Digital Imaging for the years ahead.

Digital Dental has a new range of systems from Ewoo & Vatech, the world leaders in Digital Radiography and CT. As Ewoo & Vatech manufacture every part of their systems and software, they have the ability and foresight to produce a range of digital panoramic, cephalometric and CT systems with upgradeability built-in.

Ewoo & Vatech now have the widest range of Cone Beam systems on the market and unlike many of their competitors the Uni3D and Picasso ranges have dedicated panoramic and cephalometric sensors so that you do not need to overexpose the patient if you just want to take a panoramic or cephal image.

A new showroom and training facility has just been opened in London allowing you to view the functionality, quality and versatility of these unique 2D and 3D imaging systems first hand.

Laser With KaVo

KaVo Dental Ltd is one of the world’s leading dental manufacturers dedicated to achieving excellence in all their products. KaVo continue to provide exceptional products based on the needs of its customers.

The GENTLEray 980 diode laser offers a large touch screen display with intuitive user interface. It is the perfect first step into soft tissue surgery and can be used in a variety of applications. This particular laser therapy reduces bleeding and pain during the procedures and after.

The DIAGNo dent laser caries detector is the perfect device for finding hidden caries eliminating any added stress. The DIAGNo dent ensures a precise measurement detecting incipient lesions or sub-surface.

All the laser equipment from KaVo is user-friendly, compact and portable. Whatever your needs, KaVo will find a laser product to suit the individual needs of your practice.

For further information, please contact KaVo on 01419 735 000, email: sales@kavo.com or visit www.kavo.com

Practice in Comfort

With studies confirming that one in four people in the UK feel anxious about going to the dentist, NSK’s Ti-Max X Series has a major contribution to make in terms of the levels of noise experienced by your patients.

Your comfort is just as important as that of the patient and NSK have ergonomically designed all their handpieces to rest comfortably in the hand. The Ti-Max X Series boasts an extremely lightweight Titanum body which is on average 50% lighter than the equivalent stainless steel version, so you’ll feel just as comfortable as your patients.

Practice in comfort! For more information please contact Jane White at NSK on 0800 634 1909 or your preferred dental supplier.

Secure Your Future with CEREC

Terry Patuzzo, Sirona Dental Systems MD has commented how important it is for practice’s, in this day and age, to secure their financial stability and raise their revenue whilst trading in difficult times. One tried and tested method is to offer your patients something that they cannot necessarily get from other dental practices locally which has a real advantage for the patient. This is achievable with the CEREC CAD/CAM System from Sirona Dental Systems Ltd.

CEREC is proven to increase profits plus it adds the ‘wow’ factor to any practice. CEREC enables you to provide your patients with same day crowns, bridges etc without the expense and time of waiting for the laboratory to construct the prosthesis.

To find out how the Sirona team can directly support your practice and for a no obligation demonstration of the CEREC 5D system telephone 0845170 5040 or email info@sironadental.co.uk or visit www.sironacadcamsolutions.co.uk.
### Practice Works Presents Its Latest Addition

**R4 Version 5 is taking Prac-ticeWorks to the next level.** The latest version of the renowned Practice Management Software was recently launched at the 2008 BDTA Dental Showcase offering new enhanced features.

*Created by practice management experts working alongside highly skilled program-mers, the Managed Service is something completely different. The user doesn’t need to install any software onto their computer or have any IT knowledge.*

**The data resides at the Prac-ticeWorks data farm, allowing the user to access the informa-tion over the Internet. This state-of-the-art centre has a huge resilience built in enabling tens of thousands of cus-tomers to access their data at any time.**

**The B4 Version 5 is stress-free for dental teams, as appointment books clinical charting and notes, accounts and medical records are all stored centrally and can be easily ac-cessed.**

*For more information call Practice Works on 03368 551 115 or email uksales@practice-works.com* **

### More Than Implants

**Implant dentistry is an excit-ing and rewarding discipline and to help you realise your true potential, Straumann have created a unique loyalty programme that is guaranteed to have a significant impact on your overall success.**

**MORE THAN IMPLANTS™ is the ultimate partnership between you and us, effectively taking control of your knowledge and experience of implant dentistry with three proven solutions:**

- **MORE THAN IMPLANTS™ MORE THAN IMPLANTS™ GOLD**
- **MORE THAN IMPLANTS™ PLATINUM**

Each delivers tailor-made solutions to suit your individual needs.

