Handpiece Express, the servicing and repair service from The Dental Directory, can ensure your equipment is working at its best. This is why it is so important to take care of your handpieces and motors. Regular servicing will help prevent any potential issues that may arise, ensuring that your equipment is always ready to use.

Quality Endodontic Distributors Ltd are the UK distributors of the evolutionary Morita endodontic range including the Tri Auto ZX, the only endodontic handpiece with built in apex locator.

The Tri Auto ZX has three automatic functions that significantly increase the accuracy and safety of root canal treatment. It offers the following innovative features:

- Automatic start & stop, whereby the file starts rotating automatically when it is inserted in the canal and stops when it is taken out.
- Auto torque reverse, which means that when the torque load on the file exceeds the set limit the file automatically stops and then reverses its rotation.
- Automatic functions that significantly increase the accuracy and safety of root canal treatment.

Contact your local QED Salesperson for further information.

For household repairs, call Handpiece Express today for the very best service, with repairs carried out on-behalf of The Dental Directory by MI-Tec Ltd.

**The Dental Directory gives an Express Repair!**

Handpiece Express, the servicing and repair service from The Dental Directory, can ensure your handpieces and motors are serviceable. So confident of this, if the work is not completed within 24 hours of your approval of the quotation you will not be charged.*

Regularly servicing handpieces, motors, couplings and scalers will prolong the life of your equipment. Inevitably handpieces will always fail at the most inconvenient times causing maximum disruption. Planned maintenance and scheduled servicing will prevent this. Service also ensures reduced running costs, smoother operation and efficiency which leads ultimately to improved treatment standards and comfort for patients.

If you are looking for an economic, fast connecting, lightweight, functional turbine look no further than EOLIA from Bien-Air.

For further information please contact Bien-Air on 01590 711 955 or visit www.bienair.com

**Quality Endodontic Distributors Ltd**

---

**VDW Silver Motor Dedicated for endodontics**

Working with the new EOLIA turbine from Bien-Air, you will discover a state-of-the-art turbine offering renowned Swiss quality at a surprisingly affordable price. Perfectly balanced with smooth lines, the EOLIA turbine is lightweight (38g) and comfortable to hold thanks to its ergonomic design. This powerful turbine offers speeds up to 15,000 rpm and a fast connection to 2, 3 or 4 line hoses due to the B type bayonet coupling. Available in 2/3 hole or 4 hole versions EOLIA features a built in water non-return system to prevent contamination from infected water.

Optimum cooling in guaranteed with EOLIA due to the single water spray that is separate from the air port. With a large push button bur release mechanism, changing your burs is quick and simple.

**Quality Endodontic Distributors Ltd**

---

**Perfectly Balanced Economy from Bien-Air**

At Handpiece Express, we service and repair all types of handpieces, motors, couplings and sonic scalers from most of the leading manufacturers.

With repairs starting from as little as £19.50, service packages starting from £35, and our “serviced and dispatched in 24 hours’ guarantee”, we have gained a reputation for value, workmanship and service.

Battery and mains operated, it features an integrated battery which enables the motor to be operated whilst simultaneously being recharged. The VDW Silver Motor is specifically designed for endodontic applications. It incorporates a range of features designed to make the operator’s life easier.

---

**Multiflex couplings**

Made from durable stainless steel and featuring small head, the 430 series aids manoeuvrability and overall access, without sacrificing torque.

Star Dental is part of the DentalEZ Group of companies.

---

**Star Dental High Speed Handpieces**

Star Dental offers the Solara (shown) and 450 Series for high-speed handpiece needs.

The Solara Series features a revolutionary elliptical shape and scalloped handle which creates a solid, tactile feel. The remarkable strength and corrosion resistance inherent in titanium offers years of heat sterilization without the damaging effects associated with cosmetic plated metal coatings.

The patented turbine with ceramic ball bearings means no oiling and no residual lubricant expelled into the oral cavity whilst ceramics means longer lasting and less friction to reduce heat generated.

---

**GENTLEmini Compact and Powerful!**

The leading manufacturer of high quality, innovative handpieces, offers a flexible range of precision turbines and handpieces to meet all your needs and budgetary requirements.

