Perhaps the most popular feature of our Continental Breakfast, Lunch and Coffee is being held in conjunction with the Annual Bella Center, is being held in Copenhagen in the Bella Center, is located just a 10 minute taxi drive from Copenhagen. The awarding of advanced credentials to ICOI and DGOI Masters will be recognized in the Convention Center. Special Congress rates at the Radisson are 165 Euros (about US$115), or at the Grand Elysee Hotel for 120 Euros (about US$145). For the full list of hotels, their rates and contact information, visit the Congress web-site, www.icoi-worldcongress-2010.com or click on the hotel tab and download the list of hotels.

Tabletop and Poster Presentations
Thursday, 26 August 2010: 18:30–20:00

Perhaps the most popular feature of our Congress is the Tabletop and Poster Presentation competition that occurs during the Welcome Reception in the Exhibit Hall on Thursday, from 18:00–19:30. This competition provides the perfect forum for delegates to interact with colleagues in a social, yet instructive manner. Tabletop presentations should be kept to 5–7 minutes so that the presentation can be repeated as new observers gather to review the case studies, etc. Poster presentations will be placed on bulletin boards at the start of the Congress and will remain on display throughout the Congress. Poster presentations should be at their posters to address questions during the Welcome Reception. All presentations will be judged, with the winners receiving awards and a podium consideration at future ICOI and DGOI Meetings.

Hotel Information
The site for this World Congress is the Hamburg Convention Center. The Congress is held in room blocks in the Radisson Hotel, adjacent to the Convention Center and at the Grand Elysee Hotel a five minute walk from the Convention Center. Special Congress rates at the Radisson are 165 Euros (about US$115) or at the Grand Elysee Hotel for 120 Euros (about US$145).

Accreditation
ICOI is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. ICOI designates this activity for 20 continuing education credits.

ACM 213712

Welcome to the 44th Scandinavian Dental Fair The leading annual dental fair in Scandinavia

The 44th SCANDEFA invites you to exquisitely meet the Scandinavian dental market and sales partners from all over the world in springtime in wonderful Copenhagen

ScanDEFA, organized by Bella Center, is being held in conjunction with the Annual Scientific Meeting, organized by the Danish Dental Association (www.tandlaegeforeningen.dk).

More than 200 exhibitors and 13,400 visitors participated at SCANDEFA 2010 on 14,220 m² of exhibition space.

Reservation of a booth
Book online at www.scandea.dk
Sales and Project Manager, Jo Jaqueline Oghrie sales@bellacenter.dk, T: +45 32 47 21 25

Travel Information
Bella Center is located just a 10 minute taxi drive from Copenhagen Airport. A regional train runs from the airport to Osted Station, only 15 minutes drive.

Social Program
Welcome Reception
Thursday, 26 August 2010, 18:30–20:00

Plan to attend the Welcome Reception in the Exhibition Hall which follows the afternoon session on Thursday.
This party allows for the delegates and spouses to relax with drinks and hors d’oeuvres and visit with colleagues. Take advantage of discounts offered by our exhibitors at their booths and to view and take part in the tabletop/poster presentation competition.

Awards Ceremony
Friday, 27 August 2010, 18:00–19:00

The awarding of advanced credentials to ICOI and DGOI members will take place following the final speaker on Friday afternoon.
From 18:00 to 19:30 on Friday evening, the newest ICOI Fellows, Masters and Diplomates and DGOI Masters will be recognized in the Convention Center.

Harbor Party
Friday, 27 August 2010, 20:00 to midnight

There will be a dinner and a swimming on board the Palmer Rickmers.
Biomet, Inc. announces the Nobel Procera now offers individually manufactured single crowns and bridges up to 6 units in Telio® CAD acrylic.

The material homogeneity of Telio CAD ensures a balance between tensile strength and elasticity with high marginal stability compared with chairside temporaries. The result is a precision milled provisional available in six shades with excellent natural fluorescence and excellent surface finish for outstanding aesthetics.

With Telio CAD, NobelProcera will create a new standard for temporary restorations on natural teeth and implant abutments. Milled from solid blocks of Telio CAD acrylic polymer crowns and bridges up to six units are designed individually using the intuitive NobelProcera Software, industrially produced at Nobel Biocare’s state-of-the-art manufacturing facilities, and delivered to the dental laboratory.

This process creates an individually milled full-contour provisional solution with a high-end surface finish with exceptional strength. The restorations are subsequently polished or characterized with stains and layering materials. Telio CAD is part of Ivoclar Vivadent’s temporary solution system which includes next to the veneering material a composite for provisional cementation and a chairside material for undentifying.

**Cobalt Chrome only available in Europe.**

**Telio CAD ensures a balance between tensile strength and elasticity with high marginal stability compared with chairside temporaries.**

**Digital solutions offered by Nobel Biocera are available in Europe. Nobel Biocare Services AG is the owner of Nobel Biocera.**

**Members of the Board:** Dipl.-Betriebsw. Lutz V. Hiller
Dipl.-Päd. Jürgen Isbaner (V.i.S.d.P.)

**President of Biomet 3i:** Sir David McAlpine Chairman and Chief Executive of Biomet plc agreed, adding “Renishaw is thrilled to be combining its innovative engineering and CAD/CAM capabilities with Biomet 3i’s renowned clinical excellence.**

**Digital solutions offered by Biomet 3i and Renishaw include:**

- 3i Incise Copings and Frameworks;
- 3i Incise contact scanners;
- 3i Incise CAD software; and
- Renishaw in-lab milling machines.

Using the Renishaw scanner and 3i Incise CAD software, laboratories can obtain broader access to a wide range of dental milling options, including the ability to scan precision copy milled bar patterns. Labora-tories utilizing the ProceraPara® Scanner can also benefit from all of these options by using the 3i Incise CAD software.

Clinicians can now offer patients 3i Incise Copings and Frameworks, premium Cobalt Chrome and precision copy milled bars*. These options are patient specific and designed to result in beautifully crafted new smiles.

“We feel that this partnership will provide our mutual dental customers with unsurpassed access to the latest in digital dentistry technology”, said Maggie Anderson, President of Biomet 3i. Sir David McAlpine, Chairman and Chief Executive of Biomet plc agreed, adding “Renishaw is thrilled to be combining its innovative engineer-1

**Bioaccessibility and strongest temporary material**

Telio CAD by NobelProcera provides temporary restorations of exceptional fit, natural fluorescence, and optimum soft tissue support. It is easy to polish and has a high strength and stability in marginal areas. Owing to its posterior material composition and a high-end surface finish, plaque accumulation is extremely low. Telio CAD acrylic polymer is a bioaccessible material.
