Refreshing new show hits the dentistry profession

Taking place on March 13 and 14 2009 at Birmingham's NEC, The Dentistry Show aims to attract over 2,500 dental professionals, offers exclusive insights and offers exhibitors an ideal opportunity to meet with thousands of potential customers. It gives delegates the chance to gain further training and meet with peers.

The show has been split into five different conference programmes aimed at five different areas of the dental profession:

1. Dental aesthetics in the UK
An outstanding international clinical programme combining the prodigious growth areas in the UK dental market: dental implantology, cosmetic dentistry and facial aesthetics.

2. Simply dental
Designed for NHS dentists and their team members, this conference programme is for dentists thinking outside of their usual routine, focusing on politics, business and clinical aspects of NHS dentistry.

3. Hygienist symposium
Hygienists and therapists are given the chance to listen to top speakers on subjects surrounding dental implants, whitening, sales coaching and oral health, to develop their skills and advance themselves in their practice.

4. Simply aesthetic
In accordance with the growth areas for the UK dental market, the programme will focus on the private dental sector, including the latest implantology and cosmetic dentistry with lectures from well-respected speakers.

5. Dental insight
This conference aims to help busy, stressed practice managers run successful and profitable practices, by looking at ways to develop practice management skills, to make team-work pay, gain financial control and tendering.

To book your ticket
Conference passes cost £495 plus VAT. To find out more about the show and to book your place, visit www.thedentistryshow.co.uk and register now.

Below are some of the companies you will find at the show.

DENTAL TRIBUNE United Kingdom Edition - February 23–March 1, 2009

Outstanding Aesthetic Solutions from Nobel Biocare!

Nobel Biocare invites UK dentists to explore the latest restorative products at the 2009 Dental Show at Birmingham’s NEC on the 13th and 14th of March.

Delegates will be able to talk to the experienced Nobel Biocare team on the latest innovations and aesthetic solution product range which includes:

- **Noblesse Aesthetic**: A new implant offering high initial stability even in compromised bone situations, built-in Platform Switching™ and dual function prosthetic connections.

- **Nobel Active™**: The transfer of extra oral D implants to allow predictable placements in just one visit.

- **NobelReplace™**: A single-visit implant system for all indications with complete implant assessment, including panoramic 4 internal abutment connections, Tipline™, the oft-wanted all-up or all-down colour coding.

- **Aesthetically**: Nobel Biocare also offers practice tutors and the whole dental team, high quality training to maximise the business and clinical benefits afforded by the products.

For more information contact tanya.maw@nobelbiocare.com or call +44 (0) 1895 462921.

Dental Business Solutions

Dental Business Solutions is the UK’s leading business advisor to dentists and their practice teams. With over thirty years experience of working exclusively alongside the profession it is our aim to advise and support dentists and their teams and to provide practical help and support at all stages of their career whether associates or principals.

Our vision is to provide solutions to the problems and frustrations that dentists face in managing their businesses on a day to day basis and to empower our clients to enjoy more quality time relaxing with family and friends.

Our services include Accountancy and Tax Compliance, Payroll, Practice Management Consultancy, Acquisitions and Disposal, Incorporation, Operational Audits, Patient Finance facilities and Patient Care Plans.

We offer prospective clients a free initial meeting at Network House enabling us to establish how we can best help each individual case. For more information please do not hesitate to telephone us on 01844 260411.

IDT is a London based group of companies specialising in processing CT images for pre-surgical planning.

Our primary business is to provide multi-planar reformatted images, 3-D views, and models for dentists and surgeons planning the placement of dental implants.

As distributors for Materialise Dental NV of Belgium, Imaging Sciences International of USA and Dimensional Imaging of Glasgow we offer the leading software package for reconstructive surgery and dental implant planning—SIMPlant, the leading surgical drill guide—SurgiGuide, the leading low dose cone beam CT scanner—CAT and the leading stereo photographic facial imaging system—DIOT— all backed by unparalleled technical support.
