Dubai, UAE: The Dental Society of the Emirates Medical Association is going to hold its dental board election to elect a new board on November 15, 2015 as part of the 7th Dental-Facial Cosmetic International Conference (13-14 November). These events will be part of the Dubai Dental Week (11-15 November 2015) which has become the region’s trendsetter when it comes to showcasing the latest evidence based scientific cases through Centre for Advanced Professional Practices’ (CAPPmea) accredited Continuing Dental Education programs alongside modern day innovations and cutting edge technologies shown by the dental manufacturers.

With the 21st Century being a time where science and trade go hand in hand, it is of utmost important to stay updated in our professional lives. With the internet opening doors to information to everyone, the dental patient has unrestricted access to global standards of dental care. The thought of success in Dentistry today is underlined by innovation and cutting edge technology as well as evidence based scientific improvements. It is a fact that the dental industry has seen a shift from being trade to being evolved as a scientific trade. With this being said, 7th Dental-Facial Cosmetical International Conference in Dubai has become the region’s trendsetter when it comes to showcasing the latest evidence based scientific cases through Centre for Advanced Professional Practices’ (CAPPmea) accredited Continuing Dental Education programs alongside modern day innovations and cutting edge technologies shown by the dental manufacturers.

In the 10th year Anniversary of CAPPmea, 7th DFCIC is proud to offer an expanded partnership with eminent strategic partners such Emirates Dental Society, Saudi Dental Society, Lebanon Dental Association as well as American Academy of Implant Dentistry, Inman Aligner Academy and the International College of Dentists who all hold their annual events as part of the Dubai Dental Week.

The organizers have once again planned an unparalleled Continuing Dental Education program for November 2015. Featuring some of the most prolific educators in the field of Dentistry, delegates will have a choice of a full-day Seminar on Alignment, Bonding, Bleaching and more (Inman Aligner Symposium - 12th November), two day Scientific Conference on the latest in Dental Facial Aesthetics (7th DFCIC joint event with AAID 15-14 November), half-day seminar (ICD

to hold its
dental board election at 7th DFCIC
Participants focused on the presenters of Switzerland who will demonstrate Composite® The Next Generation of a Direct Veneer System. Day 2 highlights include Prof. Paul Tipton known for the famous Tipton Training courses for dental professionals in the UK who will speak on The Role of Vertical Dimension of Facial Aesthetics. AIAI speakers Dr. James Lounaud, USA, Dr. Cheryl Pearson, USA, Dr. Stuart-Orton Jones, UK and Dr. Roderick Stewart, Canada will cover topics such as CEREC and Implants, Evidence Based Implant Dentistry, Full Arch Implant Supported Strategies and Treatment of Inadequate Ridge Height using Tatum Ridge Repositoning.

CAPPmea is an ADA C.E.R.P. Recognized Provider of Continuing Education and the Dubai Dental week has additional accreditation opportunities through the Authority Abu Dhabi and Dubai Health Authority. The main scientific conference includes 19 international speakers from 12 countries presenting their latest clinical cases in the field of Dental Facial and Aesthetic Dentistry on topics such as Minimal Invasive Dentistry, Chairside CAD/CAM, Restorative Dentistry, Implantology, Laser, Prevention, Veners, Crowns, Bridges, Impression, Certification, Prosthodontics, Alignments, Bonding, Bleaching and many more.

Inman Aligner Academy proudly holds its Annual Symposium with 7th Dental Facial Cosmetic Int’l Conference

By Dr. James Russell, UK

Inman Aligner and Intraoral Camera Systems are pleased to announce our Annual Symposium on 12 November 2015. Following a superb 2014 meeting in Copenhagen our 2015 venue is DUBAI! We are very excited to announce our venue in a joint meeting with the 7th Dental - Facial Cosmetic International Congress (DFCIC) organized by CAPPmea so those wanting to combine some winter sun with even more superb CPD can combine both meetings. We have a world renowned line-up of speakers including Dr. Tif Qureshi, UK (President British Academy Cosmetic Dentistry) who will start the event on the Current Trends in Anterior Aesthetic Dentistry! Invasive Occlusal Dentistry – The new path for dentistry. Further presentations will cover GDP Orthodontic pre-alignment prior to composite bonding and veneers - a technique case study by Dr. James Russell, UK and Emulating natures morphology with direct composite by Dr. Jasen Smithson, UK. The morning session will conclude with Dr. Jean Nolte, Germany and Dr. Andy Wallace, UK speaking on Creating the Dream Aesthetic Practices and Why every dentist should offer simple orthodontics.

The IAA Symposium will additionally cover Dental Photography (Dr. Richard Field, UK), 50 Years of Odontology (Dr. Erik Svendsrud, Norway), Alignment, Bonding and Bleaching (Dr. Charlotte Nyby, Denmark), Prof. Ross Holbrook, UK will conclude the promising and highly anticipated IAA 2015 Symposium with Avoiding orthodontic pitfalls as a GDP.

