A word from Jérôme Estignard, FDI interim executive director

Jérôme Estignard was appointed interim executive director by the FDI Council during the 2010 FDI Annual World Dental Congress held in Salvador da Bahia. He will manage the FDI head office during the search for a permanent executive director.

Estignard has been with the FDI since November 2009 as finance and operations director. His prior experience includes five years as senior auditor at PriceWaterhouseCoopers in France and 12 years at SITA in France, Germany and Switzerland, including his duties as financial reporting at SITA, Switzerland, from 2004 to 2008.

Estignard holds an MBA from the International University of Geneva (Switzerland), a degree in accounting and finance from the ICS Business School in Paris (France) and a degree in business economics from the Université de Sceaux (France).

“Last month FDI hosted another Annual World Dental Congress in Salvador da Bahia, bringing together close to 10,000 participants worldwide. Striving toward better oral health never stops and we are now focusing on building a solid foundation for the work ahead of us,” Estignard said.

“The FDI is a membership organisation and as such, we are seeking to enhance services for our members, taking into account the advice and opinions from all members, national dental associations and stakeholders. “I am privileged with a trust that the FDI Elected have placed in me and am very enthusiastic about our future. With the support of the FDI Council, numerous volunteers, head-office staff and our partners, FDI is continuing its journey toward the vision of optimal oral health for all.”

“The FDI head office stays at your disposal and service. We welcome your questions and feedback, especially on the FDI’s new projects, launched at the recent FDI Congress in Salvador, such as Data Mirror and VOX. Both tools were developed with one goal — to better serve our members,” he said.

National dental associations rally to help rebuild Haiti's oral health infrastructure

When Chantal Noël, national liaison officer of the Association Dentaire Haïtienne, spoke at the General Assembly of the International Dental Federation in Paris, she expressed enthusiasm to work with FDI members about the rebuilding and re-equipping of national dental associations worldwide, especially in Haiti.

Noël plans to enlist the support of national dental associations worldwide in the rebuilding and re-equipping efforts. She will use VOX to communicate with all FDI members about the equipment that is needed by Haitian dentists. Chantal gave insight into the equipment that is needed by Haitian dentists and the conditions in which they practice.

Already engaged, the American Dental Association is raising funds for Haiti through a campaign called “Adopt-a-Practice: Rebuilding Dental Offices in Haiti.” The ADA will use VOX to promote this campaign and is urgent other national dental associations to participate. Without help, most Haitian dentists will not be able to rebuild their practices. The campaign aims to raise $350,000 by the end of 2010.

2010 FDI/Unilever Poster Award Competition

The six winners of the 2010 FDI/Unilever Poster Award Competition were announced during the VIP reception at the 2010 Annual World Dental Congress on Sept. 2. They are:

• Comparison of resin-based sealers 2seal and AHPlus cytotoxicity on cell lines MG-63 and Saos-2 Maryam Elsant*, Ebrahim Zabih (Iran)
• Prostaglandin E2 induces receptor activator of nuclear factor kappa B ligand expression in human periodontal ligament cells via EP2 receptor Navapat Sakorwimon*, Auspre- 1210.449.764, Prasit Paews- ant (Thailand)
• Prevalence/distribution of Porphyromonas gingivalis fimbriae subtypes in patients with severe periodontitis Patrick Frank*, Sigrun Eick, Chong-Kwan Kim, Peter Eickholz, Ti-Sun Kim (Germany)
• Activity of plant extracts from the Brazilian Panta- nal against Streptococcus mitis Fernando Lourenço Brighenti, Marcos José Salvador, Alberto Carlos Botazzo Delbem, Adina Cléia Boalazzo Delbem, Cristiane Yumi Koga-Ito (Brazil)
• Tooth loss and oral health self-perception of adults covered by health strategy for the family in Salvador, Bahia, Brazil Mércia Sacramento Dos San- tos, Gimena Melo Santos, Fabi- ana Baynal Floresano, Maria Isabel Pereira Viana, Maria da Conceição Nascimento Costa (Brazil)
• Sickle cell disease, oral health status and socioeconomic conditions of children in the state of Bahia — a cohort study Felipe Fagundes Soares, Thais Régis Aranha Rossi, Maria Isai- bel Pereira Viana, Maria Cristina Teixeira Canguassu (Brazil)

The FDI received more than 120 submissions for the competition this year.

The best posters were selected as finalists prior to the congress and were then invited to present their posters and research to a panel of judges, followed by a question-and-answer session at the congress.

All winners received a free registration to a future FDI Annual World Dental Congress and 1,500 Euro toward his or her participation in the congress.

All information on the contest will be posted on the FDI website once it becomes available.

FDI successfully launches new communication platform — VOX

VOX, the voice connecting the oral-health world, was successfully launched in Salvador da Bahia, Brazil, during the FDI AWDC 2010.

The platform was presented to members in both the FDI General Assembly and National Liaison Officers forum, following online access being made available to members.

This new FDI web-based membershhip communication platform comes in response to requests from FDI members, and it is tailored to meet their diverse needs.

VOX aims to unify FDI members, governance and staff online contact through an intuitive application that provides information about FDI members, facilitates FDI member-to-member relationships, enhances visibility of oral health leaders and encourages knowledge sharing.

After the launch, members have been actively exploring VOX and communicating their feedback:

• “Congratulations on the
