Dubai Dental Meetings
10 years of Continuing Dental Education

2005–2015: CAPP celebrates ten years of successful continuing dental education

By Dr. Dobrina Mollova

Dubai, UAE: May 2015 will mark a significant milestone in the history of the Centre for Advanced Professional Practices (CAPP) in Dubai. CAPP will be celebrating its tenth anniversary of successful continuing dental education not only in the United Arab Emirates but also across the Middle East. Through the hard work of its colleagues, sponsors, partners and supporters, CAPP has been able to establish first-class standards for continuing dental education programmes over the past decade. Participants and followers of CAPP programmes have also helped develop professional training according to the needs of the region with their open feedback.

CAPP is an ADA CERP-recognised provider that specialises in continuing medical and dental education programmes (conferences, hands-on courses, workshops and self-instruction programmes). For the past ten years, CAPP has facilitated over 550 continuing education programmes with over 52,000 international participants. With the opening of CAPP Asia in 2012, CAPP’s reach has expanded to the Asia Pacific region and beyond.

In 2012, CAPP joined the global family of 96 publishers by becoming the proud owner of the Dental Tribune Middle East & Africa edition, and has since been delivering six print editions annually to over 20,000 dental professionals in the Middle East and Africa region and has delivered 24 newsletters to more than 41,000 active subscribers. Through its international website, the latest industry news reaches the largest dental community worldwide—an audience of over 650,000 dentists.

CAPP started out in Dubai ten years ago as a centre for professional training. It quickly grew and developed two very important international conferences: the CAD/CAM and Digital Dentistry International Conference and the Dental-Facial Cosmetic International Conference.

Next year, the tenth CAD/CAM and Digital Dentistry International Conference will be celebrated together with the CAPP anniversary. The last decade has been a journey with challenges in keeping pace with the incredibly fast growth of the industry combined with new technologies, particularly in digital dentistry.

Ten years ago, it would have been difficult to imagine the kind of opportunities presently available to change dentistry and improve overall patient care, including diagnostics, planning and treatment, in terms of precision, treatment and healing time, and aesthetics.

What has been accomplished in the past ten years has been significant and CAPP would like to thank all of its business partners, sponsors and supporters for together making CAPP the success it is today. CAPP would especially like to acknowledge all who have worked at and continue to be with the CAPP office and share the challenges and passion. Thanks also go to all of the dentists, dental technicians, dental hygienists and dental assistants who have followed us in the decade of rapid development of the dental industry and dental technology.

Book your luxury stay at Jumeirah Beach Hotel Dubai together with the CAD/CAM & Digital Dentistry International Conference on 08-09 May 2015 and enjoy our CAPP corporate rate.

While you are at the Conference, discover Jumeirah Beach Hotel’s services and facilities for the whole family at Dubai’s finest beach hotel. Enjoy spectacular views of the Arabian Gulf.

At the Conference we consider every moment another chance to satisfy your needs for continuing dental education and for leisure. Enjoy one of our guest packages for you and your family, which lets you be you.

We are looking forward to welcome you to the truly unique beach resort.

Thank you all very much for your support and loyalty year after year. This year marks the 10th anniversary of our conference. What starts as a simple idea 10 years ago proved, without no doubt, to be a success beyond compare.

Our societies are becoming more and more dependent on technology and what it can offer to make our lives easier and more enjoyable. Dentistry is no exception. Our patients are all the way different than they used to be a couple of decades ago. They have unrestricted easy access to knowledge through the web. They are becoming more and more demanding in terms of services that we provide as well as the technology we employ to do so.

“Do you provide CE/EC restorations in your office?”. “Does this office use Zirionia and Enuss for crowns and veneers”. “Are you Doc in CAD/CAM technology?”. These are quite common questions our patients usually ask nowadays. Questions that are very hard to answer unless we are really involved in this fast moving technology. This is precisely the importance of our conferences.

Our team of Organizers, Sponsors, as well as Speakers will continue our quest to keep all of you well ahead and updated in all fields of CAD/CAM and Digital Dentistry.

IA ANNUAL SYMPOSIUM

Inman Aligner and Intelligent Alignment Systems are pleased to announce our annual symposium. Following a superb 2014 meeting in Copenhagen our 2015 venue is DUBAI! We have a world renowned line-up of speakers.

We have secured fantastic room rates at the exclusive Jumeirah Beach Hotel during peak season Only:
900 AED (£160 / €216 / $245) + tax

We are also pleased to share the venue in a joint meeting with the 7th Dental - Facial Cosmetic International Conference (DF-CIC) so those wanting to combine some winter sun with even more superb CPD can combine both meetings.

To book any of the events visit:
