Step by step treatment planning

The entire process of treatment planning for aesthetic dentistry is to be showcased at this year’s Clinical Innovations Conference. The conference, which is in its sixth year, takes place on 15-16 May at the Royal College of Physicians, in Regent’s Park, London.

The much sought after speaker, Dr Ian Buckle, will be lecturing on ‘Aesthetic Dentistry From Start To Finish’. The lecture will cover the entire process of treatment planning to ensure that patients have a great experience, with excellent results. Dr Buckle will lead delegates through a step-by-step guide to treatment planning, through a comprehensive and straightforward ‘treatment planning matrix’.

Dr Buckle will demonstrate in his lecture how accurate and complete diagnosis, treatment planning and case presentation requires a high level of clinical expertise and customer care. The lecture will show how this ‘treatment planning matrix’ effectively incorporates the whole field of modern aesthetic dentistry, including a study of occlusion to promote optimum patient wellbeing. Treatment options will integrate restorative and orthodontic treatments, so that dentist and patient can find the most suitable and effective solution.

Learning resources provider, Smile-on, has joined forces with Dental Protection Limited and is launching three new modules for its Communication in Dentistry programme.

Dr Buckle runs a private practice with Dr Liam McGrath at Buckle & McGrath Dental Practice in Thornton Hough, Wirral, which provides patients with comprehensive aesthetic and implant treatment. The team provides a concierge service to patients, and uses the latest technology to give patients a ‘smile trial’ to ensure that they are always delighted with the results of their treatment. Dr Buckle is a member of several prestigious organisations, bodies, including the British Academy of Cosmetic Dentistry, the British Dental Association and the Association of Dental Implantology.

Internationally renowned, Dr Buckle is also a member of the American Academy of Cosmetic Dentistry and was the first international faculty member of the Dawson Academy – founded to promote high quality and predictable dentistry with a special focus on occlusion and the condition of the temporomandibular joint.

As senior clinical instructor for the New York University Rosenthal Institute (where he completed his MSc in Aesthetic Dentistry), Dr Buckle instructs dental professionals in London, New York and Palm Beach.

A spokesman for the CIC said: ‘This is an unmissable chance to discover the key to excellence in aesthetic dental treatment.

Even after so many years of running the site, there are always differing topics that people find to raise, discuss and have diametrically opposite views. One example was when one colleague, well past retirement age, posted some clinical photos showing how he had helped an elderly patient, and how satisfying it was to do so. He was pleased he hadn’t ceased work. Another thread was started by a dentist of a similar age, who had been to a CPD lecture about the oncoming changes in cross-infection control guidelines, and was pleased he did not have to deal with all the issues thrown up by the presentation just heard. We probably all know colleagues who have retired early, and similarly there are some dentists who keep on working through their seventies and even into their eighties.

Other topics which might interest the Tribune reader: How much do you pay your therapist? How do you get your dental chair vinyl repaired, as well as personal development plans.

Two particularly entertaining topics attracted many replies. The first post concerned a frustrated dentist who was ready to ‘punch a patient’. He mentioned the two phrases that patients use that drive us all mad: ‘I hate needles’ and ‘with those prices, I must be paying for your next holiday’. This led to replies on how to deal with them with some hated, clichéd phrases.

The second topic started with a post about great names. A recent BBC article talked about a dentist in the USA called Les Plack. In response, dentists recalled Mr Payne, and one wag told us about his friend Andrew Peacock whose name was often shortened to other versions!

Another favourite dentist name was ‘Phil Hollows’, and in addition, one poster named his friend Christopher Peter Bacon, known for short as Chris P Bacon.

Dr Anthony V Jacobs started the GDPUK emailing list in 1997, and the group membership is now just under 2,000. The list is read in all corners of the UK dental profession as well as by laboratories, and the trade and dental industry. Qualifying in London in 1979, Dr Jacobs is now in partnership with Dr Stephen Lazarus, practicing at 406 Dental in Manchester. He enjoys his profession, and takes pride in providing both simple and complex gentle dentistry, as well as caring for families in a relaxed atmosphere. Dr Jacobs has a long-term commitment to continuing professional development, both for himself, and for the profession in general through his mailing list. He has been a member of the British Dental Association (BDA) since 1975, and is presently chairman of the Bury and Rochdale Oral Health Advisory Group, as well as vice chair of the Bury and Rochdale Local Dental Committee (LDC). Dr Jacobs also sits on the committee and helps to organise the annual conference of Local Dental Committees.
