Highline

Highline bespoke healthcare storage solutions, from Support Chairs, are the ultimate answer in mobile storage systems. There Orthodontic Trolleys incorporate a variety of features designed to make Orthodontic Treatment even easier and more efficient.

Composed of modules, containing sets of 4 different drawer sizes, they can be combined in one of nine models to create units of the required height, width and mixture of drawer sizes. Some models feature an open space for storing equipment etc or a glass fronted drawer sizes. Some models feature adjustable shelf.

Stylish and efficient, Highline Orthodontic Trolleys are constructed from aluminium, steel and high quality plastics, which are resistant to most stains including blood. Drawer fronts are available in either simulated aluminium or navy metallic finish.

For further information contact Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

Regular Care for your Handpieces!

Correct and regular maintenance is the key to prolonging the life of your valuable instruments and considerably reducing your repair costs. NSK’s Care3 Plus is a simple and reliable way to care for all your high and low speed handpieces.

At the touch of a button, Care3 Plus automatically cleans and lubricates up to 5 instruments, at one time, in less than 2 minutes, ensuring superb handpiece performance is maintained at all times. Featuring a unique rotational maintenance system, Care3 Plus ensures all low speed handpieces rotate continuously throughout the cleaning process, guaranteeing that maintenance solution is delivered to even the hardest to reach parts of the handpiece.

Take care of all your handpieces with NSK’s Care3 Plus. For more information please contact Jane White at NSK on 0800 6341909 or your preferred dental supplier.

Have you heard about NSK Advantage? Benefit from huge savings of up to 40% on high street brands with NSK’s new customer benefit scheme. For more information visit www.peoplevalue.co.uk/nsk-advantage.

Tricky Situation … not with StarFlow!

Permanent retention is increasingly being recommended as the only way to ensure long-term stability of orthodontic treatment and more and more dentists have found that StarFlow from Danville Materials is the perfect solution to bond lingual or labial permanent wire retention.

For more information call The Dental Directory on 01756 591 281.

Orthospace Interproximal Reduction System

Attention Aligners Users! If you are using aligner appliances then the Orthospace Interproximal Reduction System is the system for you.

Today, retainer type appliances are more popular than ever. The Orthospace Interproximal Reduction System makes creating the required spaces for this type of treatment easy and efficient.

The flat cable exit on the rear of the sensor likewise facilitates the easy positioning of the sensor.

For further information please contact: Sirona Dental Systems 0843 071 5040 Info@sironadental.co.uk.

Orthospace is a thin flexible interproximal tool, which facilitates the re-contouring of enamel and many types of dental materials. It also enables reduction of the interproximal tooth structure correcting the inadequate space, caused by an insufficient arch length.

The kit comprises of 1 x Handpiece EVA System, 1 x Extractor, 1 pack of Files 7 pieces, 1 set of Wedges, 1 set of Measuring Gauges (12 pieces) & 1 x Tweezers for Wedges.

The Dental Directory is offering the Orthospace Kit at £595.00 and until end of June, buy the Kit and receive a pack of 7 Files free, worth £159.05.

For more information call The Dental Directory on 01756 591 281.

For further information contact your regular Dental Dealer or Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

Powerfully Intelligent

NSK’s powerful Surgic XT Plus, is a surgical micromotor ideal for placement of mini implants often used in complex orthodontic treatment. Used primarily in conventional implant procedures, the Surgic XT Plus combines accuracy, speed, torque and control.

With a growing reputation in surgical applications, the Surgic XT Plus brings a new dimension of control through NSK’s innovative and unique Advanced Torque Calibration (ATC).

Ortho Relief Gel (does NOT contain Choline Salicylate!)

Ortho-Care (UK) Ltd. has launched its long awaited and highly requested Oral Relief Gel. It has been specially formulated for the highest compressive strength of any flowable composite available, so it’s unlikely to break or shear once placed.

To bond your retainers with confidence please contact Ex- dent on FreeCall 0500 521111 or visit www.evident.co.uk.

Ergonomically designed for optimum comfort!

Support Stools, from Support Chairs, are the product of world class Swedish furniture design by Bruno Mathsson. They have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent’s back and provide maximum comfort. The fully adjustable back support and bowl-shaped seat ensuring a proper posture.

