Second A-dec Surgery installed for Bridge2Aid.

A-dec are long time friends of Bridge2Aid, having supported the dental charity over the past 5 years with equipment, funding and fundraising, as well as promoting their work on the A-dec stand at Dental Showcase. In November 2008, this support went one step further when two A-dec engineers; Dave Robinson and Brian Anderson were flown to Mwanza to install a new A-dec Performer package in surgery 2. This is the second surgery A-dec have donated and installed and complements the A-dec Radius package in surgery 1 installed in 2006.

A-dec are proud supporters of Bridge2Aid and hope this new surgery will provide much needed dental support and care for the people of North West Tanzania.

For more information about the great work of Bridge2Aid or to make a donation visit the website: www.bridge2aid.org or telephone the UK Office: +44 (0) 114 252 6050

Achieve Results With Artio™

Artio™ has arrived at DENTSPLY. The new range of instruments has been developed to accommodate the clinician with its ergonomically designed handle with excellent grip. The super-lightweight instruments have tips made from Ask GryoSteel, a cryogenically treated metal that is highly resistant to wear, for extra durability.

Mr. Bill Sharpling of Kings College London Dental Institute has sampled the new Artio range and was impressed with the results. He said, “After trying the Artio instruments I found them to be very easy to work with. They are lightweight and comfortable to use with a superior level of grip due to the nature of the handle design. In practice the other advantages were that the colour and style made it quicker and easier to identify when sorting, cleaning and repackage as part of the decontamination and infection control process.”

50p from the sale of all Artio instruments will be donated to the Mouth Cancer Foundation. Visit www.mouthcancerfoundation.org for more information.

For more information about the DENTSPLY range of superior dental products, call Freephone 0800 072 5515

Lighting the way with Dental Sky!

The B&G cordless Easylight LED from Dental Sky does exactly what is says on the tin! This powerful LED light allows for fast, reliable curing after a soft handpiece, making them ideal for a busy practice. This chemical snap set which has immediate resistance to saliva ensures a longer lasting strength and durability.

For information on all kemdent products call Helen or Jackie at Kemdent on 017957 69 00, or visit our website, www.kemdent.co.uk.

Aseptic Operators stool

The Velopex team are delighted to launch the new Aseptic stool from A-septico. The stool compliments both the Adult portable dental chair (grey) and the Childrens portable dental chair (red).

Mark Chapman, Director of Sales and Marketing commented: “We are very excited about the way that our Aseptic range has taken off and this addition is superb.”

The Aseptic range provides the ability to create a ‘dental surgery’ in any room anywhere – all you will need is power. The equipment combines comfortable dental chairs with operating stools, stools, vervy lights as well as delivery systems.

If radiography is required, the Velopex Digital X-ray system will do the job, or you could simply use the Velopex Digital X-ray unit to allow the clinician to produce diagnostic digital radiographs on a laptop computer when on location away from the surgery. Both the laptop and Nomad are battery powered – but can be charged on site.

For more information or to ask any questions, please contact: Mark Chapman Medivance Instruments Ltd Barretts Green Road NW10 7AP Tel 07754 644877

Dentsply

Congratulations to all the candidates at the 2009 52nd DENTSPLY/ BDA student clinician programme. The calibre of entry just keeps getting better and the competition this year was of an outstanding standard, which is excellent news for the future of UK dentistry.

 Held at the Mandarin Orien- tal Hotel in Knightsbridge London, the evening was a resounding success with over 200 guests representing UK and Irish dental schools, the BDA and other eminent figures from the dental profession.

Swallow Dental Supplies Ltd: Dentistry Show: Stand G15

Come and visit us for special offers on our product range including: The outstanding range of PFD Peridontal Sealing Instruments – PFD’s ultra-sharp instruments hold there edge for longer. With the O’Heir range you can experience a 1000 bi- lateral cutting edge that effec- tively removes deposits with any hand motion.

