DentalEZ

Since pioneering sit-down dentistry in the 1950’s DentalEZ has been committed to improving working efficiency and to enhance practices.

DentalEZ range includes seating, lighting, suction and handpieces.

Savings to be made at Bien-Air

Bien-Air is offering triple or quadruple packs in a variety of options. Choose from CA 1:1:5 or 1:1 or without light with large push button quick bur release in either the standard or Diamine diamond coating for optimum user comfort providing an excellent grip to help prevent hand fatigue.

DentalX Magna

FLASHlite Magna curing light. The FLASHlite Magna curing lights is the next generation in the Discus Dental FLASHlite line of LED dental curing lights. It offers a large, 11-millimeter beam with three, high-intensity LEDs that deliver an average output of 1500 mw/cm². The new advanced optics in the FLASHlite Magna maintain a high output even at a distance from the teeth.

DentalEZ

Since pioneering sit-down dentistry in the 1950’s DentalEZ has been committed to improving working efficiency and to enhance practices.

850th Aquacut Quattro Installed

Bexley in Kent, is now firmly on the map as far as Fluid Abrasion is concerned! The 850th Velopex Aquacut Quattro has been installed at Dr Braka Thurai sundaram ’s busy Dental Practice, in Vicarage Road, Bexley. This light and airy building provides a superb backdrop for this busy dental practice - which now offers all the patients the availability of fluid abrasion: Cleaning and Treating, in a calm soothing environment. Dr Thurai sundaram commented: “It’s great! It’s an essential part of modern technology in a modern practice”.

The Velopex Aquacut Quattro contains two chambers, saving them valuable time. It has a standard field of view of 8x8 cm while its special EDS shot enables a view of 14 x 8 cm. The Orthoralix 8500 is a panoramic digital extraoral X-ray unit that provides superior mechanical performance while producing the best diagnostic image quality. The 9200 version is the best dental panoramic and cephalometric system for film-based or direct digital radiography.

Weighing in at just over 4 ounces (121 grams) and measuring only 8.6 inches (219 mm) in length, it is easy to manoeuvre and manage during each procedure. This compact and cordless LED light is well suited for mobile clinics and services while also providing more ergonomic comfort to clinicians.

A fully charged battery powers 180 ten-second cures.

For more information on this exciting new light please contact our sales team on 0800 052 5005 +44 1922 850425.
The Dentistry Show 2009

One of the UK’s leading dental technicians, and his team of specialists, drew considerable interest on stand A4 at the 2009 Dentistry Show. ‘The Precise Art of Technical Dentistry’ and Luke Barnett were one of the focal points at this major event on the industry calendar.

Dentists were keen to meet Luke and his team, to discuss the benefits of the Laboratory’s high quality approach to cosmetic and restorative solutions.

Luke Barnett laboratory is a 5500 square foot facility, which combines the highest standards with the most cutting edge equipment, to produce optimum results.

The team was delighted to talk about its in-house milling services, advanced CAD/CAM technology and photography facilities, as well as the specialist technicians and an array of services that include shade taking and custom finishing.

Based in Watford, Luke Barrett represents a new standard in comprehensive treatment planning and minimally invasive solutions. For more information please contact 01923 251 557 or visit www.lukebarnetti.com

Tri-Sok now available in a cost effective 7gr Tube!

Tri-Sok is used for the treatment, after development, of oedema. Inflammation in an extraction socket, Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic. It contains Chlorotetacycline, a broad-spectrum antibiotic that acts against infective organisms.

Aspirin exerts analgesic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

Unlock the secrets of a superior whitening service at the Clinical Innovations Conference and Annenberg Lecture 2009

The Clinical Innovations Conference and Annenberg Lecture 2009 (at the Royal College of Physicians, Regent’s Park, London on the 15th (Annenberg Lecture) and 16th of May) gives dental professionals an unmissable opportunity to explore the very latest developments in aesthetic and restorative dentistry.

