Minimally Invasive Adhesive Dentistry

Many modern dental procedures require specialised hi-tech equipment and none excels in performing the delicate techniques of minimally invasive and adhesive dentistry better than the PrepStart neat and compact air abrasion unit.

Versatility is assured, as Evi- dent’s PrepStart is ideal for use in a variety of procedures including cavity preparation, bonding, repairing, restoring and the detection and treatment of fissure lesions, with great patient acceptance.

We can arrange for installation for you and an aftercare package. Installation starts from £450, but depends on a site survey for an exact quote.

For more details, and full specifications and pictures visit our website, www.den todaid.co.uk, or call us free on 0800-678-50-55.

Imagine With KaVo

One of the leading dental manufacturers, KaVo prides itself on providing ergonomically designed and innovative high quality products. KaVo is dedicated to achieving dental excellence in all its product ranges, including superior handpieces.

KaVo offers its customers imaging solutions of exceptional quality such as the GXC8-500, the latest in Cone Beam 3D dental imaging. The unique sensor design allows staff to switch effortlessly from 3D to 2D imaging saving them valuable time. It has a standard field of view of 8 x 8cm while its special ED8 shot enables a view of 14 x 8cm.

The Orthoralix 8500 is a panoramic digital extraoral X-ray unit that provides superior mechanical performance while producing the best diagnostic image quality. The 9200 version is the best dental panoramic and cephalometric system for film-based or direct digital radiology.

Weighing in at just over 4 ounces (121 grams) and measuring only 8.6 inches (219 mm) in length, it is easy to manoeuvre and manage during each procedure. This compact and cordless LED light is well suited for mobile clinics and services while also providing more ergonomic comfort to clinicians. A fully charged battery powers 180 ten-second cures.

For more information on this exciting new light please contact our sales team on 0800 052 5005 or +44 1923 850423.

850th Aquacut Quattro Installed

The 850th Velopex Aquacut Quatro has been installed at Dr Braka Thuraisundaram’s ‘busy Dental Practice, in Vicarage Road, Bex ley. This light and airy building provides a superb backdrop for this busy dental practice – which now offers all patients the avail- ability of fluid abrasion: Cleaning and Treating, in a calm soothing environment. Dr Thu- raisundaram commented: “It’s great! It’s an essential part of modern technology in a modern practice”.

The Velopex Aquacut Qua tro contains two chambers,
planning and minimally invasive solutions. For more information please contact 01925 251 557 or visit www.lukebarnett.com

Tri-Sok now available in a cost effective 7gr Tube!

The Dental Tribune Show 2009

One of the UK’s leading dental technicians, and his team of specialists, drew considerable interest on stand A4 at the 2009 Dental Show. The ‘P41 Art of Technical Dentistry’ and Luke Barnett were one of the focal points at this major event on the industry calendar.

Luke Barnett laboratory is a 5500 square foot facility, which combines the highest standards with the most cutting edge equipment, to produce optimum results.

The team was delighted to talk about its in-house milling services, advanced CADCAM technology and photography facilities, as well as the specialist technicians and an array of services that include shade taking and custom finishing.

Based in Watford, Luke Barnett represents a new standard in comprehensive treatment which can accommodate any combination of the 5 Cleaning and Treating media available. The Treating powder allows the clinician to ablate hard tissue (Composite, enamel and dentine) creating a relatively rough surface – which is ideal for the latest bonding and restorative materials. The 29µm Treating powder gives the clinician a much smoother cut for finer work.

Tri-Sok is used for the treatment, after development, of inflammation in an extraction socket. Tri-Sok also prevents infection in the extraction socket where there is a history of Dry Socket and where the extraction has been traumatic. It contains Chlorotetracycline, a broad-spectrum antibiotic that acts against infective organisms.

Aspirin exerts analgesic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

The clinical innovations conference and annenberg lecture 2009 will focus on the latest developments in aesthetic and restorative dentistry. Aspirin exerts analgesic and anti-inflammatory actions. The topical application reduces swelling and post-operative pain.

Extraordinary Quality from DENTSPLY at the Dentistry Show 2009

DENTSPLY was keen to show how superior consumables can help dental professionals provide an excellent service to patients at the Dentistry Show 2009 (13th and 14th March at the Birmingham NEC).

Delegates were inspired by the focus of the DENTSPLY stand on the Indirect Restorations procedure. Crown and bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quick and easy to ensure an accurate, long lasting restoration and help you to ‘get it right first time’.

Preparation with Miss Hi-D®, diamond burs “Diamonds are a Girl’s Best Friend”

Kiwi dentist wins postgraduate prize at Salford

Pierre Gill has won the 2nd Annual Best Essay Prize on the Dental Implantology Masters Programme run by the School of Healthcare Professions at University of Salford. Pierre now works in Liverpool at the Peers Backstrom dental practice, although he originally qualified at Otaga in New Zealand.

According to Gillian Crofts, Academic Programme lead, Pierre’s work stood out as being an excellent example of how he had both understood the theoretical aspects of the management of tooth loss and demonstrated insight into his patient’s situation, as well as demonstrating the ability to apply the appropriate medical evidence to the case.

The Dental Implantology Masters Programme at Salford is unique in offering Dentists an extensive clinical mentor network, the 1st of its kind to be established in the North West. As a result it attracts a number of recognised guest speakers such as Dr Philip Freiberger, ITI Fellow and past president of the ABt and Mr Koray Feran from