For further information contact Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

**NEW** Platypus – Orthodontic Flossing in a minute!

Have you ever had a patient who found it difficult to maintain oral hygiene whilst wearing their appliance? If so then the new and exciting Platypus is what you have been searching for! New Sirona XIOS sensors generate intraoral images in just a few seconds

The new Sirona XIOS sensors combine the advantages of digital X-ray and cutting-edge imaging technology. "Digital X-ray ups the examination process, reduces radiation doses and delivers more precise diagnostic information," explains Kerstin Buchner, Product Manager of the Sirona Imaging Systems Division. "The Sirona XIOS is a fully digital sensor system that generates X-ray images practically in real time and thus speeds up and simplifies treatment workflow. Thanks to their slimline design and rounded edges, the sensors are easy to place in the patient’s mouth."

With the American Express® Platinum Business Cashback Card You can earn 5% money back on all the business goods and services you routinely purchase on the Card for the first 3 months and then 5% thereafter. Up to £1,000 Cashback can be earned in 12 months.

Effectively Periodontal Healing With Chlo-Site Gel

Chlo-Site Gel provides clinicians with a straightforward and non-surgical periodontal healing aid. The round-tip needle lets the clinician apply ChloSite to the deepest part of periodontal pockets while the innovative design minimises trauma to the surrounding tissue.

Chlo-Site is a unique type of Xantan gel, containing a 1.5% concentration of Chlorhexidine, formulated as one third fast releasing dichloroacetate and two thirds slow releasing dihydrochloride. This enables the Xantan gum to retain its micro-biological integrity, and the chlorhexidine adheres to the gel contamination-free for 15 days.

The muco-adhesive properties of Xantan mean that Chlo-ite adheres to mucosal tissue, forming a sterile barrier to combat bacteria.

Of particular use as an adjunctive in the management of periodontal and peri-implant pocket management, Chlo-Site does not induce bacterial resistance.

Chlo-Site Gel is supplied in ready to use disposable syringes, and is available from Oraldent, the leading oral care specialists.

For further information on Chlo-Site from Oraldent, please contact 01480 862080.

Preparation with Mrs. Hi-Di® Diamond Burs

Mrs. Hi-Di® is well-received with her years of experience, she is a key asset to the team. Her mastery of the Hi-Di® diamond grit mean that she is reliable & durable and always runs true. She ensures most clinical situations are met with her various patterns and she’s always kind to your handpieces.

DENTSPLY’s Indirect Restorative Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients.

DENTSPLY’s quality, branded products, such as Hi-Di Diamond Burs, fit each step of this procedure, making it quicker and easier to use.
Now in convenient SingleDose blisters

Futurabond M

High adhesion values on enamel and dentine, quick and simple application as an all-in-one and one-step adhesive as well as high tolerance to moisture - these are the properties that distinguish Futurabond M. The new adhesive from VOCO is a nano-particle reinforced, light-curing, one-component, selfetch bond for building a durable, adhesive bond with excellent marginal integrity between tooth substance and restorative.

Convenient and hygienic SingleDose

Futurabond M now also comes in the convenient and hygienic SingleDose blisters. This unit dose delivery system is simply opened with the applicator, and the bond is ready for application. One coat is sufficient: this shortens the entire bonding process to only 35 seconds. The blister is gas-tight and does not have to be shaken. This system greatly facilitates cross-infection control procedures in the dental clinic.

Manufacturer: VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.voco.com

Adjuvant Therapies And The Fight Against Periodontitis

Adjuvant treatments doubtlessly have an essential role. When used from the outset in combination with scaling and root planing, they provide the most effective mode of ensuring good results and patient satisfaction in the treatment of periodontal disease.

With the EyeMag Pro, you experience impressive depth of field, expansive view and stereoscopic visualisation extending right to the peripheral zones.

For the complete solution to comfortable, high quality magnification at a great price, supported by the best possible aftercare, choose Carl Zeiss and Nuview.

For more information call Nuview on 01455 759559 or email info@nuview-ltd.com www.voroscopy.co.uk

Preparation with Mrs. III-Di® Diamond Burs

“Diamonds are a Girl’s Best Friend - Make Mrs. III-Di yours!”

Carl Zeiss EyeMag Pro

Affordable High Quality Magnification

Experience excellent quality at an attractive cost with Carl Zeiss EyeMag Pro loupes. Valuable in both general and specialist dentistry, the EyeMag Pro range offers 5 working distances from 500mm to 300mm, with 5.2X to 5X magnification – letting you work in the most comfortable position all the time.

Dr Clive Crook of the School Road Dental Practice in Sheffield, South Yorkshire, is a firm advocate of the EyeMag Pro.

“I have used Carl Zeiss loupes for 10 years, and have tried other makes but they didn’t offer the same standard of performance,” he says. “I really couldn’t work without the EyeMag Pro, and the service from Nuview has been very good indeed.”

