Sirona
Sirona UK is a specialist division of Sirona Dental Systems, the manufacturer of the CEREC System, and has now for the last 5 years supplied and supported CEREC CAD/CAM all-ceramic restoration system here in the UK.

With product simplicity key to the success of any dental practice, Sirona are now proud to launch their new CEREC AC Bluecam imagining unit making the CEREC even easier to use for the dentist.

Sirona has helped to successfully integrate CEREC into dental practices for over 22 years, with more than 24,000 systems now in place worldwide. It offers convincing long-term aesthetic restorations in a single visit.

Sirona UK’s mission is to deliver satisfaction to the dentist using tried and tested in-surgery training methods supported by CEREC Specialists who are dedicated to your success.

CEREC AC Bluecam – Seen in a new light.

Bien-Air is offering triple or quadruple packs in a variety of options. Choose from CA 1:1,5 or 10:1 with or without light with large push button quick bur release in either the standard or Diamoline diamond coating for optimum user comfort providing an excellent grip to help prevent hand fatigue.

With each of the Long-Life Packs you will save money and receive a free cleaning spray and lubricant spray. Additionally the turbine Long-Life Packs include a quick-connect coupling with or without optic.

Bien-Air are extending the warranty on all Triple and Quad packs of Contra-angles and turbines to two years instead of the usual 12 months.

Stocks are limited, please contact Bien-Air on 01308 711 505 or visit www.bienair.com now.

We can arrange for installation for you and an aftercare package. Installation starts from £450, but depends on a site survey for an exact quote.

For more details, and full specifications and pictures visit our web site, www.bienair.com or call us free on 0800-678-30-35.

Minimally Invasive Adhesive Dentistry
Many modern dental procedures require specialised hi-tech equipment and none excels in performing the delicate techniques of minimally invasive and adhesive dentistry better than the PrepStart neat and compact air abrasion unit.

Versatility is assured, as Evident’s PrepStart is ideal for use in a variety of procedures including cavity preparation, bonding, repairing, restoring and the detection and treatment of fissure lesions, with great patient acceptance.

The ultra lightweight handpiece allows you to achieve a level of accuracy and speed unmatched by conventional procedures. PrepStart does not come into direct contact with the tooth, eliminating noise, vibration and often the need for anaesthetic, resulting in minimally discomfort for the patient.

Available with a special mini ultra quiet compressor if required, PrepStart air abrasion not only minimises the loss of tooth tissue but effectively adds confidence to adhesive procedures. Evident are offering a FREE Restorative Kit worth £155 with every purchase.

Call Evident today on 08450 511111 or visit Evidents website at www.evident.co.uk to arrange a no-obligation demonstration.

Tri-Sok now available in a cost effective 7gr Tube!

Tri-Sok is used for the treatment, after development, of inflammation in an extraction socket. Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic. It contains Chlorotetracycline, a broad-spectrum antibiotic that acts against infective organisms.

Asquin exerts antagonistic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

The Annenberg Lecture will be given on the Friday by Professor Sitnaz Richacho and Dr Deborah Schwartz-Arad, and Saturday’s Conference is set to be the best yet with speakers including Drirsch, Dr Chris Orr, Professor Edward Lynch, Professor Liviu Steier, Dr Andrew Darwood, Dr Wyman Chan, Professor Luca Gachetti and many more. Call today and ensure that you don’t miss out on this great chance to learn from the world’s best.

For more information, and to ensure your place, call 020 7400 8890 or email info@smile.com, www.clinicalinnovations.co.uk.

The Clinical Innovations Conference and Annenberg Lecture 2009

The Clinical Innovations Conference and Annenberg Lecture 2009 (at the Royal College of Physicians, Regent’s Park, London on the 15th (Annenberg Lecture) and 16th of May) gives dental professionals an unmissable opportunity to explore the very latest developments in aesthetic and restorative dentistry.

Using informative lectures and hands-on sessions, a wide array of respected experts will be sharing their insights, including such worldwide speakers as Dr Sinu Mitredarshi. His lecture ‘Keys step by a successful:

1. Whitening centre will help delegates provide a truly excellent service to patients, covering:
   a. The right realigning method
   b. Concentration issues
   c. Chemical activation
   d. Restorative implications
   e. New regulations
   f. Patient communication
   g. Marketing and PR
   h. Competition

The remarkable precision and technology of the OPMI Pico dental microscope and the EyeMag Smart loupes. Available at a great price and useful in general and specialist dentistry, these devices made a real impression on visitors to the stand.

