An orally administered, film-coated tablet available on prescription only, Periostat® contains a sub-antimicrobial dose of 20mg doxycycline. Specifically designed to be taken twice a day for three months, Periostat® is an adjunct to professionally delivered scaling and root planing procedures.

Periostat® suppresses tissue-destructive enzymes including collagenase and can actually reverse the disease process, making it a valuable addition to your array of treatments for periodontitis.

* / Periodontal, 2004; 31:697-707

**UCL Postgraduate Certificate in Dental Sedia- tion and Pain Management**

The UCL Eastman Dental Institute will next deliver their Dental Sedation and Pain Management course on 6th, 7th, 9th and 10th May 2009 with practi- cal training and further didactic teaching being delivered over the following six months.

Professor James Roelofse, Professor of Anaesthesiology, is Programme Director and is supported by Dr Yusof (Joe) Omar and Dr Andre du Plessis and a faculty of experienced teachers. Some of the topics to be covered include:

- Treatment planning and pain management
- Behavioural management techniques
- Patient assessment and clinical examination
- Introduction to paediatric se- dation
- Practical aspects of setting up a sedation service

Course participants will ad- minister conscious sedation to patients under the close super- vision of experts. They will be encouraged to demonstrate this in their own practices, seeking advice from their course mentors when necessary.

The course is suitable for both dental and medical practi- tioners as well as hospital based clinicians from all specialties.

For more information contact Victoria Banks, Course Ad- ministrator, on 020 7985 1251, email v.banks@eastman.ucl.ac.uk or visit www.eastman.ucl.ac.uk/cpd

**Oraldent offers effective help in the treatment of Periodontitis**

Periodontal disease is not exactly rare in the UK, and dentists need as much help as they can get in treating this disease.

The good news for patients, and for dentists who pride themselves on providing quality care, is that Oraldent, the leading specialist in preventive oral care products, is proud to be distributing Periostat® 20 mg film-coated tablets (doxy- cycline) in the UK to meet the need for a proven adjunctive therapy.

**FREE Book and Beautiful II from Shofu**

Shofu are offering the first 10 readers to call the opportunity to win a fabulous full colour glossy book, Periodontal, 2004; 31:697-707, a fascinating 252 page book enti- tled ‘A clinical Guide to Direct Cosmetic Restorations’ written by Sushil Koirala and Adrian Yap clearly illustrates actual case studies. It takes you through smile design, demonstrat- ing the principles and pro- tocols all the way through to produc- tion of their skills by patients and colleagues alike. For tech- nicians it allows them to demonstrate their skills in plan- ning and producing restora- tions as an active member of the dental team.

For more information contact Suzy Rowlands on 0207 612 4166, email: info@bacd.com or visit www.bacd.com

**New Velopex Laser Fibres**

Velopex are delighted to an- nounce the arrival of the new Velopex Laser Fibres. These 520 micron flexible fibres are sheathed in a white plastic outer. These fibres work su- perbly with either the Velopex Classic, or Colour, Diode Laser models.

Each fibre is pre sterilised and is ready for use. The white outer can be stripped back by applying pressure between your fingers and pulling gently. This robust 2.5M fibre has proved to break very good value for money - as it is almost impossi- ble to break clinically. They are suitable for all applications: Pe- rio, Endo, Surgery as well as non-vital bleaching.

The new fibre works with both the old style (front adjust- ing) handpiece as well as the new style (front adjusting) handpieces.

For more information or to ask any questions, please contact: Mark Chapman Medivance Instruments Ltd Barretts Green Road Northampton NN4 8LD Tel: 01604 870747

**Waterpik® Dental Water Jet**

**Effective oral hygiene for implants**

With implants susceptible to peridontal breakdown, regu- lar professional maintenance is essential. When choosing a product for interdental and sub- gingival cleaning, it is impor- tant that it does not have any metal or wires that can scratch the titanium of the implant.

Plaque biofilm and bacteria can form around the implant causing peri-implantitis. A manual or sonic toothbrush is effective in cleaning above the gum line, but what about below? The Waterpik® Dental Water Jet with the Pik Pocket™ subgingival irrigation tip is ideal as the soft tapered tip is placed slightly below the gingi- val margin and the gentle pulsa-
tions of water or antimicrobial mouth rinse flush out the bacte-
ria.

The University of Buffalo carried out a study using the Waterpik® Dental Water Jet plus the Pik Pocket® Subgingival Irrigation Tip with 0.06% chlorhexidine. It proved to be 87% more effective in reducing bleeding around the implants than the traditional rinsing method (0.12%).

Waterpik® Dental Water Jets are now widely available in Boots stores or speak to your dental wholesaler for your professional courtesy discount. For more information visit www.waterpik.co.uk ■

British Orthodontic Society welcomes an Independent Review of NHS Dentistry

The British Orthodontic Society (BOS) has welcomed an Independent Review of NHS dentistry following the adverse comments from the Health Select Committee (HSC) enquiry into the new dental contract arrangements.

Iain Hathorn, Chairman of the British Orthodontic Society who made the statement on 16 December 2008 added “The BOS is also committed to help inform commissioners for pri-
mary and secondary care who were given such a poor report from the HSC. There is a high
turnover of managers in dental commissi-
on, who need help to understand the complexities of
dental and orthodontic con-
tracts, to ensure the highest
numbers of patients get the
treatments they deserve”

Background information

The British Orthodontic Society represents the interests of specialist orthodontists in pri-
mary care, secondary care, the university sector, community orthodontists and dentists with a special interest (DWSs) in ortho-
dontics and the provision of best possible orthodontic care.

The Society is a charity and alongside its traditional focus on research and on promotion of the highest clinical and ethi-
cal standards, the BOS and its members aim to increase un-
derstanding of orthodontics and the benefits offered by treat-
ment.