The KaVo GENTLEmini is compact and powerful with a 17 W output whilst remaining quiet and vibration-free for pleasant and relaxed work.

Everything is optimized on KaVo GENTLEmini for superior visibility, even when access is restricted. Unhindered work is possible with a large and larger 4 port head as well as models to fit Multiflex couplings.

NEW HotShot™ Cordless Back-
fill Obturation Delivery Device

QED are pleased to an-
nounce that they have become the sole UK distributors for the NEW HotShot™ Cordless Back-
fill Obturation Delivery Device. The NEW HotShot™ enables fast and easy delivery of warm obturation material for the en-
donotic backfill technique, fa-
cilitating rapid obturation of ever the most difficult root canals more completely, in less time, and with less patient dis-
comfort.

The HotShot™ is cordless, compact and easy to handle. It features variable temperature settings which allow Practition-
iers to control the flow charac-
teristics of the material; a rechargeable lithium ion bat-
ery which will support hours of use from a single charge; and a choice of needle size 25g and 25g with a 360° swivel for im-
proved access.

tact your local QED Salesper-
sion.

Dental Services Direct are always on hand

In addition to a vast range of large equipment, Dental Ser-
vice Direct is pleased to offer their customers a wide selection of handpieces at extremely com-
petitive prices which are available from most major manu-
facturers including; Bien Air, Star Dental, KaVo and NSK, as well as W & H. This choice, com-
bined with an exceptional level of product knowledge and serv-
vice, make Dental Services Di-
rect the first choice for hand-
pieces.

Dealing with Dental Ser-
vice Direct means customers are able to take advantage of the team’s product knowledge, something not always available when buying over the phone from a tele-sales operator. An-
other huge benefit of buying from Dental Services Direct is access to fully trained engi-
ners who are able to set the correct pressure, maximising the use and prolonging the life of a new handpiece.

For further information on handpieces or any other exciting new products simply contact Dental Services Direct on 08452 608520.

Dentomycin: the first choice addictive treatment for chronic adult periodontitis

Dentomycin is an effective addictive treatment which complements Scaling and Root Planing when first treating chronic adult periodontitis.

Dentomycin simply combats the broad range of bacteria as-
associated with periodontal dis-
ease reaching areas that maybe unobtainable with instruments alone, while reducing inflam-
mation improving patient com-
fort.

Dentomycin includes the ac-
tive ingredient Minocycline, and when applied 3 or 4 times, with 14 days between each ap-
lication, is proven to reduce key pathogens1. The pre-filled applicator allows direct appli-
cation to the pocket base, and the combination of Dentomycin with scaling and root planing reduces pocket depths by up to 42% over a 12-week period2.

Cost effective and easy to use, Dentomycin also offers im-
poved patient satisfaction.

tative or telephone 020 74128000.
Giving The Profession An Advantage

Products sold in practices are often demonstrated to patients to ensure they’re being used correctly. In recognition and appreciation of the time and effort this entails, P&G will include a free educational DVD and a range of replacement heads with every Professional Care and Triumph power product sold. This extra value pack will only be sold to dental practices whenever you need a helping hand, Members will also combine their services when the need arises, to present you with comprehensive solutions.

For more information on the ASPD please call 0800 458 6773 or visit www.aspd.co.uk

ChairSafe- the new innovative disinfectant foam cleaner from Kemdent

ChairSafe is the new disinfectant foam cleaner from the Kemdent range of cross infec- tion control products. It is available in 250ml bottles and 1L re- fill containers. ChairSafe foam is specially formulated to clean sensitive surfaces and equip- ment, including the leather and synthetic facings of dental chairs. As soon as you try it you will recognise the real benefit of this product. The foam is non- drip. It remains exactly where you apply it, making it ideal for the angles and contours of a dental chair.

ChairSafe is an aerosol and alcohol free foam that is suitable, not only for alcohol sensi- tive materials such as leather, acrylic glass and vinyl but also hard surfaces, inventory and medical products. It is effective against HBV/HIV/HCV/BVD/ vari- cinea, bacteriological and fun- gal microorganisms within one minute of application.

