Minimally Invasive Adhesive Dentistry

Many modern dental procedures require specialised hi-tech equipment and non-excess in performing the delicate techniques of minimally invasive and adhesive dentistry better than the PrepStart neat and compact air abrasion unit.

Versatility is assured, as Dentist’s PrepStart is ideal for use in a variety of procedures including cavity preparation, bonding, repairing, restoring and the detection and treatment of fissure lesions, with great patient acceptance.

The ultra lightweight handpiece allows you to achieve a level of accuracy and speed unmatched by conventional procedures. PrepStart does not come into direct contact with the tooth, eliminating noise, vibration and often the need for anaesthetic, resulting in minimal discomfort for the patient.

With a special mini ultra quiet compressor if required, PrepStart air abrasion not only minimises the loss of tooth tissue but effectively adds confidence to adhesive procedures. Evident are offering a FREE Restorative Kit worth £155 with every purchase.

Call Evident today on FreeCall 0800 521111 or visit Evident’s website at www.evident.co.uk to arrange a no-obligation demonstration.

The Grace X5 dental chair is a quality product at an affordable price.

This comfortable chair has a hydraulic elevation system. The standard package at £6,795 (excluding installation) includes options, real leather (in a wide range of colours), massage function, led curing light, built in scaler (piezo or stb), fibre optic on 2 lines, air motor, and small x-ray viewer, 2 membrane positions, and movement safety interrupts, as well as a large delivery table.

The deluxe package for £7,849 includes the Grace multimedia camera system, an assistant’s chair and automatic infra red cup filler.

We can arrange for installation for you and an aftercare service.

Savings to be made at Bien-Air

DentalEZ

Since pioneering sit-down dentistry in the 1950’s DentalEZ has been committed to improving working efficiency and to enhance patient care.

Our surgery equipment choices are built around our renowned dental chairs. J/V Generation is an example, which offers exclusive seat tilt and movement, helping maintain proper spinal alignment to reduce stress on discs and soft tissue around the patient’s spine.

All of our chairs have thin narrow backs to provide clear sight lines and direct access to the oral cavity.

We then have a choice of Delivery units to complement, whether over-patient, rear mount or mobile.

DentalEZ range includes seating, lighting, suction and handpieces.

KaVo continues to produce exceptional products based on the needs of our customers making sure they receive complete satisfaction.

For further information, please contact KaVo on 01494 735 800, email: sales@kavo.com or visit www.kavo.com.

Imagine With KaVo

One of the leading dental manufacturers, KaVo prides itself on providing ergonomically designed and innovative high quality products.

KaVo is dedicated to achieving dental excellence in all its product ranges, including superior handpieces.

KaVo offers its customers imaging solutions of exceptional quality such as the GXCB-500, the latest in Cone Beam 3D dental imaging.

The unique sensor design allows staff to switch effortlessly from 3D to 2D imaging saving them valuable time. It has a standard field of view of 8x8cm while its special EDS shot enables a view of 14x8cm.

The Orthoralix 8500 is a panoramic digital extraoral X-ray unit that provides superior mechanical performance while producing the best diagnostic image quality. The 9800 version is the best dental panoramic and cephalometric system for film-based or direct digital radiology.

Weighting in at just over 4 ounces (121 grams) and measuring only 8.6 inches (219 mm) in length, it is easy to manoeuvre and manage during each procedure. This compact and cordless LED light is well suited for mobile clinics and services while also providing more ergonomic comfort to clinicians.

A fully charged battery powers 180 ten-second cures.

For more information on this exciting new light please contact our sales team on 0800 052 5005 or +44 1923 850425.

850th Aquacut Quattro Installed

Bexley in Kent, is now firmly on the map as far as Fluid Abrasion is concerned! The 850th Velopex Aquacut Quattro has been installed at Dr Braka Thirusundaram’s ‘busy Dental Practice, in Vicarage Road, Bexley. This light and airy building provides a superb backdrop for this busy dental practice - which now offers all patients the availability of fluid abrasion: Cleaning and Treating, in a calm soothing environment. Dr Thirusundaram commented: “It’s great! It’s an essential part of modern technology in a modern practice”.

The Velopex Aquacut Quattro contains two chambers,
planning and minimally invasive solutions. For more information please contact 01925 251 557 or visit www.lukebarnett.com

Tri-Sok now available in a cost effective 7gr Tube!

Luke Barnett leads the way!

One of the UK’s leading dental technicians, and his team of specialists, drew considerable interest on stand A4 at the 2009 Dentistry Show. The ‘Art of Technical Dentistry’ and Luke Barnett were one of the focal points at this major event on the industry calendar.

Dentists were keen to meet Luke and his team, to discuss the benefits of the Laboratory’s high quality approach to cosmetic and restorative solutions.

