Minimally Invasive Aesthetic Dentistry

Many modern dental procedures require specialised hi-tech equipment and none excel in performing the delicate techniques of minimally invasive and adhesive dentistry better than the PrepStart neat and compact air abrasion unit.

Versatility is assured, as Evident’s PrepStart is ideal for use in a variety of procedures including cavity preparation, bonding, repairing, restoring and the detection and treatment of fissure lesions, with great patient acceptance.

The ultra lightweight handpiece allows you to achieve a level of accuracy and speed unmatched by conventional procedures. PrepStart does not come into direct contact with the tooth, eliminating noise, vibration and the need for anaesthetic, resulting in minimal discomfort for the patient.

Available with a special mini ultra quiet compressor if required, PrepStart air abrasion not only minimises the loss of tooth tissue but effectively adds confidence to adhesive procedures. Evident are offering a FREE Restorative Kit worth £155 with every purchase.

Call Evident today on FreeCall 0500 521111 or visit Evident’s website at www.evident.co.uk to arrange a no-obligation demonstration.

The Grace X5 dental chair is a quality product at an affordable price.

This comfortable chair has a hydraulic elevation system. The standard package at £6,795 (excluding installation) includes options, real leather (in a wide range of colours), massage function, led curing light, built in scaler (piezo or stack), fibre optic on 2 lines, air motor, and small x-ray viewer, 2 memory positioned, and movement safety interrupts, as well as a large delivery table. The deluxe package for £7,849 includes the Grace multimedia camera system, an assistant’s chair and automatic infra red cup filler.

We can arrange for installation for you and an aftercare agreement saving them valuable time. It has a standard field of view of 8 x 8cm while its special EDS shot enables a view of 14 x 8cm.

The Orthoralix 8500 is a panoramic digital extraoral X-ray unit that provides superior mechanical performance while producing the best diagnostic image quality. The 9200 version is the best dental panoramic and cephalometric system for film-based or direct digital radiology.

DentalEZ

Since pioneering sit-down dentistry in the 1950’s DentalEZ has been committed to improving working efficiency and to enhance practices.

Our surgery equipment choices are built around our renowned dental chairs. Our J/V Generation is an example, which offers exclusive seat tilt movement, helping maintain proper spinal alignment to reduce stress on discs and soft tissue around the patient’s spine.

All of our chairs have thin narrow backs to provide clear sight lines and direct access to the oral cavity.

We then have a choice of Delivery units to complement, whether over-patient, rear mount or mobile.

DentalEZ range includes seating, lighting, suction and handpieces.

Imagine With KaVo

One of the leading dental manufacturers, KaVo prides itself on providing ergonomically designed and innovative high quality products. KaVo is dedicated to achieving dental excellence in all its product ranges, including superior handpieces.

KaVo offers its customers imaging solutions of exceptional quality such as the GXCB-500, the latest in Cone Beam 3D dental imaging. The unique sensor design allows staff to switch effortlessly from 3D to 2D imaging.
planning and minimally invasive solutions. For more information please contact 01925 251 557 or visit www.lukebarnett.com

Tri-Sok now available in a cost effective 7gr Tube!

Tri-Sok is used for the treatment, after development, of inflammation in an extraction socket. Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic. It contains Chlortetracycline, a broad-spectrum antibiotic that acts against infective organisms.

Aspirin exerts analgesic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

Unlock the secrets of a superior whitening service at the Clinical Innovations Conference and Annenberg Lecture 2009

The Clinical Innovations Conference and Annenberg Lecture 2009 (at the Royal College of Physicians, Regent’s Park, London on the 15th (Annenberg Lecture) and 16th of May) gives dental professionals an excellent opportunity to explore the very latest developments in aesthetic and restorative dentistry. Using informative lectures and hands-on sessions, a wide array of respected experts will share their insights, including such worldwide speakers as Dr Sia Mirfendereski. His lecture ‘Keys to a successful whitening centre’ will help delegates provide a truly excellent service to patients, covering:

- The right bleeding method
- Concentration issues
- Chemical activation
- Restorative implications
- New regulations
- Patient communication
- Marketing and PR
- Competition

The Annenberg Lecture will be given on the Friday by Professor Sitzan Bichacho and Dr Devarath Schwartz-Arad; Saturday’s Conference is set to be the best yet with speakers including Professor Barghi, Dr Chris Orr, Professor Edward Lynch, Professor Liviu Steier, Dr Andrew Darwood, Dr Wyman Chan, Professor Luca Gachetti and many more. Call today and ensure that you don’t miss out on this great chance to learn from the world’s best.