**This partnership-focused approach to implant dentistry offers three key elements specifically designed to improve every aspect of your practice profile, developing your own personal NETWORK, offering the highest standards of support and SERVICE and providing your patients with the most up-to-date information and services possible.**

*For more information contact Straumann on 01205 612120.* **

### Multiple Choice

**As individuals we’re often expected to multi-task, how-ever, do we make the same de-mands of equipment? Not re ally, usually one design delivers one solution. If you want alter-natives you need to make multi-pile purchases.**

**This is not, however, the case for the Clesta II Treatment Centre from Takara Belmont, which with an array of different delivery options catering for even the most demanding of requirements.**

**Functionality does not, however, compromise quality or comfort. Not only does the Clesta II look good it’s also great to work with and is incredibly comfortable for patients (a key consideration when undertaking more private work which often requires lengthier treatments).**

**For further information about the Clesta II Treatment Centre call 020 7515 8353 or e-mail dental@takara.co.uk.**

**Alternatively, all Takara Belmont’s products are available to view at either of the Company’s two showrooms. Located in Lon-don (020 7515 8353) and Manchest er (0161 745 9992), these two facilities are the ideal venue to view the Belmont products in situ.**

### Starting Young With Good Oral Health

**Efficient and effective tooth brushing is the cornerstone of good prevention and it makes logical sense to use and recommend the proven solutions that are available, which are increasing with power toothbrushes incorporating oscillating-rotating technology.**

**This is just as true for chil-dren as it is for adults. Although traditionally the preventive focus in children has been against caries, there is growing evi-dence to suggest that attention to periodontal disease prevention is also important earlier in life.**

**Various studies linking oral diseases with general diseases such as diabetes suggest that early prevention is an increasing imperative.**

**Motivating children to brush is never an easy task but the introduction of a power toothbrush and the added excitement of their own technology can go a long way in the battle for better oral health, younger.**

**The initial novelty of a power brush will renew a child’s in-terest in oral health.**

### Industry News

**Compressors must produce clean, dry, infection-free com-pressed air to minimise the risk to patients. Entrust in Dental Air with its comprehensive survey for UK mainland practices.**

**Enter into a relationship with Dental Air for comprehen-sive, no obligation advice and discover the benefits of the latest oil-free Piston and Scroll compressors.**

**Choose Dental Air to care for your compressed air supply. With a rapid call-out response team, any downtime is minimised and you can continue to treat patients safely. A clean, dry air supply ensures your air-powered instruments are cared for too!**

**Call Dental Air on FREEPHONE 0800 542 7575 and ask about the FREE Practice Manager’s Guide and the Clean Air Package, or visit www.dentalair.co.uk.**

### Planning For Perfection

**Dental Services Direct is renowned for its impartial ad-vice and first-rate service. In particular, the Dental Services Direct team has a wide knowl-edge of the latest in chair and delivery unit technology. As suppliers of many major equip-ment manufacturers including; Anthon, Belmont, Dentalez, Heka and Stern Weber, the com-**
Oraldent offers effective help in the treatment of Peri-dontitis

Periodontal disease is not exactly rare in the UK, and den-tils need as much help as they can get in treating this disease.

The great news for patients, and for dentists who pride themselves on providing qual-ity care, is that Oraldent, the leading specialist in preventa-tive oral care products, is proud to be distributing Periostat®-20 mg film-coated tablets (doxycycline) in the UK to meet the need for a proven adjunctive therapy.

An orally administered, film-coated tablet available on prescription only, Periostat® contains a sub-antimicrobial dose of 20mg doxycycline. Specifically designed to be taken twice a day for three months, Periostat® is an adjunct to professionally delivered scaling and root planing proce-dures.

Denti-Brush® Interproximal Introductory Offer

Denti-Brush Interproximal brushes are an extremely effec-tive way of removing plaque and food particles from inter-dental spaces.