Luke Barnett laboratory is a 5500 square foot facility, which combines the highest standards with the most cutting edge equipment, to produce optimum results.

The team was delighted to talk about its in-house milling services, advanced CAD/CAM technology and photography facilities, as well as the specialist technicians and an array of services that include shade taking and custom finishing.

Based in Watford, Luke Barnett represents a new standard in comprehensive treatment which can accommodate any combination of the 5 Cleaning and Treating media available. The 29µm Treating powder allows the clinician to ablate hard tissue (Composite, enamel and dentine) creating a relatively rough surface – which is ideal for the latest bonding and restorative materials. The 29µm Treating powder gives the clinician a much smoother cut for finer work.

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical mentor network, the 1st of its kind to be established in the North West. As a result it attracts a number of recognised guest speakers such as Dr Philip Freiberger, ITI Fellow and past president of the ABj and Mr Koray Furman from
Open the Door To Your Dream Practice With Genua

When it comes to Design and Build, Genus provides a world-class service. The team uses the latest Computer Aided Design and 3D rendering software to produce designs that meet the dentist’s unique vision and comply with the latest industry guidelines.

Genus understands that location has a huge bearing on success, and will aid the dentist in finding the most suitable site. When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half, ensuring that everything runs smoothly within the agreed budget and timescale. The dentist always feels in control because there is always a clear and accountable point of contact.

No practice is ever complete without the latest equipment, because Genus are not tied to any particular manufacturer, if required, they can give dentists impartial advice to help ensure that practices are fitted with precisely the right equipment for their needs.

For more information please call Genus on 01582 840484 or email info@genusgroup.co.uk, www.genusinteriors.co.uk

Scientific Dental Solutions!

Nobel Biocare, the world leader in innovative restorative and esthetic dental solutions, has an outstanding range of effective, easy to use implants that are scientifically proven to be safe and effective.

Offering high initial stability for all indications and in cases of immediate extraction & implant placement, NobelReplace™ is the most widely used implant in the world. Completely colour coded and excellent for narrow spaces between remaining roots, NobelReplace™ offers:

- Step-by-step drilling protocol for predictable surgical procedures
- Internal tri-channel connection for accurate and secure prosthetic restorations
- Implant design that mimics the shape of a natural tooth

The specialists at Nobel Bio-care have created their vast range of unique tapered implants to provide an easy to use solution for a completely natural effect and to offer dental professionals reliability and quality every time.

Smile-on Enriches Knowledge At The Dentistry Show 2009

Attendees at the Dentistry Show (NEC Birmingham, 13th-14th of March 2009) saw how new approaches to learning benefit the entire dental team. Dentistry is becoming more competitive, and patients will only accept the very best. What’s more, new guidelines demand continual improvement. Smile-on provides fresh and exciting methods of developing the skills and knowledge required, in formats that are compatible with even the busiest schedules.

Smile-on showed delegates what was possible with the latest technology, from courses and products, easily integrated into the working day, including the three-module programme Communication in Dentistry: Stories from the Practice. This lets dental professionals open clear lines of communication with patients, laboratories and peers, reducing complaints and the risk of legal action by promoting clinical efficiency and patient satisfaction.

Delegates were introduced to digital imaging and the considerable benefits of using cameras safely and effectively with the Clinical Photography Course, available on CD-ROM or online. Other vital solutions discussed included DINSTART and Clinical Governance. Creating a clear and transparent budget and governance makes everything run smoothly within the agreed budget and timescale.

When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half, ensuring that everything runs smoothly within the agreed budget and timescale. The dentist always feels in control because there is always a clear and accountable point of contact.

For more information visit 020 7400 8989 or email info@smile-on.com

New Curasert Mouthwash with Anti-Discolouration System!

The new Curasert mouthwash, available from the Dental Directory, has all the efficacy of a CHX product, but now with clinically proven patient compliance!

Patients prefer using a chlorhexidine mouthwash with ADS (anti discolouration system) rather than chlorhexidine mouthwashes without its official!

The extensive Curaprox range is also available from The Dental Directory and includes a daily CHX rinse, a daily CHX toothpaste, a higher efficacy rinse for specific short term use, and the welcome return of the 0.5% gel for topical application of chlorhexidine.

“Convenient and cordless, the massaging sensation makes the Waterpik® a great addition for anyone looking for perfect oral hygiene. It’s great and simple to flush out around braces, bridges, implants or even deep pockets.

Along with your recommended oral hygiene regime, the Waterpik® helps prevent gum inflammation and your mouth feels cleaner and fresher for longer. The Waterpik® is also very mobile so you don’t have to give up that super fresh feeling when you travel. If you have specific periodontal problems the additional advantage of flushing with a med-