For more information, and to ensure your place, call 020 7400 8899 or email info@smile.co.uk, www.clinicalinnovations.co.uk

Outstanding Quality At A Great Price With Nuview At The Dentistry Show

Nuview introduced delegates to world-class magnification solutions at the Dentistry Show 2009, including the OPMI Pico dental microscope and the EyeMag Smart loupes. Available at a great price and useful in general and specialist dentistry, these devices made a real impression on visitors to the stand.

Carl Zeiss designed the OPMI Pico microscope exclusively for use in dentistry, and delegates were keen to take a closer look. The excellent quality of image and the ergonomic yet robust design helps to make the OPMI Pico a leading choice in dental microscopy. Minute details of the treatment site are easily recognised, and the integrated light source lets the user enjoy conditions approaching those of daylight.

The EyeMag loupe represents a cost-effective, comfortable and high quality product, with a range of working distances to promote ideal posture, and a flip-up function for great dentist to patient communications.

Nuview was happy to discuss its efficient service, which is second to none and gives all their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quicker and easier to ensure an accurate, long lasting restoration and help you to ‘get it right first time’.

Preparation with Miss Hi-D®, diamond burs “Diamonds are a Dentist’s Best Friend”

Impression Taking with Mr Aquasil Ultra “Always makes a Great Impression”

Temporary or Provisional Restorations with Mrs IntegrityTM “Looks that Last”

Restorative Hand Instruments with Mr Artio™ “Tools for a True Artist”

Permanent Cementation with Mr Artio™ “Strength in Simplicity”

The new stand drew real interest from dental professionals who shared DENTSPLY’s dedication to the very best standard of dental care. DENTSPLY remains strongly committed to supplying innovative products of the highest quality at an affordable price, to support dental professionals in their provision of optimum care and excellent results.

For more information please call 0191 355 422 or visit www.dentsply.co.uk

Extraordinary Quality from DENTSPLY at the Dentistry Show 2009

DENTSPLY was keen to show how superior consumers can help dental professionals provide an excellent service to patients at the Dentistry Show 2009 (13th and 14th March at the Birmingham NEC).

Delegates were inspired by the focus of the DENTSPLY stand on the Indirect Restorative procedure. Crown and bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quicker and easier to ensure an accurate, long lasting restoration and help you to ‘get it right first time’.

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical masters network, the 1st of its kind to be established in the North West. As a result it attracts a number of recognised guest speakers such as Dr Philip Freiberger, ITI Fellow and past president of the ADI and Mr Koray Feron from...
the London Centre for Implant and Aesthetic Dentistry.

Dr Cemal Ucer, Clinical Programme lead at Salford, commented “Until recently, formal education in implantology has lagged behind scientific advancements on the field. What makes the course at Salford unique is that we have an extensive clinical mentor network, meaning that students are supported outside of their studies at the level to suit their prior experience.”

Lloyd Pope presented Pierre with a £250 gift certificate on behalf of General Medical who sponsor the prize.

Pierre commented, “I’m extremely pleased to win this award, it’s always nice to be rewarded for hard work. I initially decided to come to Salford, because Cemal is a highly respected Oral Maxillofacial Surgeon. The quality of guest speakers is excellent and I find having a clinical mentor a very useful element of the programme.”

To find out more about the PG Dip/MSc Dental Implantology course contact Gillian Crofts, Academic Lead, via g.crofts@salford.ac.uk

For further information about General Medical telephone 01580 754998, visit www.generalmedical.co.uk or email info@generalmedical.co.uk

New Curasert Mouthwash with Anti Discolouration System!

The new Curasert mouthwash, available from the Dental Directory has all the efficacy of a CHX product, but now with clinically proven patient compliance!