For further information on special offers or to place or- ders call Jackie or Helen on 01793 770256 or visit our web- site www.kemdentrade.co.uk.

Practice Plan cycle, climb, run and renovate.

In November 2008, a team of nine Practice Plan volunteers packed their overalls and rolled up their sleeves to renovate. The first choice for use with the stylish and cost-effective Hogies EyeGuards, Bosskin infection control offers two types of convenient protection:

- Bosskin Wet Wipes have a 60-second bactericidal effect, and also combat Adenovirus and enveloped viruses including Hepatitis B, Hepatitis C and HIV.
- Bosskin Foam takes effect against bacteria and fungi within just 10 minutes, and Hepatitis B and HIV within 5 minutes*. Supplied in a unique, biodegradable 50ml dispenser, application is easy: you just spray and clean.

Exclusive to Blackwell Sup- plies, the Bosskin range pro- vides fast, reliable and non- damaging disinfection for your Hogies EyeGuards.

For more information please call 0870-2421850.

Dental Air – Making Staff And Patient Wellbeing A Priority

Enjoy the benefits of a com- pressed air system that will never let you down with Dental Air. By entering into a new rela- tionship with this leading com- pany you can make sure that your compressed air is clean, dry and free of infective mate- rial – protecting the wellbeing of your patients.

If your practice still uses a last-generation oil-based com- pressor, then you need to be aware of the potential hazards involved. Without regular maintenance, this equipment can start to produce lethal bac- teria that can then be passed on to patients via air-powered insti- ments.

With a great reputation for putting customers first, Dental Air will visit any UK mainland practice and carry out a full ex- amination of compressors. With comprehensive knowledge of all new and existing industry re- quirements, Dental Air pro- vides non-obligation advice and supplies cutting edge oil-free piston and scroll compressors, to help you meet your responsi- bilities.

Call Dental Air on FREEPHONE 0800 5427755 and ask for a FREE Practice Manager’s Guide, or visit www.dentalair.co.uk

Practice Plan cycle, climb, run and renovate.

In November 2008, a team of nine Practice Plan volunteers packed their overalls and scrubbing brushes and trav- elled to Tanzania in Africa, for a trip that will remain imprinted in their minds for a lifetime.

The dental plan provider, who design bespoke dental plans and provide marketing and business support to over 1000 practices across the UK, were about to embark on a life- changing care centre revolu- tion project, although their first goal was to complete the final leg of the now infamous, UK Na- tional Relay.

In order to raise funds for the trip to Tanzania, the ‘National Relay’ was devised, involving a hotline being passed from one dental practice to another with

Prestige

The smart new Tristray by Trident is a rigid and accurate impression tray, producing consistently successful impressions. It removes that dreadful moment of doubt when you fit a new crown and saves time and money spent on adjustments and extra appointments. Tristray’s sturdy metal frame, with unique side tabs controls the tongue and avoids the major cause of post-impression ‘bounce-back’. The tray comes in left and right styles, with the tabs pre-shaped to deflect the tongue. The tray’s thinness and strength in the retro-molar area allows the patient to close easily and comfortably in centric occlusion (maximum intercuspation position). The impression material locks into the side tabs, avoiding the need for adhesive. The tabs can be bent to fit all mouths, including those of patients with a shallow palate, wide buccal plate or mandibular tori. Tristray eliminates the frustration and embarrassment caused by poorly fitting crowns due to distorted impressions.

For more information, phone Prestige Dental on 01274 721567 … Or email Steve@prestige-dental.co.uk

Increasing re-call efficiency

Long and frustrating conversations with patients, asking for clarification of contact details and previous dental history are now a thing of the past thanks to Software of Excellence’s new Computer Telephony Integration (CTI).

Software of Excellence’s new CTI module is an additional module to practice management system EXACT™ Version 10, and offers you the opportunity to dramatically improve practice efficiency by automatically recognising the identification of every incoming telephone call. CTI reduces the amount of unnecessary time spent on the telephone, saving on average 50 seconds per call.

