Great offers available on PracticeSafe refill disinfectant spray.

Surgery professionals appreciate the versatility of PracticeSafe spray. Not only can it disinfect the alcohol resistant surfaces of a Dental Practice but medical products such as hand and angle pieces can be cleansed and disinfected to a very high standard.

Practicesafe disinfectant spray is alcohol based and highly effective against MRSA/ HBV/HIV/HCV/BDV, vaccinia, tuberculous, hospitalism prophylaxis, bactericidal, fungicidal.

Kemdent have successfully introduced Practicesafe spray in 500ml spray bottles and want to ensure Dental Professionals are aware that Practicesafe spray is available in 5L and 10L refills. If you buy a 5L refill before the end of March you will receive a 10% price discount and on a 10L refill, 15% discount.

For further information on special offers or to place orders call Helen on 01795 770236 or visit our website www.kemdent.co.uk

PracticeWorks Kodak Dental Systems’ Online “Backup Recovery Service”

Every business, and especially those in health care, needs access to its records. However confident you are in your computer system and the competence of your staff, it only needs one failure for vital information to vanish forever.

PracticeWorks easy to use, totally secure, archive backup system enabling instant access to any of your saved files or data from anywhere in the world, reduces the risk of any data you specify.

The PracticeWorks Online Backup Recovery Service is also versatile, allowing you to backup or access your entire system on only selected files of particular importance.

Nearly half (40% +) of tape backups fail at some time during either the saving or recovery. The protection of your current practice management systems, the PracticeWorks Online Backup Recovery Service offers complete peace of mind to you and your patients, with instant data recovery guaranteed.

To safely back up your practice records and day to day data call PracticeWorks on 08001099692.

The Non-Alcoholic Solution to Surface Cleanliness

Citrox Bio®TM is the 100% natural way to meet infection control protocols. Extracted from orange pith, this natural and organic microbial agent gives you the edge you need against MRSA, Clostridium Difficile, Hepatitis B and Streptococcus.

Due to its residual effect, Citrox Bio®TM keeps working long after it has been applied and since the range of Citrox products includes hand gels, waste cleaner, cleaning & disinfectant liquid and surface wipes, you have an option for every surface in the practice.

By breaking down biofilm and destroying cell walls, Citrox Bio®TM is even effective in the presence of organic matter. Lethal against up to 99.99998% of dangerous pathogens (that’s 100 times more potent than products boasting 99.8% effectiveness), Citrox Bio®TM provides valuable peace of mind in the busy modern practice.

Non-volatile, non-toxic, environmentally friendly and biodegradable, Citrox Bio®TM is an effective line of defence against bacteria, viruses and fungi.

For more information please call 01480 802080, email queries@oraldent.co.uk or visit www.oraldent.co.uk.

The Kois Deprogrammer

The British Academy of Cosmetic Dentistry invites you to attend the Kois Deprogrammer lecture presented by Dr. Ken Harris at the British Dental Association on Thursday 19th March 2009 from 7pm.

The accurate recording of Centric Relation (CR) is a daunting process for many clinicians. Despite numerous de-programming devices and techniques, it often proves difficult to achieve correct results in the practice.

The de-programming device described by Dr. John Kois eliminates confusion and simplifies the process making the recording of CR a more predictable prospect.

Using this device the natural starting point when beginning full mouth reconstruction cases in Dr. Harris’ practice. The step-by-step process is demonstrated in the lecture providing reference to numerous treated cases of varying difficulty.

Dr. Ken Harris maintains his private practice in Sunderland concentrating on cosmetic dentistry and complex reconstructions cases with particular emphasis on thorough treatment planning based on sound Occlusal principals.

For more information contact Suzy Rowlands on 0207 612 4766, email: info@bacd.com or visit www.bacd.com.

Easyyshade™ Compact

From Vita, the world leading expert in shade determination, the new Easyyshade™ Compact is a fast and reliable way to take shade at the push of a button. High measuring accuracy due to spectrophotometric measuring, this cordless, mobile and lightweight unit reads up to a potential 97 shades combination, both in Classical and in the 3D system. User friendly and easy to learn, with Easyyshade™ Compact, you can read one single shade or 5 different areas in the tooth and check restorations. Up to 25 shade taking results can be stored in memory. No more worries about lighting conditions or costly remakes!

Easyshade™ Compact

Hands-On With The Inman Aligner

The British Academy of Cosmetic Dentistry invites you to get stuck in with the Inman Aligner Hands-on Certification Course in association with Straight Talk Seminars. The ITI Centre, Struamann UK Ltd in Crawley, Sussex will host the course on Friday the 13th of March 2009.

Invented in the US by Donn Inman CDT, the Inman Aligner was used to treat orthodontic relapse. Dr. Tif Qureshi presents the course as the first UK dentist to pioneer the appliance.

Having had a particular interest in simple orthodontics for a number of years, Dr. Qureshi has completed over 500 cases using the Inman Aligner. Delegates will see how the appliance can be used to treat crowding, diastemata, cross-bites whether you are an experienced CEREC user or someone who has just taken delivery of their CEREC for the first time.

