Second A-dec Surgery installed for Bridge2Aid.

A-dec are proud supporters of Bridge2Aid and hope this new surgery will provide much needed dental support and care for the people of North West Tanzania.

For more information about the great work of Bridge2Aid or to make a donation visit the website; www.bridge2aid.org or telephone the UK Office: +44 (0) 114 252 6050

Achieve Results
With Artio™

Artio™ has arrived at DENTSPLY. The new range of instruments has been developed to accommodate the clinician with its ergonomically designed handle with excellent grip.

Mr. Bill Sharpling of Kings College London Dental Institute has sampled the new Artio range and was impressed with the results. He said, “After trying the Artio instruments I found them to be very easy to work with. They are lightweight and comfortable to use with a superior level of grip due to the nature of the handle design. In practice the other advantages were that the colour and style made it quicker and easier to identify when sorting, cleaning and repackage as part of the decontamination and infection control process.”

50p from the sale of all Artio instruments will be donated to the Mouth Cancer Foundation. Visit www.mouthcancerfoundation.org for more information.

For more information about the DENTSPLY range of super- dentures, contact, Freephone 0800 072 5515

Lighting the way with Dental Sky!

The B&D cordless Easylight LED from Dental Sky does exactly what its says on the tin! This powerful LED light allows for fast, reliable curing after a short start of 3 seconds. This allows for a gradual cure of all composites with ease.

For more information or to ask any questions, please contact: Mark Chapman, Director of Sales and Marketing commented: “We’re very excited about the way that our Aseptico range has taken off and this addition is superb.”

Dentsply

Congratulations to all the candidates at the 2009 52nd DENTSPLY/BDA student clinician programme. The caliber of entry just keeps getting better and the competition this year was of an outstanding standard, which is excellent news for the future of UK dentistry.

Held at the Mandarin Oriental Hotel in Knightsbridge London, the evening was a resounding success with over 200 guests representing UK and Irish dental schools, the BDA and other eminent figures from the dental profession.

Thirteen teaching schools put forward an entrant for the adjudication, which was held, at the BDA headquarters during the day. Each student presented a piece of original research to the three adjudicators: Professor Naim Wilson, Head of School and Dean of Kings College London Dental Institute; Mrs. Drummond, Senior Lecturer and Honorary Consultant of Dundee Dental School; and Professor Robbie McConnell, from the Department of Restorative Dentistry College of Medicine, Cork University Dental School.

For information on the 2010 DENTSPLY/BDA Student Clinician Programme, please contact DENTSPLY on +44 (0)800 072-5515 www.dentsplyco.uk

Swallow Dental Supplies Ltd: Dentistry Show: Stand G15

Aseptico Operators stool

The Veloype team are delighted to launch their 2nd portable dental stool – from Aseptico. The stool compliments both the Adult portable dental chair (gray) and the Childrens portable dental chair (red).

Mark Chapman, Director of Sales and Marketing commented: ‘We’re very excited about the way that our Aseptico range has taken off and this addition is superb.”

Special offer plus a free gift with Diamond Capsules.

Diamond Rapid set GIC capsules are proving to be very popular with dentists because they save time, without the need to hand mix!

Before the end of March; buy one Diamond Capsule value pack (90 capsules) for £7.20 saving £1.80 on the normal selling price of £9.00.

Or buy 2 value packs for £14.40 plus a free box of PracticeSafe wips.

Diamond Capsules have a fast working time of 155 seconds with a waterproof snap set, making them ideal for a busy practice. This chemical snap set which has immediate resistance to saliva ensures a longer lasting strength and durability.

For more information or to ask any questions, please contact: Mark Chapman Medivance Instruments Ltd Barretts Green Road NW10 7AP Tel: 07754 648477

The Aseptico range provides the ability to create a ‘dental surgery’ in any room anywhere – all you will need is power. The equipment combines comfortable dental chairs with opera- tors stools, convenient lights as well as delivery systems.

If radiography is required, the Veloype Digital X-ray system and compact X-ray unit allow the clinician to produce diagnostic digital radiographs on a laptop computer when on location away from the surgery. Both the laptop and No- mad are battery powered – but can be charged on site.

From Vita, the world leading expert in shade determination, the new Easyshade™ Compact is a fast and reliable way to take shade at the push of a button. High measuring accuracy due to spectrophotometric measuring, this cordless, mobile and compact device provides a fast and reliable way to take shade. Easyshade™ Compact, you can read one single shade or 5 different areas in the tooth and check restorations. Up to 25 shade taking results can be stored in memory.

Dentsply

From Vita, the world leading expert in shade determination, the new Easyshade™ Compact is a fast and reliable way to take shade at the push of a button. High measuring accuracy due to spectrophotometric measuring, this cordless, mobile and lightweight unit reads up to a potential 97 shades combination, both in Classical and in the 3D system. User friendly and comfortable to use with a superior level of grip due to the nature of the handle design. In practice the other advantages were that the colour and style made it quicker and easier to identify when sorting, cleaning and repackage as part of the decontamination and infection control process.”

