Instaclave Series 5
Not sure exactly what you need yet? Rent instead!

Manufactured in the UK for over 30 years, the Instaclave Series 5 is the tried and trusted bench top autoclave from Burtons. Supported by their nationwide team of trained Service Engineers it offers Practices everything they need for fast and reliable autoclaving functionality, with an option to suit every clinical requirement.

Simple to operate and with unsurpassed reliability, the Instaclave Series 5 is the most versatile and reliable benchtop autoclave available.

However with so many options it can be difficult to choose the best one for you, particularly when current Legislation and BDA Guidelines on Sterilization Procedures are under review. Therefore Burtons offer a fixed cost affordable rental service from just £70 per month. With no minimum hire period it offers a complete choice of models and options, upgrades at any time – without penalty, routine service visits, breakdown cover, pressure vessel inspection and certification.

For further information contact Burtons on 01622 834300, email info@burtons.uk.com or visit www.burtons.uk.com

CEREC® from Ceramic Systems
Over 600 Dentists cannot be wrong

Get a FREE trip to Copenhagen. With Heka Dental you’re in safe hands!

Heka Dental invite Dentists to visit Copenhagen to see their range of design and production facilities, as well as their beautiful city. There will be several trips a year, normally running from Thursday morning to Saturday afternoon. During which guests will have an opportunity to visit their factory as well as Wonderful Copenhagen. For Dentists ordering a Heka Dental package before or during the trip the entire visit will be free. Otherwise, Dentists will only need to pay for the flight and hotel.

UNIC is the epitomy of ergonomic design. Everything – instrument table, trays, light, x-ray unit etc – is within easy reach. Heka Dental call it intuitive design and functionality – everything is exactly where you expect it to be, making even complex clinical procedures easier, more efficient and comfortable for the patient and dental team.

Heka Dental equipment is available in the UK from Dental Services Direct, telephone 0138 267 2778 or visit www.heka-dental.uk for further information.

Dental Services Direct can make the most of your space

Whether refitting an existing surgery or starting from scratch, designing a layout and choosing the right products for you and your work team can be time consuming and often a little hit daunting. If you’re not sure where to start, Dental Services Direct can help and advise, giving impartial advice and the benefit of many years of experience. From building your team to your work space, from time consuming equipment to decoration, they will professionally manage the entire project, presenting you with a brand new, fully functioning surgery.

The safety of both patients and the dental team continues to be of utmost importance, all instruments needing to be cleaned in a hygienic and controlled environment. This is another area where the Dental Services Direct sales team have the knowledge and experience to work with your practice, the design of a sterilisation room.

For further information on how you can make the most of your practice contact your local sales office: Scotland and the North: 08452 600510 South: 08452 600520 South West: 08452 600550

CEREC is proven to increase profits plus it adds the ‘wow’ factor to any practice. CEREC enables you to provide your patients with same day crowns, bridges etc without the expense and time of waiting for the laboratory to construct the prosthesis.

To find out how the Sirona team can help support your practice and for a no obligation demonstration of the CEREC 5D system telephone 0845 071 5040 or email info@sironadental.co.uk or visit www.sironaacademysolutions.co.uk

Sider Dental Systems

For further information contact Sider Dental Systems on 01582 582500 or email j.colville@sident.co.uk

Over 600 Dentists have bought CEREC® from Ceramic Systems (CEREC®) in order to double their productivity which can celebrate their 10th Anniversary of selling CEREC® in the UK, Ceramic Systems (CEREC®) are inviting anyone interested in evaluating this amazing Practice Building product to a free demonstration at The Courtyard Dental Institute.

CEREC® is a computer aided design and creation technology for creating precision fitting all-ceramic restorations at the chairside. It enables Dentists to design and create all-ceramic inlays, onlays, partial crowns, veneers and crowns for the anterior, premolar and molar regions. Eliminating the need for messy and time consuming impressions, CEREC® utilises a digital impression taking technique to capture the data which is then used to design a restoration which is then milled from a solid block in the milling unit via a wireless connection.

For further information, contact Ceramic Systems Limited on 01952 582956, e-mail j.colville@ceramicystems.co.uk or visit www.ceramicystems.co.uk

Secure Your Future with CEREC

Terry Patuzzo, Sirona Dental Systems MD has commented how important it is for practice’s, in this day and age, to secure their financial stability and raise their revenue whilst trading in difficult times. One tried and tested method is to offer your patients something that they cannot necessarily get from other dental practices locally which has a real advantage for the patient. Thus is achievable with the CEREC CAD/CAM System from Sirona Dental Systems Ltd.

CEREC is proven to increase profits plus it adds the ‘wow’ factor to any practice. CEREC enables you to provide your patients with same day crowns, bridges etc without the expense and time of waiting for the laboratory to construct the prosthesis.

To find out how the Sirona team can help support your practice and for a no obligation demonstration of the CEREC 5D system telephone 0845 071 5040 or email info@sironadental.co.uk or visit www.sironaacademysolutions.co.uk

The style of your practice says a lot about your overall approach to dentistry and there’s no doubt that a modern, comfortable surgery can make a lasting impression on your patients.

The key to putting your patients at ease whilst practicing in comfort is efficient surgery layout and the highly experienced team at Henry Schein Minerva have at their disposal the latest CAD 5040 technology which they use to achieve the best possible surgery design in the space available.

Since no two practices are ever the same, Henry Schein Minerva have also created a unique reference guide to surgery equipment buying, including ‘Platinum’, ‘Gold’ and ‘Silver’ surgery groups. This guide enables you to compare products based on price, features and value, so you know right from the start that you’re getting the best surgery design and equipment for your individual needs and budget.

For more information on the surgery equipment and design services available contact Burtons on 01622 834300, call 08700 10 20 41 today.
