Lighting the way with Dental Sky!

The B&D cordless Easylight LED from Dental Sky does exactly what is says on the tin! This powerful LED light allows for fast, reliable curing after a short start of 3 seconds. This allows for a gradual cure of all composites restoratives, eliminating shrinkage that is often caused by curing the material too quickly.

Achieve Results With Artio™

Artio™ has arrived at DENTSPLY. The new range of instruments has been developed to accommodate the clinician with its ergonomically designed handle with excellent grip. The super-lightweight instruments have tips made from Ash CryoSteel, a cryogenically treated metal that is highly resistant to wear, for extra durability.

Mr. Bill Sharpling of Kings College London Dental Institute has sampled the new Artio range and was impressed with the results. He said, “After trying the Artio instruments I found them to be very easy to work with. They are lightweight and comfortable to use with a superior level of grip due to the nature of the handle design. In practice the other advantages were that the colour and style made it quicker and easier to identify when sorting, cleaning and repacking as part of the decontamination and infection control process.”

50p from the sale of all Artio instruments will be donated to the Mouth Cancer Foundation. Visit www.mouthcancerfoundation.org for more information.

For more information about the DENTSPLY range of supere and dental products, call Freephone 0800 072 5515.

Aseptico Operators stool

The Velopex team are delighted to launch the A-dec portable dental stool – from Aseptico. The stool compliments both the Adult portable dental chair (gray) and the Childrens portable dental chair (red).

Mark Chapman, Director of Sales and Marketing commented: “We’re very excited about the way that our Aseptico range has taken off and this addition is superb.”

With the O’Hehir range you can experience a $300 bi-lateral cutting edge that effectively removes deposits with any hand motion.

We are also proud to exhibit the innovative highly regarded Stoma Surgical Instruments and Anglyn Handpieces – products with an unrivalled reputation for quality.

Dentsply

Congratulations to all the candidates at the 2009 52nd DENTSPLY/BDA student clinician programme. The caliber of entry just keeps getting better and the competition this year was of an outstanding standard, which is excellent news for the future of UK dentistry.

Held at the Mandarin Orien- tal Hotel in Knightsbridge Lon- don, the evening was a resound- ing success with over 200 guests representing UK and Irish den- tal schools, the BDA and other eminent figures from the dental profession.

Three hundred. Teaching schools put forward an entrant for the adjudication, which was held, at the BDA headquarters during the day. Each student presented a piece of original research to the three adjudicators: Profes- sor Nairn Wilson, Head of School and Dean of Kings Col- lege London Dental Institute; Professor John Drummond, Senior Lecturer and Honorary Consult- ant of Dundee Dental School; and Professor Robbie Mc- connell, from the Department of Restorative Dentistry College London. Cork University Dental School.

For information on the 2010 DENTSPLY/BDA Student Clinici- an Programme, please contact DENTSPLY on +44 (0) 800 072- 5515 www.dentstyc.co.uk
Dentomycin: the first choice adjunctive treatment for chronic adult periodontitis

Dentomycin is a proven effective adjunctive treatment that compliments Scaling and Root Planing through all treatment stages of chronic adult periodontitis disease including the first.

Dentomycin simply combines the broad range of bacteria associated with periodontal disease, reaching areas that maybe unobtainable with instruments alone while reducing inflammation, improving patient comfort.

Dentomycin includes the active ingredient Minosycarine, and when applied for 4 minutes, with 14 days between each application, is proven to reduce key pathogens. The pre-filled applicator allows direct application to the pocket base, and the combination of Dentomycin with scaling and root planing reduces pocket depths by up to 42% over a 12-week period.

Cost effective and easy to use, Dentomycin also offers improved patient satisfaction.

For more information please call John Jesshop of Blackwell Supplies on 020 7224 1457 or fax 020 7224 1894.

Promote Optimum Oral Care With Curaprox

The extensive Curaprox range is bolstered by the return of Curasept gel. Containing 0.5% of the potent antimicrobial DMS, the gel is easy to use with no patient compliance issues. Apply directly to the periodontal pocket, or let the patient do so using a cotton bud or interdental brush. Also available is Curaprox mouthwash, which like the gel is alcohol-free, putting patient minds at ease about the re-introduction of mouthwashes and oral cancer.

All Curasept toothpastes are free from sodium laurel sulphate (SLS), which nullifies the beneficial effects of CHX. Curazyl contains non-irritating Stearch-50 instead, and is ideal for patients suffering from aphthous ulcers. Because it remineralises teeth using nutrients from saliva, whilst also boosting the saliva’s anti-bacterial action, Curazyl is great in early stage caries.

Curaprox is also first choice for toothbrushes and interdental brushes, and supplies the handy Travel Sets to help patients on the go maintain their oral health.

