FOR MORE INFORMATION please contact Suzanne Towers on 0161 830 7300 , suzy@bacd.com.

DARE (Dental Advancement Refinement and Education) is designed to provide practitioners looking to develop their skills in a friendly, relaxed environment. The centre's experienced tutors include Dr Buckle, a world-renowned expert in the field of aesthetic dentistry, will be showing members how to realise optimal dentistry from an aesthetic, functional, biological and structural perspective.

Bupa is synonymous with high quality healthcare and we look to our partners to help us deliver the high standards our partners have come to expect. As a result, we have created a new dental implant programme, unique to Nobel Biocare.

The programme will incorporate the following modules:

**Clinical Leadership and Service Delivery**

This module will cover the core leadership domains outlined in the British Dental Association’s Competency Framework (2009), namely demonstrating personal qualities, working with others, managing services, improving services and setting direction.

**Clinical Excellence**

This module will provide a comprehensive overview of the diagnosis, management and treatment planning of patients with the scope of NHS general dental practice.

**Improving Oral Health**

This module covers current concepts in the aetiology and management of cavities and periodontal disease, as well as behaviour management and an understanding of patient psychology. All will be considered as part of the team approach to improving oral health.

For further information on these courses, please contact Suzanne Towers on 0151 830 7300, or by email at suzy@bacd.com.

**EXHIBITION**

**BACD & AADC - BACD and AADC take London**

As an organisation committed to excellence in cosmetic dentistry and education, the British Academy of Cosmetic Dentistry (BACD) is pleased to announce a unique opportunity for UK dentists. This event will be held in London on 17th and 18th September 2010 and is an extension of a similar event that took place last year. The aim of the conference is to promote excellence in cosmetic dentistry and to present the latest treatments and advanced techniques to UK dentists, through a series of lectures and interactive sessions from some of the world’s leading experts in the field.

**High quality customer service excellence within the NHS**

The UCL Eastman CPD launches new programme

"Developing Leadership and Clinical Excellence within the NHS"

The UCL Eastman Dental Institute, in the support of the Chief Dental Officer and the Department of Health, is excited to announce the Autumn 2010 launch of a new programme bringing together leadership and clinical excellence.

The programme will incorporate the following modules:

**Clinical Leadership and Service Delivery**

This module will cover the core leadership domains outlined in the British Dental Association's Competency Framework (2009), namely demonstrating personal qualities, working with others, managing services, improving services and setting direction.

**Clinical Excellence**

This module will provide a comprehensive overview of the diagnosis, management and treatment planning of patients with the scope of NHS general dental practice.

**Improving Oral Health**

This module covers current concepts in the aetiology and management of cavities and periodontal disease, as well as behaviour management and an understanding of patient psychology. All will be considered as part of the team approach to improving oral health.

For further information on this programme, please contact Clark Dental on 020 7985 1234 or 1261 218 999.

**protocols for patient treatment**

The British Academy of Cosmetic Dentistry is committed to promoting excellence in the provision of cosmetic dental treatment.

To help members achieve the highest levels of patient satisfaction with their treatments, The BACD provides a series of protocols and consent forms to ensure a methodological approach to treatment planning.

By using the BACD consent forms, tailored to each individual case, clinicians can make sure the patient is fully informed of all the treatment options and rates and the system is widely used for patients in need of extractions.

Additional consent forms will need to be used or incorporated for areas such as Sedation, Tooth Whitening and Periodontal Surgery. By fully documenting the treatment process, any patient complaint becomes much less likely.

The BACD: committed to excellence in cosmetic dentistry.

For more information on this programme, please contact Eric London on 020 7621 6146 or email eric@bacd.com.

**THE ALI ON-4® CONCEPT**

The Ali on-4® concept enables the practitioner to avoid sinus grafting and facilitates immediate loading to the final prosthesis. Lower costs and shortened treatment time inevitably translate to higher patient acceptance rates and the system is widely used for patients in need of extractions.

The Ali on-4® concept is a proven, yet cost effective immediate loading technique, unique to Nobel Biocare.

For more information contact Nobel Biocare on 01885 452 912, or visit www.nobelbiocare.com

**A Dental Implant Course That Pays for Itself!**

Special Offer: Live Training on Real Patients

Innovative, effective and cost efficient, it is necessary to access the best courses and teachers. The Basic Dental Implant Course provides GPPIs with the practical training to learn with Nobel Biocare Implant Ltd founded, Nambé Zafra.

To attend this course, no implant experience is required as it is taught at beginners level.

The main aims of the course are for delegates:

- To be able to treatment plan and place dental implants confidently and safely in your own patients
- To understand how to construct prostheses to fit onto your implants
- To have a broad knowledge of complex treatments and new trends in implantology

Main lectures and Hands On models will take place from Wednesday 30th June then change to Tuesday 4th July 2010. Included in London, UK. This is followed by a week's residency in Brazil taking place between Monday 27th August and Friday 3rd September.

Most dentists who complete this course have paid for their course fees within just one year!

For more information call 01272 469 030 or email info@implanttours.com

**Create Beautiful Restorations with GC’s Gradia Direct Treatment**

The GC Gradia hands-on course includes flights to London, Heathrow transfers, travel to the hotel and training centre, 1 night hotel accommodation, all meals, together with all materials, models and equipment.

For full details of the course, which are contained within GC’s Training Calendar Booklet or for further information please contact GC UK on 01908 219 999.
