Sident Dental Systems

Get over £22,000 worth of FREE Extras with Sident’s New Teneo Treatment Centre Offer

To celebrate the launch of Sirona’s New Teneo Treatment Centre, Sident Dental Systems’ are offering several FREE Extras. The Extras include a FREE Comfort Package, Innovations Package, Clinical Package and Vission Package. For further information contact Sident today!

In addition to all the above, the NEW Teneo Treatment Centre offers many exceptional innovations and is designed to reduce the operator’s workload, leaving them free to concentrate on the patient instead.

It offers clinicians simple and intuitive operation via its EasyTouch user interface, wire-less foot control for optimum flexibility without cable clutter, intuitive and dynamic seating via the HUGO stool, and an array of patient communication and entertainment tools.

Teneo is available in three attractive and interchangeable colour schemes, which enable clinicians to create their own individualised interior design.

For further information call Sident Dental Systems on 01952 582800, email j.colville@sident.co.uk or visit www.sident.co.uk.

Whose been sitting on my chair?

Bambach’s revolutionary stool could become a hot seat – and not just for you!

We all know about healthy eating and taking regular exercise but what about healthy seating? As dental professionals we tend to sit a lot of the time and with increasingly complex treatment cases it looks like longer sessions in the chair are not just in store for our patients but us too.

Sitting with the correct posture is very important as it relieves the strain on your lower back. Bambach’s unique saddle seat design allows the spine and pelvis to work together to create balance and mobility in the up-right position. As a result good posture happens naturally as you sit on this cleverly designed stool which encourages ‘dynamic’ seating where body weight is additionally taken on the feet further promoting health.

For natural relief and to prevent occupational back pain for all members of the dental team call Bambach today on freephone 0800 581108 or visit www.bambach.co.uk. There’s even a free 50 day trial period!

Heka Dental

Get a FREE trip to Copenhagen. With Heka Dental you’re in safe hands!

Heka Dental invite Dentists to visit Copenhagen to see their design and production facilities, as well as their beautiful city. There will be several trips a year, normally running from Thursday morning to Saturday afternoon. During which guests will have an opportunity to visit their factory as well as Wonder-ful Copenhagen. For Dentists ordering a Heka Dental pack-age here or during the trip the entire visit will be free. Other- wise, Dentists will only need to pay for the flight and hotel.

Incorporating the latest Treatment Centre Technology, Heka Dental’s UNIC is the ultimate embodiment of feedback from patients, dentists and service engineers etc. Combining aesthetics with functionality, its inviting appearance and carefully thought through functionality creating the perfect environment for a pleasant dental visit.

Heka Dental equipment is available in the UK from Dental Services Direct, telephone 0158 267 2778 or visit www.heka-dental.dk for further information.

ABAC compressors

Many dental practices face unexpected interruptions and high repair costs, caused by fail- ing and overheating compressors. An old compressor can be also providing poor quality air, which reduces lifetime of den-tal units and handpieces, and can seriously compromise the effects of your work if contamin- ated with oil.

ABAC compressors are char- acterized by the four most im-portant features for a dental prac-tice: very low noise level, medical grade clean air, reliabil-ity and best price to value ra-tio. A wide range of products is available to suit all needs: Basic, when sound level is not crucial; Sky and Silent, when quiet opera- tion is required; Plus, with an adsorption dryer, when sound level is not crucial; and Sky and Silent, when quiet opera- tion is required; Plus, with an adsorption dryer, when sound level is not crucial; and Sky and Silent, when quiet opera- tion is required; Plus, with an adsorption dryer, when sound level is not crucial; and Sky and Silent, when quiet opera- tion is required; Plus, with an adsorption dryer, when sound level is not crucial; and Sky and Silent, when quiet opera- tion is required; Plus, with an adsorption dryer, when sound level is not crucial.

CERAMIC SYSTEMS (CEREC®)

NEW CEREC® AC makes impression free dental practice a reality

The KaVo ESTETICA E80i is a suspended chair that gives the patient and dentist exceptional freedom of movement. The area under the unit is completely open for the dentist and assis-tant; there is plenty of room for comfortable leg positioning. Procedures run much smoother and more efficiently leaving the professional to focus on quality dental care.

The ESTETICA E80i takes your health into consideration as the individual working posi-tion and habits ensure that your posture is constantly healthy, stress-free and re-laxed.

The Primus TS58 is designed to offer all the quality and tech-nology advantages of a KaVo unit, with the added benefit of working flexibility. This unit al-lows for permanent installation in either the right or left-hand position, whilst offering ideal patient positioning including an offset backrest artic-
NEW CEREC AC Bluecam ~ Seen in a new light

Sirona UK is a specialist division of Sirona Dental Systems, the manufacturer of the CEREC System, and has now for the last 5 years supplied and supported CEREC 3 CAD/CAM all-ceramic restoration system here in the UK.

