces the collaboration of its subsidiary, Biomet 3i, an industry leader in implant dentistry, and Renishaw plc, a leading manufacturer of in-lab dental scanning systems, to offer comprehensive digital solutions to dental professionals and patients worldwide.

Building on its portfolio of Patient-Specific CAD/CAM Restorative Products, Biomet 3i is expanding the boundaries of a traditional “dental implant” company by providing a series of innovative digital solutions from which laboratories, clinicians and patients can benefit. For Renishaw:

ICO today appears during the 27th ICO World Congress in Hamburg, 26–28 August 2010.

The magazine and all articles and illustrations therein are protected by copyright. Any use, large or small, without prior consent from the author or publisher is inadmissible and liable to prosecution. No responsibility shall be assumed for information published about associations, companies and commercial markets. General terms and conditions apply, legal venue in Leipzig, Germany.

ICO today is published in cooperation with the International Congress of Oral Implantologists (ICOI) and Deutsche Gesellschaft für Oral Implantologie (DGIO).

No matter if you need a single component or complete systems, NOUVAG AG has the solution for you from Handpieces up to complete Surgical Units. The powerful and userfriendly Motorsystem “MDO” with a frequency controlled torque system will amaze you just as much as the powerful Suction Pump that comes with it. The mobile Suction System “Vacuson 40” is a ready to use solution for all needs of Dental Surgery. Tri power plugs and antiglare, lockable rollers are provided on the “SaniSave” rolling frame.

End surface finish with exceptional strength.

This process creates an indi-

vidual provisional solution with a high-

end surface finish with exceptional strength.

The restorations are subsequent-

ly polished or characterized with

stains and layered materials. Telio CAD is part of Ivoclar Vivadent’s temporary solution system which in-
cludes next to the veneering materi-
als a composite for provisional co-

bination and a chairside material for unde

termining.

Digital solutions to dental professionals and patients

Renishaw is thrilled to be combining its innovative engineering and CAD/CAM capabilities with Biomet 3i’s renowned clinical excellence.

Biomet, Inc announces the collaboration of its subsidiary, Biomet 3i, an industry leader in implant dentistry, and Renishaw plc, a leading manufacturer of in-lab dental scanning systems, to offer comprehensive digital solutions to dental professionals and patients worldwide.

Building on its portfolio of Patient-Specific CAD/CAM Restorative Products, Biomet 3i is expanding the boundaries of a traditional “dental implant” company by providing a series of innovative digital solutions from which laboratories, clinicians and patients can benefit. For Renishaw:

* 3i in one available in Europe.

** Cobalt Chrome only available in Europe.

The material homogeneity of Telio CAD ensures a balance between tensile strength and elasticity. Hot-melt surface finish with exceptional strength.

This process creates an individual provisional solution with a high-end surface finish with exceptional strength.

The restorations are subsequently polished or characterized with stains and layered materials. Telio CAD is part of Ivoclar Vivadent’s temporary solution system which includes next to the veneering materials a composite for provisional combination and a chairside material for underlining.

With Telio CAD, NobelProcera will create a new standard for temporary restorations on natural teeth and implant abutments. Milled from a solid block of Telio CAD acrylate polymer crowns and bridges up to six units are designed individually using the intuitively NobelProcera Software, industrially produced at Nobel Biocare’s state-of-the-art manufacturing facilities, and delivered to the dental laboratory.

These digital solutions offered by Biomet 3i and Renishaw include:

- 3i Ivoclar Copings and Frameworks;
- Renishaw contact scanners;
- 3i Ivoclar CAD software; and
- Renishaw in-lab milling machines.

Using the Renishaw scanner and 3i Ivoclar CAD software, laboratories can obtain broader access to a wide range of dental milling options, including the ability to scan precision copy milled bars. Laboratories utilizing the ProceraForte Scanner can also benefit from all of these solutions by using the 3i Ivoclar CAD software.

Clinicians can now offer patients 3i Ivoclar Copings and Frameworks in Zirconia and Cobalt Chrome ** and precision copy milled bars**. These options are patient specific and designed to result in beautifully crafted new smiles.

“We feel that this partnership will provide our mutual dental customers with unsurpassed access to the latest in digital dentistry technology”, said Maggie Anderson, President of Biomet 3i. Sir David McMurray, Chairman and Chief Executive of Renishaw plc agreed, adding “Renishaw is thrilled to be combining its innovative engineering and CAD/CAM capabilities with Biomet 3i’s renowned clinical excellence and international sales and marketing expertise”.