The CEREC new user dates for 2009 are as follows:
- February 20th and 21st
- March 20th and 21st
- April 17th and 18th
- June 16th and 20th
- July 17th and 18th
- August 14th and 15th
- September 18th and 19th

Numbers on these CPD accredited courses are restricted so please book early to avoid disappointment. To reserve your place further information please contact Sirona UK directly on 0845 071 5040 or e-mail mark.buckland@sironadental.co.uk or visit www.sironadental.co.uk.

Learn More from Sirona!

Never has the demand for CEREC been greater. With CEREC now becoming the first choice for ceramic restorations this mainstream treatment is now taking its place in many dental practices up and down the UK.

With over 22,000 systems worldwide, Sirona has been able to produce an even higher level of training with a blueprint of over 20 years in training CEREC users of all levels of dental leadership and enterprise.

This fantastic event offers people interested in the world of implant dentistry and the “beloved game” a chance to really take something from the course and also give to those who need it most.

For more information on the Wooden Spoon Rugby Conference please contact Donna Wraith on 0775 065 6522 or email millysk@eclipse.co.uk.

Raise your game with the Wooden Spoon Charity Rugby Conference!

As you may remember from last year, Valentine’s Day isn’t the only important date you need to remember in February, it is also the month of the much loved ‘Wooden Spoon Rugby Conference’, sponsored by Straumann. All of the proceeds from the event will go to help the Advantage Children’s Charity.

The conference will include a Q&A session with a team of former rugby stars and a comprehensive selection of lectures on some of the most important elements of dental leadership and enterprise.

For more information please contact Donna Wraith on 0775 065 6522 or email millysk@eclipse.co.uk.

Other key features of the conference include a Q&A session with a team of former rugby stars and a comprehensive selection of lectures on the most important elements of dental leadership and enterprise.

Dr. Qureshi realised the technique had potential to have a huge effect on the traditional techniques of veneer-based cosmetic dentistry. Dentists and patients now have an astonishing alternative treatment option to perform smile transformations without the aggressive preparation with teeth aligned quickly and safely.

For more information contact Suzy Rovens on 0207 612 4166, email: info@baed.com or visit www.baed.com

### Take It To The Next Level Visit Practice-Works at the The Dentistry Show 2009

The Dentistry Show will be held for its third year in January at the NEC Birmingham from the 13th and 14th of March 2009. Leading companies within the dental market will be demonstrating their products and services.

For more information contact Kay Hammond on 020 7905 1251, email v.banks@eastman.ucl.ac.uk or visit www.eastman.ucl.ac.uk/ced

### Isoplan

Stewart Angus is the UK Director of Sales for Isoplan, one of Britain’s largest practice membership plan providers.

Isoplan is the company leading the way in forming practices all over the UK. Works will be promoting their products and services at the 13th and 14th of March 2009. This will be the third year conference seeing its third year conference and watch the innovation to perform smile transformations.

Leading providers Practice-Works will be promoting their impressive products such as the B4 Practice Management Software Version 5 that is transforming practices all over Britain. The new Managed Service does not require any software to be installed onto the computer and there is no need to back up the system.

This unique software will eliminate the previous stress of locating files and clinical notes, as all appointment books, clinical charting, notes and medical records are all stored centrally with easy access.

The PracticeWorks team will also be available to discuss the latest digital imaging technology, including the ILUMA CT scanner from IMTEK, providing highly-accurate 3D radiographic images, and the Kodak 9000 3D system which provides 2D panoramic and 3D imaging.

Visit PracticeWorks and transport your practice into the future!

For more information contact PracticeWorks on 0800 169 9692 or visit www.practice-works.co.uk

### Laser With KaVo

KaVo Dental Ltd is one of the world’s leading dental manufacturers dedicated to achieving excellence in all their products. KaVo continue to provide exceptional products based on the needs of its customers. The extensive range offers dental professionals an elite selection of laser technology.

The GENTLEray 980 diode laser offers a large touch screen display with intuitive user interface. It is the perfect first step into soft tissue surgery and can be used in a variety of applications. This particular laser therapy reduces bleeding and pain during the procedures and after. It is easy to disinfect and lightweight so it can be transported easily.

The DIAGNOdent laser caries detector is the perfect device for finding hidden caries before they spread. The DIAGNOdent ensures a precise measurement detecting incipient lesions or sub-surface. Customers now have the choice of the DIAGNOdent Classic or the Pen version.

All the laser equipment from KaVo is user-friendly, compact and portable. Whatever your needs, KaVo will find a laser product to suit the individual needs of your practice.

For further information, please contact KaVo on 01941 757 000, email: sales@kavo.com or visit www.kavo.com

### Clinical Governance Performance Management Points The Way Forward

On the 28th of November 2008, Smile-on sponsored a Kent, Surrey and Sussex Deanery Lunch at the Eastbourne Postgraduate Medical and Dental Centre to discuss the vital second stage of the Clinical Governance Programme. Smile-on’s programme was selected by the Dental Governance Committee (representing three local Primary Care Trusts) and the BSSD Dental Postgraduate Deaneary to enable practices to meet Clinical Governance core requirements.