When used in conjunction with an autoclave that can run in vacuum or non vacuum mode, Prestige Medical say that UltraClean II will allow a seam- less, hands free process from the dentist, through the cleaning to sterilization in the autoclave, which should help to eliminate sharps injuries and instrument damage.

More information is available from Prestige Medical direct by calling 01480 862084, email sales@prestigemedical.co.uk or by calling 01254 844 105 or email to sales@prestigemedical.co.uk.

Software of Excellence are a leading supplier of innovative practice management systems globally, and have recently unveiled their latest innovative provision, their new website!

The new website will feature a range of features and programs designed to benefit the customer, including extensive information on their practice management products and de-
Introducing the NEW DUO

The new and improved DUO boats advanced features in ergonomics, accessibility and comfort and its unveiling was well received by delegates at the International Dental Show in Cologne in March 2009.

Renowned for its outstanding range of Dental units, Castellini has once again called upon the latest in technology and design to create a highly efficient and immaculately designed system to suit all dental practices.

For further information about the comprehensive range of Castellini products call 0870 756 8219 or visit www.castellini.com.

Seminar Success for Ivoclar Vivadent

An extremely favourable response has been received from those who attended the Ivoclar Vivadent seminars recently held in Lichtenstein and the UK. Many have stated the positive benefits and relevance in attending the workshops, with some expressing an interest to attend future seminars that will be held later in the year on a variety of topics.

Mr Artio™ “Tools for a True Artist”

Mr. Artio™ – he is so light and agile with an ergonomic grip and super strong tips, the DENTSPLY team often wonder how they would cope without him. He simply loves creating work with his DENTSPLY restorative friends!

A substantial number of delegates who attended the first seminars hosted by the company felt the courses proved invaluable in relation to important aesthetic dentistry topics. Developed to help further strengthen the skills of dental teams by enabling dental practitioners to achieve greater patient care and long-term success individually, the courses will continue to run throughout the year at various locations.

Hands on tutorials enabled participants to evaluate and test the vast selection of Ivoclar Vivadent products that are relevant to implement these strategies.

For more information on other seminars being run by Ivoclar Vivadent please call 0116 284 7880.

Amaris Gingiva

For the highest standards in aesthetic dentistry, Amaris Gingiva is the only restorative that permits chair side gingival shade matching. This new gingiva-shaded, composite-based restoration system facilitates individual shade-matching using a combination of a base shade (nature) with three mixable opaque shades in white, light and dark. The result is a representation of the gingiva that appears natural.

Through this principle, behind which the proven Amaris-know how stands, extensively exposed cervical areas caused by gingival recession and wedge-shaped defects in the cervical area can be controlled in the future, both functionally and aesthetically. With Amaris Gingiva, the high standard placed on the capacity of the restoration ensures no longer has to end at the cervical boundary. This new material permits the reconstruction of the ‘red’ boundary with a predictable result.

Deep Clean With The Pik Pocket™ Tip

The Waterpik® Dental Water Jet is rapidly becoming the dentists first choice for outstanding dental care, creating healthier gingival tissue and helping to prevent the progression of periodontal disease.

Teamed with regular brushing, the Waterpik® has seen amazing survey results including a significant reduction in gingival bleeding (up to 95 %) and a reduction in gingivitis compared to regular brushing and flossing (up to 92%).

The biggest problem with periodontal pockets is daily cleaning, but using the Waterpik® dental water jet with a Pik Pocket™ subgingival delivery tip will allow easy and gentle deep cleaning, even for pockets of up to 6mm.

For your professional courtesy discount on the Waterpik® Dental Water Jets speak to your wholesaler or visit www.waterpik.co.uk.

The product is also widely available in Boots stores.

Eliminate Bad Breath

Peripracts specialises in premium oral hygiene products, incorporating the latest technology.

ReturnDEX Oral Rinse, Spray and Toothpaste, are highly effective, well-researched and clinically proven oral health care products. The active ingredient, in this range chemically degrades odour-causing volatile sulphur compounds (VSC) on contact, thus eliminating, not masking, bad breath. It is a highly effective dental germicide and plaque retardant. ReturnDEX Oral Rinse and spray are free from alcohol and pH balanced. Whilst ReturnDEX Toothpaste is non-foaming as it does not contain sodium lauryl sulphate (SLS).

As part of our commitment to Fresh Breath Clinics we have produced a Fresh Breath Kit and a ‘How to set up a Fresh Breath Clinic Manual’ available with the purchase of the kits.

For further information please contact Peripracts Ltd, Tel: 020 8880 1500 Fax: 020 868 9011, E-Mail: sales@peripracts.co.uk.