With product simplicity key to the success of any dental practice, Sirona are now proud to launch their new CEREC AC Bluecam imagining unit making the CEREC even easier to use for the dentist.

Sirona has helped to successfully integrate CEREC into dental practices for over 22 years, with more than 24,000 systems now in place worldwide. It offers convincing long-term aesthetic restorations in a single visit.

Sirona UK’s mission is to deliver satisfaction to the dentist using tried and tested in-surgery training methods supported by CEREC Specialists who are dedicated to your success.

To find out how the Sirona team can directly support your practice and for a no obligation demonstration please telephone 01442 269501 or email info@sironadental.co.uk www.sironadental.co.uk

DentalEZ also offer lighting, stools and suction to give you a fully integrated look to your surgery.

Contact Tel 01442 269501 email info@dentalez.co.uk www.dentalez.co.uk

DentalEZ has been making equipment for over 50 years and has ambitiously styled over patient, cabinet mounted and unit style units which can be mounted to their range of chairs and with upholstery choices from basic through to Ultra-leather and colour range to suit all tastes.

We have been designing and manufacturing seating for the dental and medical profession for over 40 years.

We all need some help when it comes to Aphthous Ulcers. These very annoying, painful and irritating oral conditions can ruin a Summer Holiday. Now Patients, Dentists and Staff Members involved in UK Dentistry all have their own special help with the introduction of the OraLight hand held treatment wand. Using a Narrow Beam of 650nm light, this hand held LED wand provides the precise wavelength to get results. Battery powered, this unit is the patients answer to quick and easy.

One DENTSPLY, One Million, One Practice.
Would you like the chance to win One Million Pounds for your Surgery?

For the 1st time in UK Dentistry, one lucky Dentist, Hygienist, Practice Manager, Nurse or Therapist could walk off with One Million Pounds!

DENTSPLY has teamed up with a major company to indemnify this massive sum to help you invest in the practice you’ve always wanted.

No purchase is necessary; simply fill out a 5 minute questionnaire at www.dentsply.co.uk and DENTSPLY will automatically enter you into the draw.

10 finalists will then be selected at the end of October and the final winner will be drawn at the BDTA on Saturday 14th November at 12pm.

The final will have the chance to win one of the following prizes; One Million Pounds, one hundred thousand pounds, ten thousand pounds or at the very least five thousand pounds!

Getting Your Practice Marketing into Gear

Chris Barrow is regarded as one of the most effective speak-

ers in UK dentistry, and when he agreed to perform a series of professional seminars in partnership with Software of Excellence during February 2009, practitioners seeking inspiration and guidance flocked to see him in action.

Focusing on the state of the market, Chris discussed the different ways in which general dental practices could ‘raise their game’, frequently pointing out the importance of demographics and customer segmentation in the marketing of any practice. Chris stressed that the reason for visiting a dentist isn’t the same for everyone and this should be a fundamental consideration when promoting and marketing a practice. Chris referred to the current climate in private dentistry as a “survival of the fittest” scenario, and concluded that incentivising patients during these times might be something that dental practices need to consider.

For more information on Software of Excellence and their practice management software solutions please call 0845 5455767.

Quality Options, Ongoing support!

Wright Cottrell are the national company with the local touch. Working with UK dentists and lab technicians, the team at Wright Cottrell can provide outstanding options for all your dental materials, your practice and your budget.

Triotray

The smart new Triotray by Triodont is a rigid and accurate posterior impression tray, proving consistently successful impressions. It removes that dreadful moment of doubt when you fit a new crown and saves time and money spent on ad-

justments and extra appointments. Triotray’s sturdy metal frame with unique side tabs controls the tongue and avoids the major cause of post-impression ‘bounce-back’. The tray comes in left and right styles, with the tabs pre-shaped to deflect the tongue. The tray’s thinness and strength in the retro-
molar area allows the patient to close easily and comfortably in centric occlusion (maximum intercuspation position). The impression material locks into the side tabs, avoiding the need for adhesive. The tabs can be bent to fit all molars, including those of patients with a shallow palate, wide buccal plate or mandibular tori. Triotray eliminates the frustration and embarrassments caused by poorly fitting crowns due to distorted impressions.
Happy Birthday KaVo!

Dental Innovation and Inspiration for 100 years!

From its humble beginnings in 1909, KaVo Dental Ltd quickly grew into one of the market leaders in the dental sector. The company was built and founded on quality, precision and longevity, and KaVo has remained true to its 100-year old motto and outstanding principles.

Crafting equipment from the finest materials, each design has been carefully created in conjunction with the thoughts and desires of dental professionals from around the world. The team at KaVo prides itself on listening to the voice of the industry front line, where professionals who are exposed daily to the dental working environment can offer excellent insights into what really makes a difference in the equipment they use.

The vast KaVo range offers every practice the opportunity to have the very best instruments, a beautiful, harmonious interior and state-of-the art technology available to staff and patients.