Patients no longer have to explain who they are – your reception staff will know who is calling as soon as the call comes through. By giving more control to your receptionist, Software of Excellence’s new time-saving technology ensures your patients feel valued every time they call your practice.

Find out how Software of Excellence EXACT™ Version 10 and CTI can help develop your practice call 0845 345 5767 today.

Don’t Get Left Behind!

Make sure your finger is on the pulse by becoming a member of the British Academy of Cosmetic Dentistry (BACD).

There are numerous benefits and opportunities for members of the UK’s largest growing Cosmetic Dental Organisation.

For more information, phone Prestige Dental on 01274 721567 … Or email Steve@prestige-dental.co.uk

The Importance of Tax Investigation Cost Protection

Professional Fee Protection understands that Tax Investigation is a very daunting process, with bills often running to several thousands of pounds. Authorised and regulated by the Financial Services Authority, Professional Fee Protection Limited can offer insurance that pays up to £75,000 towards the fees of an accountant or specialist in the event of an investigation, ensuring your practice is protected.

For more information contact PFP on 0845 507 1177 or email info@pfpxp.com, www.pfp-online.com
Upgraded to the healthier side of whitening and stop Gingivitis before it starts

Beverly Hills Formula premium brand dental whitening products have unique combinations of anti bacterial agents, low abrasion and anti-stain polishes to protect and whiten teeth. They gently remove stains from teeth, without harsh abrasives. Tests conducted by the BBC Watchdog programme revealed that Beverly Hills Formula Toothpaste removed over 90% of staining. According to another BBC research study suffer 40–50% of adults across the world from gum disease, making this the most common dental problem. In its bid to prevent gum disease by controlling the amount of plaque that builds up on your teeth, Beverly Hills Formula has formulated Gum Strengthening toothpaste. Regular brushing with their latest whitening toothpaste will help nourish and strengthen gums, fight plaque, re-mineralise and harden tooth enamel for cavity protection and leave your breath smelling fresher.

Rent before you buy...

If you’d like a Digital system but want to try before you buy – you can with Velopex. You can rent any of our Digital systems (complete with software, positioning devices and full instructions) for up to 5 Months – before you buy!

Cariescan

It’s simple: Payments by Standing Order are set up for 5 Months from the date of delivery at £22.60 per month and £108.35 VAT per month for the USB size 1 system. At the end of the period either purchase the system (claiming as a credit the amount of rent paid) or give the system back.

Once you decide to buy, simply call Velopex and they will do the rest – you can purchase through any dealer. Once you’ve placed your order a Velopex Technician will arrive with your system and install it onto your existing computer.

Vizilite Plus

Vizilite Plus™ comprises of a chemiluminescent light source (Vizilite) to improve the identification of lesions and a blue phenothiazine dye (TBlue) to mark those lesions identified by Vizilite. Carried out as part of a general check up, Vizilite Plus™ is a simple, low cost, pain free and 100% sensitive test that can help save lives or give Patients peace of mind.

BioHorizons announces new Occlusion for Implants course

On 26th June, BioHorizons will be running a course on Occlusion for Implants with Dr Christopher Turner at the Cotswold Postgraduate Dental Teaching Centre in Cirencester.

This course will be invaluable, learning and experience for both dentists looking to get into implant dentistry and experienced implant patients, focusing on the importance of creating a balanced occlusion for implant patients, and how to avoid implant failures from occlusal causes.

This day course will be fully practical and will include a demonstration on failed implants due to malocclusion, examining occlusion, taking Denar facebow records, creating customised occlusal guidance and identification of potential occlusal complications.

This invaluable day course is essential learning for all GDP’s doing implants and provides 6 hours verifiable CPD. It is charged at just £500 + VAT.

Spaces on this course are very limited to ensure maximum benefit per delegate, so are sure to book up quickly, please contact BioHorizons NOW on 01544 752 360 or infouk@biohorizons.com to secure your place.

Our dentists clients have reported that treatments with splints has increased well over 50% in the last year and that for many splint therapy has become a real practice builder, particularly in the current economic climate.

