Great offers available on PracticeSafe refill disinfec-
tant spray.

Surgery professionals appreciate the versatility of Prac-
ticeSafe spray. Not only can it disinfect the alcohol resistant surfaces of a Dental Practice but medical products such as band and angle pieces can be cleansed and disinfected to a very high standard.

PracticeSafe disinfectant spray is alcohol based and highly effective against MRSA/ HBV/HIV/HSV/BVDV, vaccinia, tuberculosal, hospitalism prophylaxis, bactericidal, fungicidal.

Kemdent have successfully introduced PracticeSafe in 500ml spray bottles and want to ensure Dental Professionals are aware that PracticeSafe spray is available in 5L and 10L refills. If you buy a 5L refill before the end of March you will receive a 10% price discount and on a 10L refill, 15% discount.

For further information on special offers or to place or-
ders call Helen on 01795 770236 or visit our website www.kemdent.co.uk

PracticeWorks Kodak Dental Systems' Online “Backup Re-
covery Service”

Every business, and especially those in health care, need access to its records. However confident you are in your computer system and the competence of your staff, it only needs one failure for vital infor-
mation to vanish forever.

PracticeWorks easy to use, totally secure, archive backup system enabling instant access to any of your saved files or data from anywhere in the world, re-
turns to any destination you specify.

The PracticeWorks Online Backup Recovery Service is also

The Non-Alco-
holic Solution to Surface Cleanliness

Citroxx Bio™ is the 100% natural way to meet infection control protocols. Extracted from orange pith, this natural and organic microbial agent gives you the edge you need against MRSA, Clostridium Diff-
ficile, Hepatitis B and Strepto-
coccus.

Due to its residual effect, Citroxx Bio™ keeps working long after it has been applied and since the range of Citroxx products includes hand gels, waste cleaner, cleaning & disinfec-
tant liquid and surface wipes, you have an option for every surface in the practice.

By breaking down biofilm and destroying cell walls, Cit-
roxx Bio™ is even effective in the presence of organic matter. Lethal against up to 99.9998% of dangerous pathogens (that’s 100 times more potent than products boasting 00.9% effec-
tiveness), Citroxx Bio™ pro-
vides valuable peace of mind in the busy modern practice.

Non-volatile, non-toxic, en-
vironmentally friendly and biodegradable, Citroxx Bio™ is an effective line of defence against bacteria, viruses and fungi.

whether you are an experi-
ced CEREC user or someone who has just taken delivery of their CEREC for the first time.

The CEREC new user dates for 2009 are as follows:
- February 20th and 21st
- March 20th and 21st
- April 17th and 18th
- June 16th and 20th
- July 17th and 18th
- August 14th and 15th
- September 18th and 19th

Numbers on these CPD Ac-
ccredited courses are re-
stricted so please book early to avoid disappointment. To re-
serve your place on further in-
formation please contact Sirona UK directly on 0845 071 5040 or e-mail mark.buck-
land@sironadental.co.uk or visit www.sironaeducomsolu-
tions.co.uk

Hands-On With The Inman Aligner

The British Academy of Cos-
metic Dentistry invites you to get stuck in with the Inman Aligner Hands-on Certification Course in association with Straight Talk Seminars. The ITI Centre, Straumann UK Ltd in Crawley, Sussex will host the course on Friday the 13th of March 2009.

Invented in the US by Donal Inman CDT, the Inman Aligner was used to treat orthodontic relapse. Dr. Tif Qureshi pres-
ents the course as the first UK dentist to pioneer the appli-
ance.

and mild orthodontic relapse cases.

Dr. Qureshi realised the technique had potential to have a huge effect on the traditional techniques of veneer-based cosmetic dentistry. Dentists and patients now have an astonishing alternative treatment option to perform smile transformations without the aggressive preparation with teeth aligned quickly and safely.

Isoplan

Stewart Angus is the UK Director of Sales for Isoplan, one of Britain’s largest practice membership plan providers.

Dental Centre to discuss the vital second stage of the Clinical Governance Programme. Smile-on’s programme was selected by the Dental Governance Committee (representing three local Primary Care Trusts) and the R4 Dental Postgraduate Deanery to enable practices to meet Clinical Governance core requirements.

KSS Postgraduate Dental Dean Stephen Lambert-Humble analysed feedback from the first stage, and Dental Clinical Governance Lead Bernard Swinhem described the two-year journey of the 130 practices involved. Chief Dental Officer Barry Cockcroft celebrated the programme’s significance before Dental Adviser Rattan provided strategies for continual improvement. Then, Smile-on’s Noam Tamir introduced the Clinical Governance Performance Management (CGPM) system.