We are also proud to exhibit the innovative highly regarded Stoma Surgical Instruments and Angle Handpieces – products with an unrivalled reputation for quality.

We will be exhibiting the for- torange range of Bone Augmenta- tion materials and membranes. Come and talk to us about for- tos VITAL – a totally synthetic bone graft material which re- quires no membrane and ask yourself “Why am I still using a membrane?”

Also on this year’s stand is Savodent Sensitive Teeth Treat- ment – the revolutionary treat- ment that works IMMEDI- ATELY, just one 10 minute treat- ment lasts up to one month. All this and more at stand G15!

Contact Details: Vicki Nunns Swallow Dental Supplies Ltd Unit 8, Ryefield Court, Ryefield Way, Sibden, West Yorkshire, BD20 0DL Tel: 01455 655612 Fax: 01455 655615 Email: sales@swallowdental.co.uk Web: www.swallowdental.co.uk

The Lightweight handpiece has in-built suction to remove debris and saliva. It is an aseptic design for smooth operation on high effortless effort.

Dentomycin: the first choice adjunctive treatment for chronic adult periodontitis

Dentomycin is a proven effective adjunctive treatment that complements Scaling and Root Planing through all treatment stages of chronic adult periodontitis disease including the first.

Dentomycin simply combats the broad range of bacteria associated with periodontal disease, reaching areas that maybe unobtainable with instruments alone while reducing inflammation, improving patient comfort.

Dentomycin includes the active ingredient Minocycline, and when applied for 4 times, with 14 days between each application, is proven to reduce key pathogens. The pre-filled applicator allows direct application to the pocket base, and the combination of Dentomycin with scaling and root planing reduces pocket depths by up to 42% over a 12-week period.

Cost effective and easy to use, Dentomycin also offers improved patient satisfaction.

For more information please call John Jessop of Blackwell Supplies on 020 7224 1457 or fax 020 7224 1694.

The extensive Curaprox range is bolstered by the return of Curasept gel. Containing 0.5% of the potent antimicrobial agent, Ethylhexyl salicylate (EHPS), the gel is easy to use with no patient compliance issues. Apply directly to the periodontal pocket, or let the patient do so using a cotton bud or interdental brush. Also available is Curasept mouthwash, which like the gel is alcohol-free, putting patient minds at ease about the reported link between alcohol-mouthwashes and oral cancer.

All Curasept toothpastes are free from sodium laurel sulphate (SLS), which nullifies the beneficial effects of CHX. Enzycal contains non-irritating Stearath-30, and is ideal for patients suffering from aphthous ulcers. Because it remineralises teeth using nutrients from saliva, whilst also boosting the saliva’s anti-bacterial action, Enzycal is great in early stage caries.

Curaprox is also first choice for toothbrushes and interdental brushes, and supplies the handy Travel Sets to help patients on the go maintain their oral health.

For more information please call 01480 862084, email sales@oraldent.co.uk or visit www.curapros.info

Back to basics with KAV

Visiting the dentist normally inspires enormous sympathy for the patient. Little thought is spared for the dentist or the considerer fulskeletal demends placed on dental professionals during procedures. Incorrect sitting posture not only impairs your ability to work, it can also put your health at risk with symptoms including muscular tension, backache and headaches.

Kavo have engineered the amazing SENsit perfectly match your individual anatomy and to suit the conditions in your laboratory and office. The synchronization mechanism connects the backrest and seat surface, relieving the body through dynamic sitting.

In the SENsit you will notice you are sitting comfortably, correctly, and that you have the greatest possible freedom of movement. The backrest, seat height and seat depth can easily be adjusted to suit any height, and the robust safety chassis guaran
tees great strength and long life.

Make an investment in your practice and your health with the stylish and innovative SENsit.

For further information, please contact Kavo on 01949 755 000, email: sales@kavo.com or visit www.kavo.com.

The BACD in Edinburgh!

2009 The Sixth Annual Meeting

Book on line today and save 10%.