Carl Zeiss designed the OPMI Pico microscope exclusively for use in dentistry, and delegates were keen to take a closer look. The excellent quality of image and the ergonomic yet robust design helps to make the OPMI Pico a leading choice in dental microscopy. Minute details of the treatment site are clearly recognised, and the integrated light source lights the user enjoy conditions approaching those of daylight.

The EyeMag loupes represent a cost-effective, comfortable and high quality product, with a range of working distances to promote ideal posture, and a flip-up function for great posterior access.

Nuvie was happy to discuss the current services available and is second to none and gives all clients complete peace of mind with their new equipment.

DENTSPLY’s quality, branded products fit each step of this procedure, meeting the needs of dentists to ensure an accurate, long lasting restoration and help you to ‘get it right first time’.

Preparation with Miss Hi-D³, diamond burs ‘Diamonds are a Dentist’s Best Friend’

Impression Taking with Mr Aasian Ultra ‘Always make a Great Impression’

Temporary or Provisional Restorations with Mrs Integrity ‘Looks that Last’

Restorative Hand Instruments with Mr Arto™ ‘Tools for a True Artist’

Permanent Cementation with Mr Calcium ‘Strength in Simplicity’

The new stand drew real interest from dental professionals who shared DENTSPLY’s dedication to the very best standard of dental care. DENTSPLY remains strongly committed to supplying innovative products of the highest quality at an affordable price, to support dental professionals in their provision of optimum care and excellent results.

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otaga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical mentorship network, the 1st of its kind to be established in the North West. As a result it attracts a number of recognised guest speakers such as Dr Philip Freiberg, ITI Fellow and past president of the ADI and Mr Koray Feran from...
New Curasept Mouthwash with Anti-Discolouration System!

The new Curasept mouthwash, available from the Dental Directory has all the efficacy of a CHX product, but now with clinically proven patient compliance!

Patients prefer using a chlorhexidine mouthwash with ADS (anti discoloration system) rather than chlorhexidine mouthwashes without - its official!

The extensive Curaprox range is also available from The Dental Directory and includes a daily CHX rinse, a daily CHX toothpaste, a higher intensity rinse for specific short term use, and the welcome return of the 0.5% gel for topical application of chlorhexidine.

"More time and less mess"

Melanie Prebble, a dental hygienist and team member of Senova Dental Studios recommends the benefits of Waterpik® Dental Water Jet to her patients.

Open the Door To Your Dream Practice With Gens

When it comes to Design and Build, Gens provides a world-class service. The team uses the latest Computer Aided Design and 3D rendering software to produce designs that meet the dentist’s unique vision and comply with the latest industry guidelines.

Gens understands that location has a huge bearing on success, and will aid the dentist in finding the most suitable site. When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half ensuring that everything runs smoothly within the agreed budget and timescale.

The dentist always feels in control because there is always a clear and accountable point of contact.

No practice is ever complete without the latest equipment, because Gens are not tied to any particular manufacturer, if required, they can give dentists impartial advice to help ensure that practices are fitted with precisely the right equipment for their needs.

For more information please call Gens on 01582 84004 or email info@gensgroup.co.uk, www.genusinteriors.co.uk

Scientific Dental Solutions!

Nobel Biocare, the world leader in innovative restorative and esthetic dental solutions, has an outstanding range of effective, easy to use implants that are scientifically proven to be safe and effective.

Offering high initial stability for all indications and in cases of immediate extraction & implant placement, NobelReplace™ tapered is the most widely used implant in the world. Completely colour coated and excellent for narrow spaces between remaining roots, NobelReplace™ offers:

- Step-by-step drilling protocol for predictable surgical procedures
- Internal tri-channel connection for accurate and secure prosthetic restorations
- Implant design that mimics the shape of a natural tooth

- Prosthetic flexibility with standard and individualised zirconia and titanium abutments
- Individualised implant-level partial and full-arch bridges in zirconia and titanium

The specialists at Nobel Biocare have created their vast range of unique Tapered implants to provide an easy to use solution for a completely natural effect and to offer dental professionals reliability and quality every time.

Smile-on Enriches Knowledge At The Dentistry Show 2009

Smile-on showed delegates what was possible with the latest technology. By using computer-aided design and manufacturing equipment, the entire planning process was on show. The extensive range of solutions was designed specifically for the dental profession.

Delegates were introduced to digital imaging and the considerable benefits of using cameras safely and effectively with the Clinical Photography Course, available on CD-Rom and online. Other vital solutions discussed included DINSTAR and Clinical Governance Progress Management, helping practices satisfy industry requirements and ensuring that Smile-on continues to be recognised as the provider of pathways to excellence.

For more information call 020 7400 9898 or email info@smile-on.com
