Every year in the United States, 30,608 emergencies occur in dental offices, according to the American Dental Association. So that they can respond when one of them inevitably occurs in their office, dentists must have an appropriate emergency response plan and appropriate emergency response equipment to match.

Savalife’s Quick Response M100 emergency drug kit includes the pre-filled syringes, sprays and inhalants needed to quickly and effectively treat common patient emergencies, including those related to angina, asthma, insulin problems, allergic reactions, fainting, heart attacks and more.

As convenient as it is necessary, the kit saves patients’ lives while also saving dentists’ practices, as appropriate emergency response can reduce dentists’ exposure to risk and liability.

What’s more, because the kit is free when they sign up for Savalife’s Automatic Drug Refill Program, it allows dentists to invest their time and money where it belongs — with their patients.

For more information or to order, call (800) 933-5885 or visit www.savalife.com.

**Boost success with sedation dentistry and team training**

By Alex Harris

Taking your dental practice to a higher level requires a thorough examination of what your practice may be missing and what can be done better. For most dentists, it isn’t giving their office a new look, playing relaxing music or conducting more marketing. Attaining a high level of success requires taking the steps necessary to stand out from the rest.

More and more dentists are finding that step to be training in sedation dentistry. Through these learned skills, protocols and acquired certifications, dentists are able to meet the needs of the 90,000,000 people in the United States who suffer from dental fear or anxiety.

In addition to the millions of healthy adult patients who can benefit from sedation dentistry, there are millions of others who have unique needs that necessitate specific training.

This type of training is available nationwide from top C.E. programs like DOCS Education — North America’s leading provider of sedation dentistry and dental emergency preparedness education.

The organization offers courses on oral sedation, IV sedation, medically complex and pediatric patients, advanced cardiac life support (ACLS), pediatric advanced life support (PALS) and much more.
Keep germs at bay even as you type

By Fred Michmershuizen, Online Editor

With all the concern these days over the H1N1 virus and other harmful pathogens, it always pays to err on the side of caution when it comes to cleanliness.

We’re told by medical professionals to wash our hands. But what about washing the surfaces our hands touch?

This waterproof keyboard can be wiped down with disinfectant cleaners, allowing you that added benefit of knowing you are keeping germs away.

Visit www.cleankeysinc.com for more information.

BUILD
A LEVIN PRACTICE™
WITH LEVIN GROUP’S
TOTAL PRACTICE SUCCESS™

Our commitment is to help every dentist grow regardless of the economy. Every practice has the potential to transform into A Levin Practice™ and anticipate these results:

• Continually increasing production
• Continually increasing profit
• Continually increasing patient referrals
• A low stress practice environment
• High levels of professional satisfaction
• Reaching financial independence sooner

Dentists who grow their practices are implementing effective marketing and management systems allowing them to outperform other practices. You can’t afford to sit back and wait for something to happen. You have to act now to make a difference!
