Accurately Controlling Your Handpiece Speed

The Optima MX INT system from Bien-Air provides a complete and reliable solution for your endodontic work.

With an easy to use, intuitive display the Optima MX INT converts your air-driven system to an upgraded electric operation; allowing, for example NiTi endodontics to be covered with a standard 1:1 contra-angled handpiece. Most other procedures are covered with just two contra-angles (1:1 and 1:5), thus replacing several conventional instruments saving time and expense.

This simple system enables you to change the torque, speed and ratio in just a few clicks. With 20 pre-set programmes, 10 designed specifically for endo work and 10 for operative programmes, the Optima MX INT allows you to set a further 20 programmes to your personal requirements. This good looking unit will suit all surgery décor and the unique mounting system allows optimum visibility.

For further information please contact Bien-Air on 01506 711 565 or visit www.bienair.com

Dental Services Direct top-notch technologies

As dentistry becomes more sophisticated and practices turn to more hi-tech solutions for their everyday needs, there is the need for a company whose advice they can trust and whose products are the very best available. Dental Services Direct offer a wide range of the finest in the market. Some more popular models currently include; the Digora Optime intraoral digital imaging system and the Digora PCT digital extraoral imaging system, the Veraview IGS, Morita’s high-speed digital panoramic x-ray machine and the Velopex Diode 5W 975nm laser, for a more patient friendly approach.

For extra peace of mind, when Dental Service Direct sell a piece of equipment they ensure the staff receive full training, ensuring the practice gets the most out of its investment. Everything is explained thoroughly and if there is ever a problem later on help is just a phone call away.

To find out more about the exciting range of technology products on offer call the Dental Services Direct Technologies team now: 08452 606 506, visit the website or download the latest special offer flyer from www.dentalservicesdirect.com.

Promotions at Henry Schein

Henry Schein, the UK’s leading supplier of products and services to the dental team are pleased to announce the restructure of their senior management team.

Simon Gambold, who has been part of the Henry Schein team for more than 14 years, played an important role in the acquisition of Minerva Dental in 2008, now assumes the role of ‘Managing Director’. Simon will continue to work as part of the British Dental Trade Association, creating and develop key relationships throughout the dental industry and profession.

Patrick Allen, who joined the team in 1994 following a long career in the dental industry, has been promoted, to Vice President of the Henry Schein Minerva Full Service Business.

These changes at Corporate level are indicative of Henry Schein’s desire to continue to evolve and put in place a dynamic infrastructure that will support its growing business model and further support its customers in running efficient and profitable practices.

The Ultimate Instrument

When is a handpiece more to you than just a handpiece? When it’s an NSK handpiece! This might sound like the start of a tall story but actually it’s a true statement.

Your handpiece plays a fundamental role in your daily procedures and overall clinical performance, so it’s essential to your practice success that you use not only the best handpiece on the market but know that NSK are there to provide service and support along the way.

The unbeatable X Series features the latest technology yet combines elegance with ergonomic design, with each handpiece resting comfortably in the hand. The X Series has Dual Air Jets producing unmatched levels of power and performance and DURACOAT, an innovative surface treatment to optimise durability and scratch resistance. Both of these features enable you to carry out procedures with speed, confidence and accuracy.

Get in touch with the latest innovations, please call Jane White at NSK on 0800 6341909 to find out more.

New A-dec 500™ offers Dentists an innovative Equipment Solution

A-dec 500 Integrated System Contributes to a Healthier, More Productive Practice

A-dec 500 offers professional dentists the ultimate in comfort, control and efficiency. A-dec 500 allows unprecedented integration of technology and is well-positioned to fit small spaces and conservative budgets. The new A-dec 500 system offers customers a mid-level platform choice that’s lower in cost than the A-dec 500*, yet maintains the high performance, service, and support that distinguish A-dec products.

Everything about A-dec 500 is designed with efficiency and well-being in mind: from the ultra-thin 1” (25mm) thick backrest that provides optimal access to the oral cavity, to the
