Dear Friends and Colleagues

Welcome to yet another edition of the 9th CAD/CAM & Digital Dentistry International Conference.

We live in an exciting era of medical and technological breakthroughs. Having witnessed a number of great advancements in the dental industry we need to keep abreast with these latest developments in order to serve our patients at the best level which they deserve.

This year’s conference will cover several subjects related to Digital Dentistry enlightening all delegates with experiences from over 25 international Key Opinion Leaders who have gathered in Dubai to share with us the latest research and developments. Participants will also have the unique chance to see the latest equipment which will be showcased at the product display made available by the top of the dental industry. We sincerely hope that this meeting will let participants immerse themselves in plenty of knowledge exchange and share opportunities with one another.

Dr. Aisha Sultan
President Emirates Dental Society
President of the Conference

Dr. Munir Silwadi
BDS, MRCDSO, DUSS, FADI, FICD
Conference Chairman & Scientific Advisor

Though the dental CAD/CAM industry has reached quite a very high level of development and became a major trusted player in Dentistry, it continues to improve on a fast pace. Statistics tell us that by the year of 2050, more than 50% of dental services will be done through CAD/CAM technology. This serves only to highlight the importance in keeping up with this fast moving technology through such highly specialized conferences.

We will continue this unsurpassed cooperation to bring to our audience the most recent updates of technology in the CAD/CAM eld with few “surprises” as well.