To help you learn more about this area of dentistry, 4S8 would like to offer readers £50 deposit off the course ‘Introduction to Occlusal Splints in General Practice’ presented by Dr Helen Harrison

To reserve a place call 4S8 Ltd on 0144 2508 176 or visit www.4s8dentals.com

Rentals are included:

• Innovations in endodontics
• Non-vital bleaching

The course will be directed by Richard Kahen and co-ordinated by Tony Druttman. Lecturers will include Nigel Foot, Maria Lessani and Christine Premdas amongst others.

This innovative technique course will enable participants to experience current endodontics multimodal treatment with interactive discussions on clinical cases.

The course will lead to a UCL Eastman Certificate in Endodontics through examination.

For more information please contact Tania Vera-Burgos, Endodontic Course Administrator on 020 7905 1244, email t.burgos@eastman.ucl.ac.uk or visit www.eastman.ucl.ac.uk/cpd

The UCL Eastman Certificate in Endodontics is a 24 day course commencing in October 2009 and running over 12 months. Participants will have the choice whether to attend fortnightly or for 6 four day modules spread over the year.

Delivered partly through seminars and lectures, practical sessions will take place in state-of-the-art endodontic skills laboratory using microscopes and the latest instruments.

Some of the topics to be covered will include:
• Pulpal and periapical pathology
• Endodontic diagnosis
• Success and failure
• Non-invasive treatments

The CrystalAir air abrasion unit is used for checking out suspicious stains in conjunction with the Diagnodent laser caries detector. A recent study by Dr Robin Horton and others has demonstrated a large reduction in false positives when compared to the normal method of diagnosis. This has helped in reducing the risk of carrying out unnecessary treatment.

CrystalAir is also used for actual cutting into enamel and dentine for tooth preparations. Patients are particularly impressed by the lack of the high speed whine of the conventional drill and the fact that many procedures can be carried out at check up as there is frequently no requirement for anaesthesia. This means an increase in productivity as a check up is turned into a check up and filling in not much more time.

Another study in the USA found that 100% of patients preferred air abrasion to the rotary instrument, which is why CrystalAir is such a practice builder.

More information can be found on www.dp-ps.uk.com DPS telephone number is 01458 820550

For further information please visit www.beverlyhillsformula.com

The CrystalAir air abrasion instrument, which is why CrystalAir is such a practice builder.

The unique CarieScan PRO™ offers dentists the earliest possible detection of caries, reducing fillings and the use of X-rays. The first dental diagnostic tool to use AC Impedance Spectroscopy Technology (ACIST), CarieScan PRO™ has been engineered to quantify dental caries in teeth early enough to enable effective preventive treatment.

The proven technological advantages of CarieScan PRO™ over traditional methods including X-ray, laser fluorescence and clinical visual are impressive. CarieScan PRO™ is 92.5% accurate at detecting both sound and carious teeth – minimising false positive or false negative results.

This award-winning technology will be appreciated by both dentists and patients for its outstanding features including:
• No pain, no sensation and no ionising radiation
• Low cost
• Diagnostic precision (most accurate data available from a handheld device)
• Single patient disposable (meets BDA cross-infection guidelines)
• Detectors and monitors decay over time (repeat measurement of treated area to accurately measure decay advance or regression)

The proven technological advantages of CarieScan PRO™ over traditional methods including X-ray, laser fluorescence and clinical visual are impressive. CarieScan PRO™ has been engineered to quantify dental caries in teeth early enough to enable effective preventive treatment.

The dental grind is recession proof!

Bruxism is on the rise during the recession, medical experts reported recently. Bruxism is a multifactorial issue and many of us are unaware of the causes and the impact it can have on the dentistry practiced on our patients.

S4S (UK) Limited are sponsoring a series of Occlusion & Occlusal Splint Seminars, presented by Dr Helen Harrison BDS, MFDS. She has so far presented a discount off the course ‘Introduction to Occlusal Splints in General Practice’ presented by Dr Helen Harrison.

To reserve a place call S4S (UK) Ltd on 0144 2508 176 or visit www.4s8dentals.com
