Incorporating the latest Treatment Centre Technology, Heka Dental’s UNIC is the ultimate embodiment of feedback from patients, dentists and service engineers etc. Combining aesthetics with functionality, its inviting appearance and carefully thought through functionality creating the perfect environment for a pleasant dental visit.

Heka Dental equipment is available in the UK from Dental Services Direct, telephone 0150 967 2778 or visit www.heka-dental.uk for further information.

**ABAC compressors**

Many dental practices face unexpected interruptions and high repair costs, caused by failing and overheating compressors. An old compressor can also provide poor quality air, which reduces lifetime of dental units and handpieces, and can seriously compromise the effects of your work, if contaminated with oil.

Manufactured to order they meet all the incumbent’s needs including specific requirements on colours and materials. Support Chairs also offer a wide range of accessories including new Swing and Swing Mini Armrests.

Easy to fit and convert between left and right handed operators, the Swing Armrest offers a number of options for varied seating positions and is easy to use with Support Chairs’ complete range.

The Swing Mini Armrest has the same features as Swing but is smaller. Designed for use specifically with Support Stool, its smaller size suits their beautiful and stylish design to perfection.

For further information contact your regular Dental Dealer or Support Chairs on 01296 581764, fax 01296 586058, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

**Ceramic Systems (CEREC®) NEW CEREC® AC makes impression free dental practice a reality**

The KaVo ESTETICA E80 is a suspended chair that gives the patient and dentist exceptional freedom of movement. The area under the unit is completely open for the dentist and assistant; there is plenty of room for comfortable leg positioning. Procedures run much smoother and more efficiently leaving the professionals to focus on quality dental care.

The ESTETICA E80 takes your health into consideration as the individual working positions and habits ensure that your posture is constantly healthy, stress-free and relaxed.

**The Primes 1058 is designed to offer all the quality and technology advantages of a KaVo unit, with the added benefit of working flexibility. This unit allows for permanent installation in either the right or left-hand position, whilst offering ideal patient positioning including an offset backrest articulating and with increasingly complex treatment cases: it looks like longer sessions in the chair are not just in store for our patients but us too.

Sitting with the correct posture is very important as it relieves the strain on your lower back. Bambach’s unique saddle seat design allows the spine and pelvis to work together to create balance and mobility in the up-right position. As a result good posture happens naturally as you sit on this cleverly designed stool which encourages ‘dynamic’ seating where body weight is additionally taken on the feet further promoting health.

So for natural relief and to prevent occupational back pain for all members of the dental team call Bambach today on freeephone 0800 581108 or visit www.bambach.co.uk. There’s even a free 50 day trial period!

Heka Dental
Get a FREE trip to Copenhagen. With Heka Dental you’re in safe hands!

Heka Dental invite Dentists to visit Copenhagen to see their design and production facilities, as well as their beautiful city. There will be several trips a year, normally running from Thursday morning to Saturday afternoon. During which guests will have an opportunity to visit their factory as well as Wonderful Copenhagen. For Dentists ordering a Heka Dental package here or during the trip the entire visit will be free. Otherwise, Dentists will only need to pay for the flight and hotel.

**ABAC compressors**

ABAC compressors are characterized by the four most important features for a dental practice: very low noise level, medical grade clean air, reliability and best price to value ratio. A wide range of products is available to suit all needs: Basic, when sound level is not crucial; Sky and Silent, when quiet operation is required; Plus, with an adsorption dryer, when the compressor is fitted outside the practice or in a basement.

Contact Profi on 07981 073157, for a free survey and quotation. ABAC compressors are offered with free delivery and installation, starting from £599 for a single surgery and £899 for 5 surgeries.

**Support Chairs**
Ergonomically designed for optimum comfort!

Support Chairs’ Support Stools have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent’s back and provide maximum comfort. The fully adjustable back support and bowl-shaped seat ensuring a proper posture.

The NEW CEREC® AC from Ceramic Systems (CEREC®) enables Clinicians to capture whole jaw arches - quickly and conveniently - without the need for impressions; generating virtual 3D models enabling Dentists to offer an even wider range of restorations. It combines the NEW CEREC® Bluecam camera with updated CEREC® 3D software which makes it even easier to operate.