The Annual Meeting of the British Academy of Cosmetic Dentistry is taking place from the 18th to the 21st of November 2009 at the Edinburgh International Conference Centre (EICC).

In its sixth year, The BACD will address The Future Of Dentistry with lectures and seminars on the latest advances in the 21st century including materials, CAD/CAM, LASIKR, touch scanchn, and digital. The highest level of digital innovations being frequently introduced into everyday den
tistry in the UK, this conference has been designed to keep pro-
fessionals at the forefront of high quality dental treatments.

BACD events are always great informative and members
ship benefits regional Study Clubs, the renowned Accreditation pro-
gramme and the Annual Audit that enables members to identify pro-
gressive trends and further develop their service to patients.

For more information contact Suzy Bowlands on 0207 612 4160 or email info@bacd.com, www.bacd.com

Affordable Excellence With EyeMag Smart Loupes

The dramatic conclusions of the study, published in the Aus
tralian Dental Journal, reached very many UK patients through Janu-
ary the 15th’s London Metro. The research called for alcohol-
mouthwashes to be removed from shops and made available only on short-term prescription. It was noted that in some cases of oral cancer, use of alcohol-mouthwash was the only risk factor, and it is also believed that ethanol fa
cilitates the cancer causing effect of nicotine and produces known human carcinogen acetaldehyde.

A range of alcohol-free toothpastes and gels are also available, so dentists can satisfy patient concerns without com-
proposing on quality.

For more information call 01480 862080 or visit www. oraldent.co.uk

Save With PracticeWorks

The EyeMag Smart provides a cost effective solution to 2.5X magnification, enabling the quick and easy identification of structures, and because the glasses have a large field of view, you will never miss a thing. As well as featuring the optical precision associated with Carl Zeiss, the EyeMag Smart is also comfortable, apply-
ing the latest ergonomic theory to support ideal posture through-
out even the most demanding procedures.

Nuview is committed to pro-
viding a great service, and with prompt and reliable aftercare, you can enjoy peace of mind with your new equipment.

Oral Cancer Link Boosts Desire For Alcohol-Free Mouthwash

Alarm bells are ringing around the world after a study warned that mouthwashes containing alcohol were linked to an increased risk of developing oral cancer. Fortunately, products like OraCleen™ are available to en-
dable dental professionals to con-
tinue to help patients achieve and maintain excellent oral health.

With the latest version of B4 from PracticeWorks, the leading supplier of Practice Management Software and Imaging solu-
tions, you can cut reminder costs dramatically.

B4’s recently updated text messaging service lets dentists have replies to their texts, which automatically update the ap-
pointment book.

If a practice sends out 500 re-
minders a month by mail, this could cost practices £3,000 per year. By switching to a text mes-
saging reminder service, prac-
tices can save over £2,500 – much more conven-
ient for patients.

For more information please call PracticeWorks on 0800 169 9692 or visit www.prac-
teworks.co.uk

Develop World Class Skills With The Diploma Course In Dental Implantology

Perto-Implant Europe Ltd’s renowned and comprehensive Diploma Course In Dental Implantology (April 24th 2009 – February 15th 2010) gives dental professionals a unique opportu-
nity to learn from the world’s best.

The course provides every-
things General Dental Practi-
tioners need to start confidently offering high quality implant treatment to patients. Modules are taught at state-of-the-art fa-
cilities in the UK, Sweden and Brazil and cover the entire field of dental implantology, including Experimental and Clinical Considerations, Biomechanics, Anatomy, Digi-
tal Photographs, Periodontology and more. Delegates will also learn how to create a Cosmet-
ic/Implant Referral Prac-
tice, master General Consent and Medico-legal Aspects, and explore New Concepts.

Featuring hands-on work-
shops and the chance to conduct exercises on fresh human ca-
davers, the course attracts dele-
gates from around the world. Bookings are made on a first come, first served basis and in-
terested parties are advised to book early to avoid disappoint-
ment.

For more information please call 01276 469 690 or email info@implantsuccess.com