KSS Postgraduate Dental Dean Stephen Humbledale analysed feedback from the first stage and Dental Clinical Governance Lead Bernard Swittember described the two-year journey of the 150 practices involved. Chief Dental Officer Barry Cockcroft celebrated the programme’s significance before Dental Adviser Ba Rattan provided strategies for continual improvement.

Then, Smile-on’s Noam Tamir introduced the Clinical Governance Performance Management (CGPM) system.

Because the responsibility for making sure a practice implements satisfactory Clinical Governance lies with the PCTs, Smile-on has provided CGPM, which allows practices to upload progress details to http://www.cgpmuk.com for easy monitoring by PCTs. Key features of CGPM include a free-of-charge messaging system and resources from the KSS Deaneary and PCTs that are constantly updated.

Practices that had already uploaded their information were awarded with Plaques, valid for one year.

For more information please call 020 400 8989 or email info@smile-on.com

### UCL Postgraduate Certificate in Dental Sedation and Pain Management

The UCL Eastman Dental Institute will next deliver their Dental Sedation and Pain Management Course on 6th, 7th, 9th and 10th May 2009 with practical traing in further didactic teaching being delivered over the following six months.

Professor James Roelofse, Professor of Anaesthesiology, is Programme Director and is supported by Dr Yusuf (Joe) Omar and Dr Andre du Plessis and a faculty of experienced teachers. Some of the topics to be covered include:

- Treatment planning and pain management
- Behavioural management techniques
- Patient assessment and clinical examination
- Introduction to paediatric sedation
- Practical aspects of setting a sedation service

Course participants will administer conscious sedation to patients under the close supervision of experts. They will be encouraged to demonstrate this in their own practices, seeking advice from their course mentors when necessary. The course will focus on equipping dentists with confidence, skills and practical training. Once they have attended, participants will have the confidence to administer effective and safe sedation to their patients.

The course is suitable for both dental and medical practitioners as well as hospital based clinicians from all specialties.

For more information contact webinars, which can be replayed, to go over valuable points (visit www.dentaleventsm.org.uk and watch the informative showreel).

The team will discuss the innovative features of its three-module programme Communication in Dentistry: Stories from the Practice, the Clinical Photography Course, DNSTART and Clinical Governance Progress Management.

Smile-on understands the need for learning solutions that match the changing needs of the industry. With the latest technological innovations and forward-thinking approaches, Smile-on helps dental professionals develop their skills and knowledge, regularly refreshing their newfound expertise.

For more information please call 020 400 8989 or email info@smile-on.com
This programme for this year’s Young Dentist Conference features contributions from a number of successful young dentists with their own businesses, others in specialist and a group of well-known figures who have achieved success in business beyond dentistry.

The speakers this year include, Shaheen Rahman a young barrister from a well-known London chambers, and Anna Heyes, founder and Managing Director of Liverpool-based Active Profile marketing and PR agency. Shaheen and Anna will speak during a session entitled Because you’re worth it; offering a practical approach to recognising and managing your worth.

This exciting one-day programme has been organised by Dental Protection together with the BDJ and BDA. As in previous years, delegates can expect challenging ideas and facts as well as lots of practical tips which are particularly relevant to recently qualified dentists.

The programme

Surgery 101 – Can we live without it

Some take the view that endodontics can never compete with implants. Others believe that extractions and implants are more predictable than long-term periodontics. And a few argue that orthodontics is a beauty treatment, not dentistry at all. If one of these three branches of dentistry had to be discontinued by NICE on the grounds of cost-effectiveness, which would it be? Three young dentists in specialist training will make a case for the preservation of their specialty:

- Phil Thomson (endodontics)
- Claudia Wellman (periodontics)
- James Grant (orthodontics)

Then you get the chance to vote, consigning one of them to the clinical waste.

Because you’re worth it

One of the challenges frequently reported by younger dentists, are the issues of cost, price, worth and value. One minute we are dental students with a debt – but overnight we become a professional person with earnings that many other young graduates can only dream about. Many young dentists find it difficult to discuss fees, and to feel comfortable about charging an appropriate amount for their services. An articulate trio:

- Neal Raval (dentist)
- Shaheen Rahman (barrister)
- Anna Heyes (Young Business Person of the Year 2007)

will debate the issues, share their experiences and suggest ways to manage this aspect of a professional career.

Are you ready for this?

Three UK dentists, who aimed for success early in their careers, and have set up successful (but very different) practices, describe their journey and what they have learned from the experience.

- James Hamill (Blueapple in Northern Ireland)
- Chris Barrowman (Infinity Blu Dental Care in Pitlochry)
- Saaqib Ali (Sherwood Dental Practice in Birmingham).

Tickets are £100 (inc VAT) and include five hours verifiable CPD. Contact Sarah Garry on 020 7399 1339 or email sarah.garry@mps.org.uk.