Instead of conventional laser or infra-red light sources, Bluecam features high-performance LEDs which deliver optical impressions of unsurpassed precision; this ensures the final restoration’s excellent accuracy of fit, speeds up the bonding process and reduces any excess luting cement to be removed.

Bluecam delivers razor-sharp images, its built-in shake detection system enhancing overall precision. Its automatic exposure function and extensive depth of field means that the entire impression-taking process can now be delegated.

For further information, contact Ceramic Systems Limited on 01932 582930, e-mail j.colville@ceramicsystems.co.uk, or visit www.ceramicsystems.co.uk.

**Are You Sitting Comfortably?**

Introduce leading cutting-edge technology into your practice with KaVo and see fantastic results.

In addition to all the above, the NEW Teneo Treatment Centre offers many exceptional innovations and is designed to reduce the operator’s workload, leaving them free to concentrate on the patient instead.

It offers clinicians simple and intuitive operation via its EASYTouch user interface, wire- less foot control for optimum flexibility without cable clutter, intuitive and dynamic seating via the HUGO stool, and an array of patient communication and entertainment tools.

Teneo is available in three attractive and interchangeable colour schemes, which enable clinicians to create their own individualised interior design.

For further information call Sident Dental Systems on 01952 582800, e-mail j.colville@sident.co.uk or visit www.sident.co.uk.

**Whose been sitting on my chair?**

Bambach’s revolutionary stool could become a hot seat – and not just for you!

We all know about healthy eating and taking regular exercise but what about healthy seating? As dental professionals we tend to sit a lot of the time and increasingly for extended periods of time.

DENTAL TRIBUNE

Chairs/Delivery Systems 25
The new Henry Schein Minerva catalogue taped in July/2009 will enable you to sell more products, specifically designed to save you money on essential products, it is also fully bar-coded to make purchasing both quicker and easier.

Since no two practices are ever the same, the new catalogue also features a unique reference guide, with details of ‘Platinum’, ‘Gold’ and ‘Silver’ groups for your large capital equipment purchases.

Request your FREE copy of the NEW 2009 Henry Schein Minerva catalogue today, call 08700 10 20 43.

Tri-Sok now available in a cost effective 7gr tube!

Tri-Sok is used for the treatment, after development, of inflammation in an extraction socket. Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic. It contains Chlortetracycline, a broad-spectrum antibiotic that acts against infective organisms.

Aspirin exerts analgesic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

Tri-Sok is available from Panadent 01898 1788 £24.99 plus VAT or from your usual supplier.

TMS Link Plus from Coltène Whaledent

The TMS Link Plus pins embody detailed features developed from research and clinical applications. The safety stop and depth-limiting drill eliminates the danger of pulpal and periodontal penetration and gives consistent shear.

A ball-joint link to shank provides self-alignment and the tapered end provides easier penetration. The buttress

Triotray

The smart new Triotray by Triotray is a rigid and accurate posterior impression tray, providing consistently successful impressions. It removes that dreadful moment of doubt when you fit a new crown and saves time and money spent on ad-

justments and extra appointments. Triotray’s sturdy metal frame with unique side tabs controls the tongue and avoids the major cause of post-impression ‘bounce-back’. The tray comes in left and right styles, with the tabs pre-shaped to deflect the tongue. The tray’s thinness and strength in the retro-molar area allows the patient to close easily and comfortably in centric occlusion (maximum intercuspation position). The impression material locks into the side tabs, avoiding the need for adhesive. The tabs can be bent to fit all mouths, including those of patients with a shallow palate, wide buccal plate or mandibular tori. Triotray elimi-

nates the frustration and embarrassment caused by poorly fitting crowns due to distorted impressions.
Nobel Biocare continues its commitment to UK dentistry by working with and supporting dental nurses.

For more information contact Tanya Wade 01895 542012 or Kyle Anderson 01895 452058 or visit www.nobelbiocare.com

Happy Birthday KaVo!

Dental Innovation and Inspiration for 100 years!

From its humble beginnings in 1909, KaVo Dental Ltd quickly grew into one of the market leaders in the dental sector. The company was built and founded on quality, precision and longevity, and KaVo has remained true to its 100-year-old motto and outstanding principles.

