DGOI
Buchholzer Str. 8
7603 Kraichtal
Tel: +49 7251 618996-12
Fax: +49 7251 618996-20
mail@dgoi.info

Accreditation
DGOI is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. DGOI designates this activity for 20 continuing education credits.

DGOI is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Membership and membership maintenance credit.

Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from April 1, 2010 to March 31, 2014. Provider ID# 21579.

Accompanying persons
Persons accompanying the delegates to the World Congress can enjoy spending time at the Congress and enjoying some of the benefits. For a fee of US$125 or 75 Euros, accompanying persons will receive the following:

• Continental Breakfast, Lunch and Coffee Breaks with the delegates
• Admission to the Welcome Reception on Thursday evening
• Admission to the Exhibition Hall

Social Program
Welcome Reception
Thursday, 26 August 2010, 18:30–20:00

Plan to attend the Welcome Reception in the Exhibition Hall which follows the afternoon session on Thursday.

This party allows for the delegates to socialize with colleagues, take advantage of discounts offered by our exhibitors at their booths and to view and judge part of the tabletop/poster presentation competition.

Awards Ceremony
Friday, 27 August 2010, 18:00–19:00

The awarding of advanced credentials to ICOI and DGOI members will take place following the final speaker on Friday afternoon.

From 18:30 to 19:30 on Friday evening, the newest ICOI Fellows, Masters and Diplomates and DGOI Masters will be recognized in the Convention Center.

Harbor Party
Friday, 27 August 2010, 20:00 to midnight

There will be dancing and a chance to see the famous Copenhagen harbor.

The 44th Scandinavian Dental Fair (SCANDEFA) took place in Copenhagen, Denmark from 7th to 9th April 2011. It was the leading annual dental fair in Scandinavia, with over 500 exhibitors and 1,340 visitors participating. The event took place at Bella Center, the leading exhibition space in Copenhagen. The 44th SCANDEFA invited dental professionals from all over the world to meet the Scandinavian dental market and sales partners in wonderful Copenhagen. The event was held in conjunction with the Annual Scientific Meeting, organized by the Danish Dental Association. More than 500 exhibitors and 1,340 visitors participated at SCANDEFA 2010 on 14,220 m² of exhibition space.

The site for this World Congress was the Hamburg Convention Center. The Congress was held in room blocks in the Radisson Hotel, adjacent to the Convention Center, and at the Grand Elysee Hotel, a five-minute walk from the Convention Center. Special Congress rates at the Radisson were 165 Euros (about US$225) or at the Grand Elysee Hotel for 120 Euros (about US$165).

The Copenhagen Convention Bureau, a member of the International Congress & Exhibition Bureau (ICCB), is the official destination agency for Copenhagen. Copenhagen is the annual leading fair in Scandinavia and offers a great line up of international exhibitions. Copenhagen is the largest city in Denmark and the capital of the country. It is located on the southeast coast of the Jutland Peninsula, facing the Kattegat Sea, and is surrounded by three lakes: Lake Mosegaard, Lake Øresund, and Lake Gudenå. Copenhagen is a hub for international trade, tourism, and cultural events. Denmark is in the middle of Europe and offers a short flight time from the US and Europe. Copenhagen is the perfect location for organizing an international congress and will remain on display throughout the Congress. The world congress provides the perfect forum for delegates to interact with colleagues in a social, yet instructive manner. Tabletop presentations should be kept no longer than 15 minutes that so the presentation can be repeated as new observers gather to review the case studies etc. Poster presentations will be placed on bulletin boards at the start of the Congress and will remain on display throughout the Congress. Poster presentations should be at their posters to address questions during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI and DGOI meetings.

The hotel information for the Congress included the Radisson Hotel and the Grand Elysee Hotel, offering special Congress rates at the Radisson of 165 Euros (about US$225) and at the Grand Elysee Hotel for 120 Euros (about US$165). The full list of hotels, their rates and contact information can be found on the Congress web-site, www.ion.worldcongress.com. Click on the hotel tab and download the list of hotels. The Congress news and online registration are available at www.ion.worldcongress.com.

The Accreditation section of the program outlined the requirements for Dental Congresses and the services of the American Dental Association (ADA) CERP, which is a service to assist dental professionals in identifying quality providers of continuing dental education. DGOI was designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Membership, and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from April 1, 2010 to March 31, 2014. Provider ID# 21579.

The Awards Ceremony on Friday, 27 August 2010, 18:00–19:00 included the awarding of advanced credentials to ICOI and DGOI members. The ceremony took place following the final speaker on Friday afternoon. The newest ICOI Fellows, Masters, and Diplomates and DGOI Masters were recognized in the Convention Center.

The Harbor Party on Friday, 27 August 2010, 20:00 to midnight included dancing and a chance to see the famous Copenhagen harbor.
**Industry Report**

**Precision milled, full-contour provisional restorations**

NobelProcera offers a new generation of highly esthetic provisional restorations.

- With Ivoclar Vivadent, a member of its Preferred Partner Program, NobelProcera now offers individually manufactured single crowns and bridges up to 6 units in Telio® CAD acrylic.

- The material homogeneity of Telio CAD ensures a balance between tensile strength and elasticity with high marginal stability compared with chairside temporaries. The result is a precision milled provisional available in six shades with excellent natural fluorescence and excellent surface finish for outstanding esthetics.

- With Telio CAD, NobelProcera will create a new standard for temporary restorations on natural teeth and implant abutments. Milled from a solid block of Telio CAD acrylic polymer crowns and bridges up to six units are designed individually using the intuitive NobelProcera Software, industrially produced at Nobel Biocare’s state-of-the-art manufacturing facilities, and delivered to the dental laboratory.

This process creates an individualized provisional temporary solution with a high-end surface finish with exceptional strength. The restorations are subsequently polished or characterized with stains and layering materials. Telio CAD is part of Ivoclar Vivadent’s temporary solution system which includes next to the veneering material a composite for provisional cementation and a chairside material for underlining.

**Biocompatibility and strongest temporary material**

Telio CAD by NobelProcera provides temporary restorations of exceptional fit, natural fluorescence, and optimum soft tissue support. It is easy to polish and has a high strength and stability in marginal areas. Owing to superior material composition and high-end surface finish, plaque accumulation is extremely low. Telio CAD acrylic polymer is a biocompatible material.

**Digital solutions to dental professionals and patients**

Biomet, Inc announces the collaboration of its subsidiary, Biomet 3i, an industry leader in implant dentistry, and Renishaw plc, a leading manufacturer of in-lab dental scanning systems, to offer comprehensive digital solutions to dental professionals and patients worldwide.

- Building on its portfolio of Patient Specific CAD and CAM Restorative Products, Biomet 3i is expanding the boundaries of a traditional “dental implant” company by providing a series of innovative digital solutions from which laboratories, clinicians and patients can benefit.

**Ergonomical and easy to use**

Single or complete systems by NOUVAG AG.

- No matter if you need a single component or complete systems, NOUVAG AG has the solution for you. From Hand pieces up to complete Surgical Units. The powerful and user-friendly MotorSystem “MD30” with a 16mm cavitational torque system will amaze you just as much as the powerful Suction Pump that comes with it. The mobile Suction System “VersaSuction 40” is a ready to use solution for all needs of Dental Surgery. Tri power plugs and antistatic, lockable rollers are provided on the “Suction” rolling frame. The combination of these features result in the ideal Surgical Unit for your doctor’s practice.