Vizilite™ screening test for oral cancer

Vizilite Plus™ is a simple technology to assist in the early detection of oral abnormalities including premalignant lesions and oral cancer. Vizilite Plus™ comprises of a chemiluminescent light source to identify cases of lesions and a blue pho-
nothiazine dye (TBI) to mark those lesions identified by Vizilite. Carried out as part of a general check-up, Vizilite Plus™ is a simple, low cost, pain free and 100% sensitive test that can help save lives or give Patients peace of mind.

Pack of 40 Vizilite Plus™ £62.78 plus VAT. Pack of 20 Vizilite Plus™ £36.05 plus VAT

DENTAL TRIBUNE
United Kingdom Edition · January 19–25, 2009

Industry News 29

The Waterpik® dental water jet has been clinically proven to have the ideal combination of pulsation and pressure to clean where brushing and floss cannot reach. The studies have shown the product is safe and effective.

The biggest problem with periodontal pockets is daily cleaning, but using the Waterpik® dental water jet with a Pik Pocket™ subgingival delivery tip will allow easy and gentle deep cleaning, even in 6mm pockets.

For your professional courtesy discount on the Waterpik® Dental Water Jets speak to your dental wholesaler or for more information visit www.waterpik.co.uk. The product is also widely available in Boots stores.

Easyshade™ Compact
From Vita, the world leading expert in shade determination, the new Easyshade™ Compact is a fast and reliable way to take shade at the push of a button. High measuring accuracy due to spectrophotometric measuring, this cordless, mobile and lightweight unit reads up to a potential 97 shades combination, both in Classical and in the 3D system. User friendly and easy to learn, with Easyshade™ Compact, you can read one single shade or 5 different areas in the tooth and check restorations. Up to 25 shade taking results can be stored in memory. No more worries about lighting conditions or costly remakes!

Selling Made Easy With DPCS
Dental Practice Consultancy Service (DPCS) has been successfully selling dental practices since 1980. Uniquely in its approach, DPCS recognises the individual character of each practice and has earned a reputation for securing the best price with the minimum of stress for the vendor.

DPCS provides advice to both sellers and purchasers of dental practices. Whatever your situation, with DPCS you can be sure you’re in safe hands.

For more information visit the Dental Practice Consultancy Service website, www.dental consultancy.co.uk

TePe G2™ – The best just got even better!
Molar Ltd are pleased to announce the introduction of the NEW TePe G2, the latest generation of interdental brushes to the UK. When dental professionals around the world asked for the smaller-sized interdental brushes to be inserted further between the teeth and the flexible neck also increases the brushes durability. Testing by dental professionals and their patients reported 94% saying they would choose the TePe G2 over the original brushes. Patients preferred the more comfortable feeling of TePe G2 and were in contact with the teeth and gums.

If you would like more information on the new G2 Interdental Brush, or a sample, please contact Molar Ltd on 01954 710622 or email info@molarltd.co.uk.

Practice Plan Help Tanzania
practiceplan has been raising funds in 2008 to support the work of the UK registered charity Bridge2Aid (B2A) who help those in desperate need of dental treatment in North West Tanzania. Funds were also raised to enable a team of practiceplan employees to travel to Tanzania and refurbish a dormitory block in Bukumbi.

In order to raise money for his Tanzania trip, practiceplan employee, Jamie raised £500 and is set to do it all again.

With no access to a dentist, Tanzanians suffer the daily agony of severe toothache. B2A is safely performing the pain of hundreds of thousands of people each year through treatment and training programmes, which sees UK qualified dentists teaching Tanzanians basic dentistry.

To find out more about practiceplan’s fundraising activities please visit www.practiceplan.co.uk/bridge2aid/about.aspx. For more information on all the hard work Bridge2Aid has been doing please visit www.bridge2aid.org.

Promoting Superior Treatment With The OPMI Pico
The Carl Zeiss OPMI Pico microscope was designed exclusively for use in dentistry. With 5 different magnification settings, and an easy to use, your users can set a comfortable working distance, and depth orientation, in the best ergonomic position.

5 months ago, Mr James Whitehead of House Dental Practice, Sussex, purchased an OPMI Pico. “It has made some dentistry much easier,” he says, “and some, much better.”

“Finding difficult canals is now much easier,” Mr Whitehead continues, “but the biggest change has been in irrigating canals. What I would previously have accepted as clean with my loups has inevitably still got debris somewhere on the surface. With the OPMI Pico it is possible to see along and down each canal. I have therefore changed my irrigation technique for the better.”

He is full of praise for Nuview’s service. “The team could not have been more helpful integrating the OPMI Pico into my surgery, where it is now one of my proudest possessions.”

For more information on Nuview’s products, please call 44(0)1455 750650, email info@nuview-ltd.com or visit www.voroscopes.co.uk

With the huge success of CEREC CAD/CAM, Sirona Dental Systems place a greater emphasis on training. With over 22,000 systems worldwide, Sirona has been able to place an even higher level of training with a blueprint of over 20 years in training CEREC users of all levels whether you are an experienced CEREC user or someone who has just taken delivery of their CEREC for the first time. Our training is designed to ensure new users gain confidence quickly whilst those more experienced users look to carry out more complicated cases.

The CEREC new user dates for 2009 are as follows: February 20th and 21st, March 20th and 21st, April 17th and 18th, June 19th and 20th, July 17th and 18th, August 14th and 15th, September 18th and 19th.

Numbers on these CDP Accredited courses are restricted so please book early to avoid disappointment. To reserve your place or further information please contact Sirona Ltd, UK directly on 0845 071 5040 or e-mail mark.buckland@ sironadental.co.uk, or visit www.sironacadcamsolutions.co.uk.
