Having had an exciting 12 months with the expansion of their Biologics range, new Virtual Implant Planning (VIP) software and the introduction of some brand new implant solutions for single and multiple restorations • The innovative TiUnite® surface treatment and restoration paths than any other company. BioHorizons will be showcasing the full Biologics range, demonstrating the whole of the dental team.

Place your dental implants with confidence! For more information please call Jaws White on 0800 6341909 or visit your preferred dental dealer.

NobelReplace® and SLActive® combine strength with reliability and are yet more examples of Straumann’s efforts to continuously improve clinical standards for better patient care. For more information on NobelReplace® and SLActive® contactStraumann on 01252 651230 or visit www.straumann.com

Rapidly becoming the system of choice amongst implant dentists, the Surgi-XT Plus brings a new dimension of control through the innovative easy-to-use design of NOB’s unique AdvancedTissueControl (ATC). ATC enables the Surgi-XT Plus to maximize the micromotion to the rotational resistance of the individual implants, offering assurance that you are working with the optimum torque and speed settings and in ensuring accurate, safe and smooth operations.

Developed and designed with advice from implant dentists, the Surgi-XT Plus also benefits from both in-built optics. Illumination. The revolutionary application of cellular glass optics delivers 20x brighter illumination to the treatment area, making complex and often prolonged implant procedures easier to perform for the patient.

DIO Implant is more than just a provider of high quality dental implants. DIO is very much aware that it is very well for dentists to learn new skills and develop new services, but the effort is often limited if their patients are not made aware of what’s on offer.

To help dentists promote their practice DIO is providing practical advice and tips on marketing techniques. Their can include help with FDI, website and web design, search engine optimisation, social networking and promotion, the use of social networking, etc.

The DIO UK Managing Director explains, “By helping to increase our clients’ sales and marketing efficiency, whilst enabling them to stimulate more interest in their margins, we’re helping the dentists to help their patients and increase turnover, which is helping us too”.

The 40-week ‘see and be革命’ course for experienced implantologists who wish to add MDIs to their practice.

IMTEC UK Mini Dental Implant Training Programme – New for 2010

IMTEC UK has introduced a Mini Implant Training programme for dentists who wish to learn to place mini implants for Denture stabilisation. The course consists of 1 Day of theory, 1 Day in the clinic seeing cases and hands-on placement followed by a mentoring day (by arrangement) in your practice to mentor your first case. Led by Dr Rob Dunn, courses are located in Chichester and included in the course fee is a Mini Implant Surgical/Placement Kit (value £600.00), a demonstration jaw model and other marketing items.

For experienced implantologists who wish to add MDIs to their practice IMTEC will continue to run the one-day mini-implant seminars at Heathrow.

Courses dates 2010

Training Programme, Cheshunt: 26-27 March, 25th June, 24-25 Sept and 26-27 Nov

One-Day Seminars, Heathrow: 20 March, 10 April, 15 May, 10 July, 4 Sept, 9 Oct.

Pharmacy Giant Expands into Dentistry
Waymade Healthcare Plc, one of the UK's largest suppliers to retail pharmacy, is launching into dentistry. With a group turnover in excess of £250 million, it is a healthy by transforming it into a stylish, eyecatching feature. Genus pride itself on its flexibility. Without being bound to a particular manufacturer it offers knowledgable, independent advice to all its clients and always goes the extra mile to listen to its customers’thoughts and concerns.

The continual improvements in cosmetic dental care have made patient access to the smile of their dreams easier than ever, but with any qualified dentist able to offer cosmetic dentistry, how can the patient know whether they will get the treatment they desire?

Getting started with Click Dental is easy. There’s no complicated registration process. Their site is also fast and easy to navigate. Payment can be made via invoice or they can set up a direct debit from your account which will offer further benefits. There’s no minimum order and by using Click Dental’s on line facility you’ll be able to control purchasing matters. You can identify product usage which will allow you to exercise greater budgetary management and monitor practice expenses.

Success breeds success. To find out what sets Waymade apart, visit www.clickdental.com. Click Dental really will change the way you buy your dental products. Paying the same or less on the same or better products, isn’t that the way to do it?

Get Involved, Get Ahead
The continual improvements in cosmetic dental care have made patient access to the smile of their dreams easier than ever, but with any qualified dentist able to offer cosmetic dentistry, how can the patient know whether they will get the treatment they desire?

By becoming a member of the British Academy of Cosmetic Dentistry, you can hone in on areas that need more attention in order to improve the health of the gums, most specifically interproximally and along the margins.

For the very young, the CURAbaby teething ring is a combination of soft silicone and amber. The amber is known to be a natural pain reliever, an ideal way to keep a baby’s mouth healthy.

Up to the healthiest side of whitening and stop Gingivitis before it starts. This basic recommendation for bright teeth is the everyday use of Beverly Hills Formula from Parity Laboratories, because the range offers a unique combination of anti-bacterial agents, low abrasion and anti-erythelin products to protect and whitening systems to provide innovative, high quality, results in the oral hygiene market. According to another BBC research study, 80-85% of adults across the world suffer from gum diseases, making this the most common dental problem. This no S.L.S. (Sodium Lauryl Sulphate free) whitening toothpaste uses an alternative mild detergent to help clean teeth and mouth, plus Zinc ions to ensure fresh breath for up to 18 hours. For further information please visit our website: www.beverlyhillsformula.com

Homecare
The outcome of Intra-oral x-ray units, the Raysafe Yoyo, is that the output of intra-oral x-ray units, the Raysafe is installed and calibrated by a Velopedic technician. To book for one of their introductory seminars, call 0845 6440447, ask for Yoyo Dental or email info@endocare.co.uk.

To find out more about the brush visit www sonicare.co.uk or call 0800 0567 222.