The main benefit is that each brush has a flexible handle and brush to increase control and access in difficult areas. Unlike other brushes, the tip has been specially designed with a unique gizmo technology en-abling it to bend easily and min-imise potential breakage.

Denti-Brush is available in 4 sizes in packs of 6 brushes. Each brush has its own hygienic protective cap making it ideal for travel as well as at home.

To find out more about the promotions we are running during the period, please call 0208 426 5538 or visit our website www.periproducts.co.uk

The World's Best Dental Implantology Diploma Course

Developing the best skills requires access to the best courses and teachers. Perio-Implant Europe Ltd provides this access, and its courses are world-renowned.

Perio-Implant Europe Ltd’s strong reputation has attracted internationally recognised experts to teach modules as part of the Diploma Course in Dental Implantology (April 24th 2009 to February 15th 2010). The impressive list of names includes Apollo-nius Allen, Andre Saadoun, Roger Levin, Pascal Valentin and Perio-Implant Europe Ltd founder Nadeem Zadari, with venues in the UK, Sweden, France and Brazil.

Howard Gluckman – London Workshop

The evening of 18th of Feb 2009 will find an audience in Fulham taking part in the second Velopec London Aquacut and Laser Workshop – presented by Dr Howard Gluckman. As a Specialist Periodontist, Dr Gluckman has made extensive use of both his Velopec Laser and Aquacut.

At the Workshop, we encourage practitioners and dental hygienists to bring case presentations for discussion. The venue is Fulham Dental Care on the Fulham Road - so numbers are limited.

Costs for the evening are £25 for existing Velopec Laser owners, £55 for stayers including Velopeycut units and £275 for those who do not own a Velopec Laser or Aquacut.

The seminar qualifies for 5 Hours CPD and can be booked by contacting Mark Chapman at Velopec

To book or for more information or to ask any questions, please contact: Mark Chapman Medivance Instruments Ltd Barretts Green Road LONDON SW10 7AP UK

Tel: +44 7754 048877 mark@velopecc.com

Oral Health in Children

With hands-on sessions and residencies in Brazil, as well as the Advanced Bone Grafting Course involving valuable work experience, this course is regularly oversubscribed and it is crucial to book early to avoid disappointment.

For more information call 01276 469 600 or email info@implantsuccess.com

Vizilite Loupes

Carl Zeiss Loupes

Comfort In View

Carl Zeiss loupes are binocular magnifying devices offering uncompromised edge-to-edge clarity of the magnified field of view during medical procedures.

Wear Carl Zeiss loupes in ordinary day and in a fully adjustable, lightweight headband that ensures optimal weight distribution at all times.

Alternatively, Carl Zeiss loupes can be worn mounted on a fully adjustable, lightweight headband that ensures optimal weight distribution at all times.

The Loupes can be used for all stages of their dentition, ranging from milk teeth to the care of dentures.

Denture Materials

The Aquafresh brand has developed a range of toothpastes, toothbrushes and a mouthwash for children. Aquafresh Milk Teeth, Aquafresh Little Teeth and Aquafresh Freshness have been specifically designed for children’s needs and feature motivational characters to aid compliance.

Corosyld is the UK’s number one selling medicated mouthwash and contains chlorhexidine digluconate which is the gold standard treatment for gingivitis. Corosyld Daily Defence is formulated for daily use and is the first and only mouthwash to contain chlorhexidine digluconate (0.06% w/v) and fluoride (250 ppm). The product is proven to maintain a low gingival index1 and therefore helps maintain healthy gums.

Samples of Sensodyne, Corosyld Daily Defence and Poligrip are available from the GSK dental professional website www.gsk-dentalprofes- sionals.co.uk or by contacting your GSK representative.

Easyshade™ Compact

From Vita, the world leading expert in shade determination, the new Easyshade™ Compact is a fast and reliable way to take shade at the push of a button. High measuring accuracy due to spectrophotometric measuring, this cordless, mobile and light weight unit reads up to a potential 97 shades combination, both in Classical and in the 3D system. User friendly and easy to learn, with Easyshade™ Compact, you can read one single shade or 3 different areas in the mouth and check restorations. Up to 25 shade taking results can be stored in memory. No more worries about lighting conditions or costly remakes!