Because the responsibility for providing a user-friendly system to meet the needs of its customers, KaVo will find a laser equipment to suit the individual needs of your practice. The GENTLEray 980 diode laser offers a large touch screen display with intuitive user interface. It is the perfect first step into soft tissue surgery and can be used in a variety of applications. This particular laser therapy reduces blood loss and pain during the procedures and after. It is easy to disinfect and lightweight so it can be transported easily.

The DIAGNodent laser caries detector is the perfect device for finding hidden caries lesions. The DIAGNodent ensures a precise measurement detecting incipient lesions or sub-surface. Customers now have the choice of the DIAGNodent Classic or the Pen version.

All the laser equipment KaVo is user-friendly, compact and portable. Whatever your needs, KaVo will find a laser product to suit the individual needs of your practice.

If you would like more information on any of our products, please contact our Business Development Consultants directly on these numbers –

Clinical Governance Performance Management Points The Way Forward

On the 28th of November 2008, Smile-on sponsored a Kent, Surrey and Sussex Deanery Lunch at the Eastbourne Postgraduate Medical and Dental Centre. The welcome address was given by Professor James Roelofse, Professor of Anaesthesiology, is Programme Director and is supported by Dr Yusuf (Joe) Omar and Dr Andre du Plessis and a faculty of experienced teachers. Some of the topics to be covered include:

- Treatment planning and pain management
- Behavioural management techniques
- Patient assessment and clinical examination
- Introduction to paediatric sedation
- Practical aspects of setting up a sedation service

Course participants will administer conscious sedation to patients under the close supervision of experts. They will be encouraged to demonstrate this in their own practices, seeking advice from their course mentors when necessary. The course will focus on equipping dentists and dental professionals an elite selection of laser technology.

The GENTLEray 980 diode laser offers a large touch screen display with intuitive user interface. It is the perfect first step into soft tissue surgery and can be used in a variety of applications. This particular laser therapy reduces blood loss and pain during the procedures and after. It is easy to disinfect and lightweight so it can be transported easily.

The DIAGNodent laser caries detector is the perfect device for finding hidden caries lesions. The DIAGNodent ensures a precise measurement detecting incipient lesions or sub-surface. Customers now have the choice of the DIAGNodent Classic or the Pen version.

All the laser equipment KaVo is user-friendly, compact and portable. Whatever your needs, KaVo will find a laser product to suit the individual needs of your practice.

The course is suitable for both dental and medical practitioners as well as hospital based clinicians from all specialities.

For more information contact practices@whl.nhs.uk, or visit www.monmouth.dolo.co.uk.
This programme for this year’s Young Dentist Conference features contributions from a number of successful young dentists with their own businesses, others in specialist and a group of well-known figures who have achieved success in business beyond dentistry.

The speakers this year include, Shaheen Rahman a young barrister from a well-known London chambers, and Anna Heyes, founder and Managing Director of Liverpool-based Active Profile marketing and PR agency. Shaheen and Anna will speak during a session entitled Because you’re worth it; offering a practical approach to recognising and managing your worth.

This exciting one-day programme has been organised by Dental Protection together with the BDJ and BDA. As in previous years, delegates can expect challenging ideas and facts as well as lots of practical tips which are particularly relevant to recently qualified dentists.

The programme

Surgery 101 – Can we live without it
Some take the view that endodontics can never compete with implants. Others believe that extractions and implants are more predictable than long-term periodontics. And a few argue that orthodontics is a beauty treatment, not dentistry at all. If one of these three branches of dentistry had to be discontinued by NICE on the grounds of cost-effectiveness, which would it be? Three young dentists in specialist training will make a case for the preservation of their speciality:
• Phil Thomson (endodontics)
• Claudia Wellman (periodontics)
• James Grant (orthodontics)

Then you get the chance to vote, consigning one of them to the clinical waste.

Because you’re worth it
One of the challenges frequently reported by younger dentists, are the issues of cost, price, worth and value. One minute we are dental students with a debt – but overnight we become a professional person with earnings that many other young graduates can only dream about. Many young dentists find it difficult to discuss fees, and to feel comfortable about charging an appropriate amount for their services. An articulate trio:
• Neal Raval (dentist)
• Shaheen Rahman (barrister)
• Anna Heyes (Young Business Person of the Year 2007) will debate the issues, share their experiences and suggest ways to manage this aspect of a professional career.

Are you ready for this?
Three UK dentists, who aimed for success early in their careers, and have set up successful (but very different) practices, describe their journey and what they have learned from the experience.
• James Hamill (Blueapple in Northern Ireland)
• Chris Barrowman (Infinity Blu Dental Care in Pitlochry)
• Saajib Ali (Sherwood Dental Practice in Birmingham).

Tickets are £100 (inc VAT) and include five hours verifiable CPD. Contact Sarah Garry on 020 7399 1339 or email sarah.garry@mps.org.uk