Vizilite Plus™ Screening Test for Oral cancer

Vizilite Plus™ is a simple technology to assist in the early detection of oral abnormalities including premalignant lesions and oral cancer.

Vizilite Plus™ comprises of a chemiluminescent light source (Vizilit) to improve the identification of lesions and a blue photoiniting dye (FBir) to mark those lesions identified by Vizilite. Carried out as part of a general check up, Vizilite Plus™ is simple, low cost, pain free and 100% sensitive test that can help save lives or give Patients peace of mind.

Cariescan

The unique Cariescan PRO™ offers dentists the earliest possible detection of caries, reducing fillings and the use of X-rays. The first dental diagnostic tool to use AC Impedance Spectroscopy Technology (ACIST), Cariescan PRO™ has been engineered to quantify dental caries in teeth early enough to enable effective preventive treatment.

The proven technological advantages of Cariescan PRO™ over traditional methods including X-ray, laser fluorescence and clinical visual examination. Cariescan PRO™ is 92.5% accurate at detecting both sound and carious teeth – minimising false positive and false negative results.

Cariescan can PRO™ can offer you, call the dedicated team on 0845 4759873 or visit www.cariescan.com

UCL Certificate in Endodontics

The UCL Eastman Certifi- cate in Endodontics is a 24 day course commencing in October with seminars running over 12 months. Participants will have the choice whether to attend full time or part time modules spread over the year.

Delivered partly through seminars and lectures, practical sessions will take place in state-of-the-art endodontic skills laboratory using microscopes and the latest instruments.

Some of the topics to be covered include:
- Pulpal and periapical pathology
- Endodontics diagnosis
- Success and failure
- Innovations in endodontics
- Non-vital bleaching

The course will be directed by Richard Kahan and co-ordinated by Tony Duttman. Lecturers will include Nigel Foot, Maria Lessa and Christine Fremdas amongst others.

This innovative technique course will enable participants to experience current endodontic armamentarium with interactive discussions on clinical cases.

The course will lead to a UCL Eastman Certificate in Endodontics through examination.

For more information please call 020 7905 1244, email t.burgess@eastman.ucl.ac.uk or visit www.eastman.ucl.ac.uk/cpd

For more information please contact Panadent 01689 881788 or visit www.panadent.net

UCL Certificate in Endodontics

This award-winning technology will be appreciated by both dentists and patients for its outstanding features including:
- No pain, no sensation and no ionising radiation
- Low cost
- Diagnostic precision (most accurate data available from a handheld device)
- Single patient disposable sweeps (meets BDA, cross-infection guidelines)
- Detects and monitors decay over time (repeat measurements of treated area to accurately measure decay advance or regression)

For more information on the outstanding benefits Cariescan PRO™ can offer you, call the dedicated team on 0845 4759873 or visit www.cariescan.com

Meet The Challenge Of Clinical Governance With Smile-on

Smile-on has the tools you need to comply with the Health Care Commission’s standards. The Clinical Governance programme has been designed to correspond with the standards identified in Standards for Better Health (Department of Health, 2004).

For more information please call Smile-on on 0207 400 8989 or email info@smile-on.com www.smile-on.com

Cariescan PRO™

Once again, Smile-on has answered the call for a flexible and involving learning solution. The combination of an introductory seminar, comprehensive workbook and 90-minute CD-ROM and/or online course enables dental practices to comply fully with the clinical governance agenda.

Using the proven Plan-Do-Study-Act strategy, the programme helps dental teams to:
- Improve patient experience and satisfaction
- Reduce the scope for error
- Promote evidence-based care
- Encourage the involvement of the whole team
- Facilitate compliance with industry requirements

With the Clinical Governance Performance Management tool, practices can upload their results, which can quickly and easily identify what has been achieved, and what remains to be done.

Smile-on is dedicated to delivering learning solutions that are flexible, convenient and make your entire team confident in their knowledge of cutting edge dentistry.

For more information please call Smile-on on 0207 400 8989 or email info@smile-on.com www.smile-on.com

Be An Inspiration To The Industry With Genus

The possibilities of modern dentistry are defined by its leaders. With the Genius Design and Build service, you can distinguish yourself as one of the best, and be an inspiration to the industry.

Harness your individual vision with the aid of cutting edge computer aided design software, which allows you to see fully rendered 3D views of your practice before construction has even commenced. Working with an experienced team that understands the demanding guidelines of the dental industry, you will reach a design that is fully compliant whilst remaining true to your personal vision.

Dedicated experts make sure that the process runs smoothly to budget and timescale, as your vision takes shape. While you continue to treat your patients, Genius over- sees everything, and when the construction phase is complete, helps you to work with you to ensure that you get precisely the equipment, furniture, fixtures and fittings you want.

With a unique non-adversarial and cost-effective approach, Genius is known for its quality of service and guides clients through the entire Design and Build process, always striving to raise the standard of excellence.

For more information please call Genius on 01582 849484 or email info@genusinteriors.co.uk www.genusinteriors.co.uk