Patients prefer using a chlorhexidine mouthwash with ADS (anti discolouration system) rather than chlorhexidine mouthwashes without – its official!

The extensive Curaprox range is also available from The Dental Directory and includes a daily CHX rinse, a daily CHX toothpaste, a higher intensity rinse for specific short term use, and the welcome return of the 0.5% gel for topical application of chlorhexidine.

“More time and less mess”

Melonie Prebble, a dental hygienist and team member of Senova Dental Studios recommends the benefits of Waterpik® Dental Water Jet to her patients.

“Convenient and cordless, the massaging sensation makes the Waterpik® a great addition for anyone looking for perfect oral hygiene. It’s gentle and simple to flush out around braces, bridges, implants or even deep pockets.

Along with your recommended oral hygiene regime, the Waterpik® helps prevent gum inflammation and your mouth feels cleaner and fresher for longer. The Waterpik® is also very mobile so you don’t have to give up that super fresh feeling when you travel. If you have specific periodontal problems the additional advantage of flushing with a medicated rinse is one of the many advantages of adding the Waterpik® to your dental health routine.

For up to the minute prices and to see our latest oral hygiene offers make sure you get a copy of our latest Bigbite oral hygiene catalogue. Call 0800 585 586 or view online www.den-tal-directory.co.uk

Special offer plus a free gift with Diamond Capsules

Open the Door To Your Dream Practice With Genus

When it comes to Design and Build, Genus provides a world-class service. The team uses the latest Computer Aided Design and 3D rendering software to produce designs that meet the dentist’s unique vision and comply with the latest industry guidelines.

Genus understands that location has a huge bearing on success, and will aid the dentist in finding the most suitable site. When construction begins, a dedicated expert will oversee the project on the dentist’s behalf, half ensuring that everything runs smoothly within the agreed budget and timeframe.

The dentist always feels in control because there is always a clear and accountable point of reference.

No practice is ever complete without the latest equipment, because Genus are not tied to any particular manufacturer, if required, they can give dentists impartial advice to help ensure that practices are fitted with precisely the right equipment for their needs.

Any practice that is not fully satisfied with Genus’ services, after its completion, will benefit the entire dental team.

Scientific Dental Solutions!

Nobel Biocare, the world leader in innovative restorative and esthetic dental solutions, has an outstanding range of effective, easy to use implants that are scientifically proven to be safe and effective.

Offering high initial stability for all indications and in cases of immediate extraction & implant placement, NobelReplace® Titan is the most widely used implant in the world. Completely colour coded and excellent for narrow spaces between remaining roots, NobelReplace® Titan offers:
• Step-by-step drilling protocol for predictable surgical procedures
• Internal tri-axial connection for accurate and secure prosthetic restorations
• Implant design that mimics the shape of a natural tooth

• Prosthetic flexibility with standard and individualised zirconia and titanium abutments
• Individualised implant-level partial and full-arch bridges in zirconia and titanium

The specialists at Nobel Biocare have created their vast range of unique Tapered implants to provide an easy to use solution for a completely natural effect and to offer dental professionals reliability and quality every time.

Smile-on Enriches Knowledge At The Dentistry Show 2009

Attendees at the Dentistry Show (NEC Birmingham, 13th-14th of March 2009) saw how new approaches to learning benefit the entire dental team.

Dentistry is becoming more competitive, and patients will only accept the very best. What’s more, new guidelines demand continual improvement. Smile-on provides fresh and exciting methods of developing the skills and knowledge required, in formats that are compatible with even the busiest schedules.

Smile-on showed delegates what was possible with the latest technology. All courses and products, easily integrated into the working day, included the three-module programme Communication in Dentistry: Stories from the Practice. This lets dental professionals open clear lines of communication with patients, laboratories and peers, reducing complaints and the risk of legal action by promoting clinical efficiency and patient satisfaction.

Delegates were introduced to digital imaging and the considerable benefits of using cameras safely and effectively with the Clinical Photography Course, available via CD-ROM or online. Other vital solutions discussed included DNSTART and Clinical Governance Progress Management, helping practices satisfy industry requirements and ensuring that Smile-on continues to be recognised as the provider of pathways to excellence.

For more information call 020 7400 9989 or email info@smile-on.com