For more information please call 01480 828084, email sales@oraldent.co.uk or visit www.curaprox.info.

Back to basics with KAV

Visiting the dentist normally inspires enormous sympathy for the patient. Little thought is spared for the dentist or the considerable musculoskeletal demands placed on dental professionals during procedures. Incorrect sitting posture not only impairs your ability to work, it can also put your health at risk with symptoms including muscular tension, backache and headaches.

In the SENsit you will notice you are sitting comfortably, correctly, and that you have the greatest possible freedom of movement. The backrest, seat height and seat depth can easily be adjusted to suit any height, and the robust safety chassis guarantees great strength and long life.

Make an investment in your practice and your health with the stylish and innovative SENsit.

For further information, please contact KaVo on 01949 755 000, email: sales@kavo.com or visit www.kavo.com.

The BACD in Edinburgh!

2009 The Sixth Annual Meeting Book on line today and save 10%

The Annual Meeting of the British Academy of Cosmetic Dentistry is taking place from the 18th to the 21st of November 2009 at the Edinburgh International Conference Centre (EICC).

In its sixth year, The BACD will address The Future Of Dentistry with lectures and seminars on the latest advances in the 21st century including materials, CAD/CAM, LASKRs, touch screen, medico-legal considerations and digital innovations being frequently introduced into everyday dentistry. The conference has been designed to keep professionals at the forefront of high quality dental treatments.

BACD events are always great informative and member benefitsRegional Study Clubs, the renowned Accreditation programme and the Annual Audit that enables members to identify progressive trends and further develop their service to patients.

For more information contact Suzy Bowland on 0207 612 4160 or email info@bacd.com, www.bacd.com. Affordable Excellence With EyeMag Smart Loupes

EyeMag Smart Loupes

Nuview allow you to bring the expertise of world leader Carl Zeiss into your practice at an attractive price. This means that you can benefit from over 150 years of design excellence when carrying out a wide range of procedures.

Kavo have engineered the amazing SENsit to perfectly match your individual anatomy and to suit the conditions in your laboratory and office. The synchronization mechanism connects the backrest and seat surface, relieving the body through dynamic sitting.

The EyeMag Smart provides a cost effective solution to 2.5X magnification, enabling the quick and easy identification of structures, and because the loupes are designed to rest on your nose, with a large field of view, you will never miss a thing. As well as featuring the optical precision associated with Carl Zeiss, the EyeMag Smart is also comfortable, applying the latest ergonomic theory to support ideal posture through out even the most demanding procedures.

Nuview is committed to providing a great service, and with prompt and reliable aftercare, you can enjoy peace of mind with your new equipment.

For more information call Nuview on 01435 776659 or email info@nuview-ltd.com, www.voroscopes.co.uk.

Save With PracticeWorks

Reminders are vital. In a 9:00am-5:30pm working day, allowing for a lunch hour, a dentist can complete over 50 appointments at 15 minutes each. At £25 per appointment, this equates to £750 a day.

If just 9% of appointments are missed, this can lose them £6,200 a year. As well as the cost of DINs, there is the cost of missed UDA’s to consider too.

Without the latest version of B4 from PracticeWorks, the leading supplier of Practice Management, Practice Imaging and Imaging solutions, you can cut reminder costs dramatically.

B4’s recently updated text messaging service lets dentists have replies to their texts, which automatically update the appointment book.

If a practice sends out 500 reminders a month by mail, this could cost practices £3,000 per year. By switching to a text messaging reminder service, practices can save over £2,500 – $400, for two years or more convenient for patients.

For more information please call PracticeWorks on 0800 169 9692 or visit www.practiceworks.co.uk.

Develop World Class Skills With The Diploma Course In Dental Implantology

More than 500 European dentists have met with their counterparts from many countries and medical professionals of world standing in the past few years in order to discuss the current and future trends in the field of dental implantology. The BACD in Edinburgh, March 9–15, 2009

The course provides everything General Dental Practitioners need to start confidently offering high quality implant treatment to patients. Modules are taught at state-of-the-art facilities in the UK, Sweden, France and Brazil and cover the entire field of dental implantology, including Experimental and Clinical Considerations, Biomimetics, Anatomical, Digital Photographs, Periodontology and more. Delegates will also learn how to create a Cosmetico/Implant Referral Practice, master General Consent and Medico-legal Aspects, and explore New Concepts.

Finding hands-on workshops and the chance to conduct exercises on fresh human cadavers, the course attracts delegates from around the world. Bookings are made on a first come, first served basis and interested parties are advised to book early to avoid disappointment.

For more information please call 01276 469 680 or email info@implantsuccess.com.