Using informative lectures and hands-on sessions, a wide array of respected experts will be there to share their insights, including such worldwide speakers as Dr Sia Mirfendeskeri, His lecture ‘Keys steps to a successful whitening centre’ will help delegates provide a truly excellent service to patients, covering:
- Selecting the right bleaching method
- Concentration issues
- Chemical activation
- Restorative implications
- New regulations
- Patient communication
- Marketing and PR
- Competition

The Annenberg Lecture will be given on the Friday by Professor Sitzin Richicho and Dr Devarath Schwartz-Adar. Saturday’s Conference is set to be the best yet with speakers including Professor Christoph Barghi, Dr Chris Orr, Professor Edward Lynch, Professor Liviu Steier, Dr Andrew Dawood, Dr Wyman Chan, Professor Luca Gachetti and many more. Call today and ensure you don’t miss out on this great chance to learn from the world’s best.

For more information, and to ensure your place, call 020 7440 8990 or email info@smile-on.com www.clinicalinnovations.co.uk

Outstanding Quality At A Great Price With Nuview At The Dentistry Show

Nuview introduced delegates to world-class magnification solutions at the Dentistry Show 2009, including the OPMI Pico dental microscope and the Eyemag Smart loupe. Available at a great price and useful in general and specialist dentistry, these devices made a real impression on visitors to the stand.

Carl Zeiss designed the OPMI Pico microscope exclusively for use in dentistry, and delegates were keen to take a closer look. The excellent quality of image and the ergonomic yet robust design helps to make the OPMI Pico a leading choice in dental microscopy. Minute details of the treatment site are easily recognised, and the integrated light source lets the user enjoy conditions approaching those of daylight.

The Eyemag loupe represents a cost-effective, comfortable and high quality product, with a range of working distances to promote ideal posture, and a flip-up function for great dentist to patient communications.

Nuview was happy to discuss its cladding service, which is second to none and gives all their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quick and easy to ensure an accurate, long lasting restorative and help you to ‘get it right first time’.

Preparation with Miss Hi-D® diamond burs “Diamonds are a Dentist’s Best Friend”

Impression Taking with Mr Aqsaal Ultra “Always makes a Great Impression”

The new stand drew real interest from dental professionals who shared DENTSPLY’s dedication to the very best standard of dentistry. DENTSPLY remains strongly committed to supplying innovative products of the highest quality at an affordable price, to support dental professionals in their provision of optimum care and excellent results.

For more information please call 01932 855 422 or visit www.dentsply.co.uk

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otaga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical mentor network, the 1st of its kind to be established in the North West. As a result it attracts a number of recognised guest speakers such as Dr Philip Freiberger, ITI Fellow and past president of the ADI and Mr Koray Feran from

Extraordinary Quality from DENTSPLY at the Dentistry Show 2009

DENTSPLY was keen to show how superior consumables can help dental professionals provide an excellent service to patients at the Dentistry Show 2009 (15th and 16th March at the Birmingham NEC).

Delegates were inspired by the focus of the DENTSPLY stand on the Indirect Restoraion procedure. Crown and bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from
the London Centre for Implant and Aesthetic Dentistry.

Dr Cemal Ucer, Clinical Programme lead at Salford, commented “Until recently, formal education in implantology has lagged behind scientific advancements on the field. What makes the course at Salford unique is that we have an extensive clinical mentor network, meaning that students are supported throughout their studies at the level to suit their prior experience.”

Lloyd Pope presented Pierre with a £250 gift certificate on behalf of General Medical who sponsor the prize.

Pierre commented, “I’m extremely pleased to win this award, it’s always nice to be rewarded for hard work. I initially decided to come to Salford, because Cemal is a highly respected Oral Maxillofacial Surgeon. The quality of guest speakers is excellent and I find having a clinical mentor a very useful element of the programme.”