Dentomycin: the first choice adjunctive treatment for chronic adult periodontitis

Dentomycin is a proven effective adjunctive treatment that complements Scaling and Root Planing through all treatment stages of chronic adult periodontal disease including the first.

Dentomycin simply combats the broad range of bacteria associated with periodontal disease, reaching areas that maybe unattainable with instruments alone while reducing inflammation, improving patient comfort.

Dentomycin includes the active ingredient Minocycline, and when applied for 4 times, with 14 days between each application, is proven to reduce key pathogens. The pre-filled applicator allows direct application to the pocket base, and the combination of Dentomycin with scaling and root planing reduces pocket depths by up to 42% over a 12-week period.

Cost effective and easy to use, Dentomycin also offers improved patient satisfaction.

For more information please call John Jessop of Blackwell Supplies on 020 7224 1457 or fax 020 7224 1694

Promote Optimum Oral Care With Curasept

The extensive Curaprox range is bolstered by the return of Curasept gel. Containing 0.5% of the potent antimicrobial C Hard, the gel is easy to use with no patient compliance issues. Apply directly to the periodontal pocket, or let the patient do so using a cotton bud or interdental brush. Also available is Curasept mouthwash, which like the gel is alcohol-free, putting patient minds at ease about the reported link between alcohol-mouthwashes and oral cancer.

All Curasept toothpastes are free from sodium lauryl sulphate (SLS), which nullifies the beneficial effects of CHX. Curaprox contains non-irritating Stearol-50 instead, and is ideal for patients suffering from aphthous ulcers. Because it remineralises teeth using nutrients from saliva, whilst also boosting the saliva’s anti-bacterial action, Curaprox is great in early stage caries.

Curaprox is also first choice for toothbrushes and interdental brushes, and supplies the handy Travel Sets to help patients on the go maintain their oral health.

For more information please call 01480 862804, email sales@oraldent.co.uk or visit www.curaprox.info

Back to basics with KAV

Visiting the dentist normally inspires enormous sympathy for the patient. Little thought is spared for the dentist or the considerable musculoskeletal demands placed on dental professionals during procedures. Incorrect sitting posture not only impairs your ability to work, it can also put your health at risk with symptoms including muscular tension, backache and headaches.

In the SENet you will notice you are sitting comfortably, correctly, and that you have the greatest possible freedom of movement. The backrest, seat height and seat depths can easily be adjusted to suit any height, and the robust safety chassis guarantees great strength and long life.

Make an investment in your practice and your health with the stylish and innovative SENet.

For further information, please contact KaVo on 01949 755 000, email: sales@kavo.com or visit www.kavo.com

The EyeMag Smart provides a cost effective solution to 2.5X magnification, enabling the quick and easy identification of structures, and because the loupe is opened in front of a large field of view, you will never miss a thing. As well as featuring the optical precision associated with Carl Zeiss, the EyeMag Smart is also comfortable, applying the latest ergonomic theory to support ideal posture through-out even the most demanding procedures.

Nuview is committed to providing a great service, and with prompt and reliable aftercare, you can enjoy peace of mind with your new equipment.

For more information call Nuview on 01455 779659 or email info@nuview-ltd.com, www.nuview.co.uk

Save With PracticeWorks

Reminders are vital. In a 9:00am-5:30pm working day, allowing for a lunch hour, a dentist can complete over 50 appointments at 15 minutes each. At £25 per appointment, this equates to £750 a day.

If just 9% of appointments are missed, this can lose them £16,200 a year. As well as the cost of UDNAs, there is the cost of missed UDNAs to consider too!

With the latest version of B from PracticeWorks, the leading supplier of Practice Management and Imaging solutions, you can cut reminder costs dramatically.

B’s recently updated text messaging service lets dentists have replies to their texts, which automatically update the appointment book.

If a practice sends out 500 reminders a month by mail, this could cost practices £5,000 per year. By switching to a text messaging service, practices can save over £2,500 – much more convenient for patients.

For more information please call PracticeWorks on 0800 169 9692 or visit www.practiceworks.co.uk

Develop World Class Skills With The Diploma Course In Dental Implantology

Pero-Implant Europe Ltd’s renowned and comprehensive Diploma Course in Dental Implantology (April 24th 2009 – February 15th 2010) gives dental professionals a unique opportunity to learn from the world’s best.

The course provides everything General Dental Practitioners need to start confidently offering high quality implant treatment to patients. Modules are taught at state-of-the-art facilities in the UK, Sweden, France and Brazil and cover the entire field of dental implantology, including Experimental and Clinical Considerations, Biomechanics, Anatomy, Digital Photographs, Periodontology and more. Delegates will also learn how to create a Cosmetic/Implant Referral Practice, master General Consent and Medico-Legal Aspects, and explore New Concepts.

Featuring hands-on workshops and the chance to conduct exercises on fresh human cadavers, the course attracts delegates from around the world. Bookings are made on a first come, first served basis and interested parties are advised to book early to avoid disappointment.

For more information please call 01276 469 680 or email info@implantsuccess.com