Crafting equipment from the finest materials, each design has been carefully created in conjunction with the thoughts and desires of dental professionals from around the world. The team at KaVo prides itself on listening to the voice of the industry front line, where professionals who are exposed daily to the dental working environment can offer excellent insights into what really makes a difference in the equipment they use.

The vast KaVo range offers every practice the opportunity to have the very best instruments, a beautiful, harmonious interior and state-of-the-art technology available to staff and patients.

For more information please call 01276 469 600 or email info@implantsuccess.com www.implantsuccess.com

Vizilite Plus™ Screening Test for Oral cancer

Vizilite Plus™ is a simple technology to assist in the early detection of oral abnormalities including pre malignant lesions and oral cancer.

Vizilite Plus™ comprises of a chemiluminescent light source (Vizilite) to improve the identification of lesions and a blue photoinitiator dye (FBlue) to mark those lesions identified by Vizilite. Carried out as part of a general check-up, Vizilite Plus™ is a simple, low cost, pain free and 100% sensitive test that can help save lives and give Patients peace of mind.

For more information please call 01276 469 600 or email info@implantsuccess.com www.implantsuccess.com

Cariescan

The unique CariesScan PRO™ offers dentists the earliest possible detection of caries, reducing fillings and the use of X-rays. The first dental diagnostic tool to use AC Impedance Spectroscopy Technology (ACIST), CariesScan PRO™ has been engineered to quantify dental caries in teeth early enough to enable effective preventive treatment.

The proven technological advantages of CariesScan PRO™ over traditional methods including X-ray, laser fluorescence and clinical visual inspection, has seen the CariesScan PRO™ is 92.5% accurate at detecting both sound and carious teeth – minimising false positive or false negative results.

For more information, please contact Panadent 01898881788 or visit www.panadent.net

UCL Certificate in Endodontics

The UCL Eastman Certifi cate in Endodontics is a 24 day course commencing in October with the remaining 12 months. Participants will have the choice whether to attend full time or part time. Four modules spread over the year.

Delivered partly through seminars and lectures, practical sessions will take place in state-of-the-art endodontic skills laboratory using microscopes and the latest instruments.

Some of the topics to be covered will include:

• Pulpal and periradical pathology
• Endodontic diagnosis
• Success and failure
• Innovations in endodontics
• Non-vital bleaching

The course will be directed by Richard Kaban and co-ordinated by Tony Druftman. Lecturers will include Nigel Foot, Maria Lesslie and Christine Premdas amongst others.

This innovative technique course will enable participants to experience current endodontic armamentarium with interactive discussions on clinical cases.

The course will lead to a UCL Eastman Certificate in Endodontics through examination.

For more information please call 020 7905 1244, email Endodontic Course Administration or visit www.eastman.ucl.ac.uk/cpd

Meet The Challenge Of Clinical Governance With Smile-on

Smile-on has the tools you need to comply with the Health Care Commission’s standards. The Clinical Governance programme has been designed to correspond with the standards identified in Standards for Better Health (Department of Health, 2004).

With Smile-on, you will explore how to successfully embrace the opportunities offered by Information Technology. Smile-on will explain how to realise practice potential by following strategies for patients, presenting cases effectively, developing superb customer service and more.

The course will work with you to ensure that the process runs smoothly to budget and timescale, as your vision takes shape. While you continue to treat your patient, Genius over- sees everything, and when the construction phase is complete, you will work with you to ensure that you get precisely the equipment, furniture, fixtures and fittings you want.

Dedicated experts make sure that the process runs smoothly to budget and timescale, as your vision takes shape. While you continue to treat your patient, Genius oversees everything, and when the construction phase is complete, you will work with you to ensure that you get precisely the equipment, furniture, fixtures and fittings you want.

With a unique non-adversarial and cost-effective approach, Genius is known for its quality of service and guides clients through the entire Design and Build process, always striving to raise the standard of excellence.

For more information please call Genius on 01582 840484 or email info@genusgroup.co.uk www.genusinteriors.co.uk

Harness your individual visions with the aid of cutting edge computer aided design software, which allows you to see fully realistic views of your practice before construction has even commenced. Working with an experienced team that understands the demanding guidelines of the dental industry, you will reach a design that is fully compliant whilst remaining true to your personal vision.
