ultra mini head &
super slim body

new
S-Max
pico

S-Max pico Series features ultra-mini head and super-slim body that has been developed specifically for
delicate operations with high precision. With its greater visibility and accessibility to hard-to-treat oral
areas, pico allows you to work more freely on pedodontics treatment, chamber opening, minor-technique
operation, and buccal and lingual axial reduction in the posterior areas. Pico is now a “must-have”
handpiece for every practice and clinic which will be beneficial to both patients and clinicians. Use of
NSK’s original pico bur (or its equivalent bur) is strictly required.

The smallest head size in the world

The slimmest neck in the world

Dedicated burs for S-Max pico series

Specifications of each bur

- PC1 for opening the fenestration and removing the soft tissues
- PC2 for the preparation of small-palatal roots
- PC3 for removal of palatalRoots
- PC4 for the mixing of intracanal and last enamel preparative
- PC5 for the preparation of tubed root and cut area and ease
