DUBAI, UAE: For the month of November, ‘Mouth Cancer in Dental Hygiene’ runs throughout the UK. In support of ‘Mouth Cancer Awareness Month’, Dr Roze & Associates Dental Clinic, began the evening with a lecture on ‘Mouth Cancer Awareness’, followed by Dr Peter Cruse from CPS, who lectured on ‘The Pathology of Oral Cancer’. In reference to publications from the British Dental Health Foundation 400,000 cases of mouth are diagnosed worldwide every year. In the UK research reveals there has been a 50% increase in Oral Cancer since 2000. The prevalence in youngsters is increasing. Early diagnosis is key, and can increase survival rate by 90%. The key message is ‘If in doubt, get checked out’. Any ulcers, white patches, red patches, lumps swellings, that don’t go within 2-3 weeks, visit your doctor or dentist. Create awareness of the main risk factors associated with mouth cancer. The main risks are smoking, alcohol, poor diet, HPV (Human papillomavirus), smokeless tobacco (betel nut, naswara, paan, gutkha, areca nut). Due to recreational Sunscreen, Caries Prevention, Invisalign, Whitening (Oral Health Program) and VITA. Other Industry Players taking part include: Middle East Denture Lab, Noble Medical Equipment, Rockey Mountain Tissue Bank, AIL, Laboratories, Fahmos Int’, Inman Aligner, Dentegris, High Technology, Dubai Medical Equipment, Anyong Zongyang Dental Materials Co, Qualident and Pododont. The conference welcomed 1255 participants and 105 representatives from the international delegate. There were 20 different countries represented within the two-day conference.

The international team of speakers, Dr. Andreas Kurbard, Germany; Dr. Maria Hard, UK; Prof. Dr. Claus-Peter Ernst, Germany; Dr. Paul Weiss, Germany; Dr. James Russell, UK; Dr. Gary Wadhwa, USA/AAD; Col. Hong Murray UK; Prof. Khaled Balto, KSA; Dr. Ramesh Sabhlok, UAE; Dr. Hoang Phuc, Vietnam/AAD; Dr. Luca Cardaro, Italy; Dr. Natalie Wong Canada/ AAD; Dr. Harald Haake, Germany; Dr. Shankar Iyer USA/ AAD; Dr. Teddie Lynn Hudson, KSA discussed together the latest in Aesthetic and Implantology. The agenda featured valuable examples of how the latest developments are being put to work in the service of learners regardless of their location or level of technology. The two-day conference once again included the Dental Technicians Parallel Session on the second day with two courses given by Alham Farah, COT, USA and Dr. Al Shaker, Egypt. Handouts on courses were presented by Dr. Munir Silwadi, UAE and Dr. Ajay Junjua.

Recognized as a pioneer within the region, the program remained committed to achieving simplicity through innovation, giving clinicians the tools to provide patients with a wide range of premium dentistry solutions.
