SUBGINGIVAL WITHOUT LIMITS

THE DEEPEST PERIODONTAL POCKETS NOW WITHIN REACH WITH THE ORIGINAL AIR-FLOW METHOD

AIR-FLOW MASTER® is the name of the world’s first subgingival prophylaxis unit. With two application systems in one. For sub- and supragingival use with matching handpiece and powder chamber.

Incredibly easy to operate. Uniquely simple to use.

Touch ‘n’ flow: Highly sensitive 3-touch panel for easy choice of settings.

The inventor of the Original Air-Flow Method is now first to cross the boundaries of conventional prophylaxis.