With an expanded program, two dedicated hands-on courses and an update course will keep delegates busy throughout the Dubai Dental Week scheduled between 11-15 November 2015. The Inman Aligner Certification Course designed to teach attendees how to use the Inman Aligner in order to be a certified user will take place on 15 November 2015. All aspects of the treatment will be covered from case evaluation to fitting and then retention, so that attendees will be able to handle simple to moderate cases immediately. The Advanced Course also scheduled for 15 November will be run by Dr. Tif Qureshi, and is designed to allow experienced Inman Aligner users to treat more complex cases with confidence. We recommend that dentists have completed at least 10 cases to make sure they benefit from this training. A date course on 15 November is the 2015 instalment of the highly rated update course. A day packed with the latest tips and techniques to wow your Inman Aligner treatments.

We look forward to welcoming all delegates to our Annual Symposium.

AAID - 4th Global Conference meets 7th Dental Facial

By Dr. Shankar Iyer, I.S.A.

The first global Conference of the AAID was held in New Delhi in 2010 along with the World Congress of Oral Implantology. Four years later the AAID will hold its 4th Global Conference with the 7th Dental Facial Cosmetic International Congress at Jumeirah Beach Hotel Dubai on 11-15 November 2013. World Class Faculty and experts will present the new concepts to explore the controversies surrounding dental implant therapy. Which is the best method to grow bone vertically? Evidence Based Implant Dentistry, The Full arch Implant Supported Strategy, Cerec & Dental Implants - 21st Century Dentistry and several other issues will be presented at this conference. I am delighted to work with Dr. Ninette Banister who is the Secretary for the Atrophic Maxilla including Sinus Grafting and Sinus Floor Elevation.

I am pleased to invite you to this conference to make the Perfect Dental Connection and be immersed with the fusion of Aesthetics and implant dentistry. I am sure you will bring back new concepts to explore the controversies surrounding dental implant therapy. Which is the best method to grow bone vertically? Evidence Based Implant Dentistry, The Full arch Implant Supported Strategy, Cerec & Dental Implants - 21st Century Dentistry and several other issues will be presented at this conference. I am delighted to work with Dr. Ninette Banister who is the Secretary for the Atrophic Maxilla including Sinus Grafting and Sinus Floor Elevation.

Middle East region providing a total of 55 CME credit points to international delegates throughout a series of scientific sessions. The election will take place concurrently with the 7th Dental Facial Cosmetic International Conference to be held at the Jumeirah Beach Hotel, Dubai, UAE. The Emirates Dental Society and CAPPmea have enjoyed a strong collaborative relationship over the past 10 years and holding the Dental Society General Election in conjunction with CAPP is an example of the strong relationship between the two institutions. All members of EDS are invited to attend this important election scheduled on 13th of November at 18:00 in order to support the EDS for the better of dentistry of the UAE.

Throughout the period of Dr. Aisha Sultan as the President of the EDS, one of the most memorable achievements was her election as the President of the Asia Pacific Dental Federation for the period 2014-2015 and to successfully host the Asia Pacific Dental Conference in Dubai for the first time outside of Asia and in the Middle East. It is important to continue the strong progress and evolution of the dental profession in the United Arab Emirates.

A day out for the Dental Hygienist – 14 November 2015

By Dental Tribune MEA/CAPPmea

With an increase focus on the Dental Hygienist profession, clinics in the Middle East are becoming more and more aware of the importance of a complete dental team including the Dental Hygienist role. Following the previous two successful editions, 3rd Dental Hygienist Day will include hot topic presentations on oral care, prevention, evidence-based dentistry, oral prophylaxis, early childhood caries prevention, how diets effect oral health, periodontal disease, diabetes, magnification and ergonomics as well as probiotics from an oral and dental perspective. 9 International Speakers will give their best interpretations of what is best for the Dental Hygienist profession. The pre-Dental Hygienist Day hands-on course (15 November) will focus on Individually Trained Oral Prophylaxis - iTOP, where delegates will learn about Biofilm characteristics, failures in existing oral prophylaxis, technique and tools selection and much more. The full day hands-on course will be given by Dr. Franka Baranovic-Huber from Switzerland. A further Peri-odontal Instrumentation hands-on course (14 November) will be provided by Mary Rose Pincelli Boglione, Italy on miniaturized instruments in non-surgical periodontal therapy and further how polishing will brighten the smile.

The 3rd Dental Hygienist Day will further host a dedicated exhibition featuring sponsors EMS – Electro Medical Systems, Oral-B, Philips SoniCare, Cowell, Hu-Friedy, Curaden and KERR.

Advancing your Experience with 19 Hands-On Courses 11-15 November 2015