To find out more about the PG Dip/MSc Dental Implantology course contact Gillian Crofts, Academic Lead, via gcrofts@salford.ac.uk

For further information about General Medical telephone 01380 734990, visit www.generalmedical.co.uk or email info@generalmedical.co.uk

New Curasept Mouthwash with Anti-Discolouration System!

The new Curasept mouthwash, available from the Dental Directory has all the efficacy of a CHX product, but now with clinically proven patient compliance!

Patients prefer using a chlorhexidine mouthwash with ADS (anti discolouration system) rather than chlorhexidine mouthwashes without - its official!

The extensive Curaprox range is also available from The Dental Directory and includes a daily CHX rinse, a daily CHX toothpaste, a higher intensity rinse for specific short term use, and the welcome return of the 0.5% gel for topical application of chlorhexidine.

“More time and less mess”

Melanie Prebble, a dental hygienist and team member of Senova Dental Studios recommended the benefits of Waterpik® Dental Water Jet to her patients.

Open the Door To Your Dream Practice With Genus

When it comes to Design and Build, Genus provides a world-class service. The team uses the latest Computer Aided Design and 3D rendering software to produce designs that meet the dentist’s unique vision and comply with the latest industry guidelines.

Genus understands that location has a huge bearing on success, and will aid the dentist in finding the most suitable site. When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half ensuring that everything runs smoothly within the agreed budget and timeline. The dentist always feels in control because there is always a clear and accountable point of contact.

No practice is ever complete without the latest equipment, because Genus are not tied to any particular manufacturer, if required, they can give dentists impartial advice to help ensure that practices are fitted with precisely the right equipment for their needs.

For more information please call Genus on 01582 840044 or email info@genusgroup.co.uk, www.genusinteriors.co.uk

Scientific Dental Solutions!

Nobel Biocare, the world leader in innovative restorative and esthetic dental solutions, has an outstanding range of effective, easy to use implants that are scientifically proven to be safe and effective.

Offering high initial stability for all indications and in cases of immediate extraction & implant placement, NobelReplace™ Tapered is the most widely used implant in the world. Completely colour coded and excellent for narrow spaces between remaining roots, NobelReplace™ offers:
• Step-by-step drilling protocol for predictable surgical procedures
• Internal tri-annel connection for accurate and secure prosthetic restorations
• Implant design that mimics the shape of a natural tooth

Denti-Brush® Interproximal Introductory Offer

Denti-Brush Interproximal brushes are an extremely effective way of removing plaque and food particles from interdental spaces.

The main benefit is that each brush has a flexible handle and brush to increase control and access to difficult areas. Unlike other brushes, the tip has been specially designed with a unique pivot technology enabling it to bend easily and minimise potential breakage.

Denti-Brush is available in 4 sizes in packs of 6 brushes. Each brush has its own hygienic protective cap making it ideal for travel as well as at home.

To find out more about the promotions we are running this month or to receive further information and samples please call: +44 (0) 1895 452 921

Smile-on Enriches Knowledge At The Dentistry Show 2009

Attendees at the Dentistry Show (NEC Birmingham, 15th-14th of March 2009) saw how new approaches to learning benefit the entire dental team.

Dentistry is becoming more competitive, and patients will only accept the very best. What’s more, new guidelines demand continual improvement.

Smile-on provides fresh and exciting methods of developing the skills and knowledge required, in formats that are compatible with even the busiest schedules.

Smile-on showed delegates what was possible with the latest technology. By courses and products, easily integrated into the working day, including the three-module programme Communication in Dentistry: Stories from the Practice. This lets dental professionals open clear lines of communication with patients, laboratories and peers, reducing complaints and the risk of legal action by promoting clinical efficiency and patient satisfaction.

Delegates were introduced to digital imaging and the considerable benefits of using cameras safely and effectively with the Clinical Photography Course, available on CD-ROM or online. Other vital solutions discussed included DNSTART and Clinical Governance Progress Management, helping practices satisfy industry requirements and ensuring that Smile-on continues to be recognised as the provider of pathways to excellence.
