Highline

Highline bespoke healthcare storage solutions, from Support Chairs, are the ultimate answer in mobile storage systems. There Orthodontic Trolleys incorporate a variety of features designed to make Orthodontic Treatment even easier and more efficient.

Composed of modules, containing sets of 4 different drawer sizes, they can be combined in one of nine models to create units of the required height, width and mixture of drawer sizes. Some models feature an open space for storing equipment etc or a glass fronted lockable cupboard with a height adjustable shelf.

Stylish and efficient, Highline Orthodontic Trolleys are constructed from aluminium, steel and high quality plastics, which are resistant to most stains including blood. Drawer fronts are available in either simulated aluminium or navy metallic finish.

For further information contact Support Chairs on 01296 581764, fax 01296 586585, email sales@supports stool.co.uk or visit www.supportstool.co.uk

New Sirona XIOS sensors generate intraoral images in just a few seconds

The new Sirona XIOS sensors combine the advantages of digital X-ray and cutting-edge imaging technology. "Digital X-ray speeds up the examination process, reduces radiation doses and delivers more precise diagnostic information," explains Kerstin Buchner, Product Manager of the Sirona Imaging Systems Division. "The Sirona XIOS is a fully digital sensor system that generates X-ray images practically in real time and thus speeds up and simplifies treatment workflow. Thanks to their slimline design and rounded edges, the sensors are easy to place in the patient’s mouth."

The flat cable exit on the rear of the sensor likewise facilitates the easy positioning of the sensor.

Regular Care for your Handpieces!

Correct and regular maintenance is the key to prolonging the life of your invaluable instruments and considerably reducing your repair costs. NSK’s Care3 Plus is a simple and reliable way to care for all your high and low speed handpieces.

At the touch of a button, Care3 Plus automatically cleans and lubricates up to 5 instruments, at one time, in less than 2 minutes, ensuring superb handpiece performance is maintained at all times. Featuring a unique rotational Maintenance System, Care3 Plus ensures all low speed handpieces rotate continuously throughout the cleaning process, guaranteeing that maintenance solution is delivered to even the hardest to reach parts of the handpiece.

Take care of all your handpieces with NSK’s Care3 Plus. For more information please contact Jane White at NSK on 0800 6541909 or your preferred dental supplier.

Have you heard about NSK Advantage? Benefit from huge savings of up to 40% on high street brands with NSK’s new customer benefit scheme. For more information visit www.peoplevalue.co.uk/nsk-advantage.

Orthospace Interproximal Reduction System

Attention Aligners Users! If you are using aligner appliances then the Orthospace Interproximal Reduction System is the system for you.

Today, retainer type appliances are more popular than ever. The Orthospace Interproximal Reduction System makes creating the required spaces for this type of treatment easy and efficient.

Orthospace is a thin flexible interproximal tool, which facilitates the re-contouring of enamel and many types of dental materials. It also enables re-increment of the interproximal tooth structure correcting the inadequate space, caused by an insufficient arch length.

The kit comprises of 1 x Handpiece EVA System, 1 x Extractor, 1 pack of Tiles 7 pieces, 1 set of Wedges, 1 set of Measuring Gauges (12 pieces) & 1 x Tweezers for Wedges.

The Dental Directory is offering the Orthospace Kit at £595.00 and until end of June, buy the Kit and receive a pack of 7 Tiles free, worth £159.05.

For more information call The Dental Directory on 01576 591 291.

Ergonomically designed for optimum comfort!

Support Stools, from Support Chairs, are the product of world class Swedish furniture design by Bruno Mathsson. They have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent’s back and provide maximum comfort. The fully adjustable back support and bowl-shaped seat ensuring a proper posture.

Ortho XT Plus brings a new dimension to orthodontic treatment. Used primarily in conventional implant procedures, the Surgic XT Plus combines accuracy, speed, torque and control.

With a growing reputation in surgical applications, the Surgic XT Plus brings a new dimension of control through NSK’s innovative and unique Advanced Torque Calibration (ATC).

ATC enables the Surgic XT Plus to calibrate the micromotor to the rotational resistance of the individual handpiece, offering reassurance that you are applying optimum torque and speed settings, ensuring accurate, safe and smooth operations. The Surgic XT Plus responds to operator commands instantaneously, giving you extra confidence when making the precise movements required to meet the exacting demands of implant procedures.

To bond your retainers with confidence please contact Ev-ident on FreeCall 0500 521111 or visit www.evident.co.uk

**NEW** Platypus – Orthodontic Flossing in a minute!

Have you ever had a patient who found it difficult to maintain oral hygiene whilst wearing their appliance? If so, then the neat and exciting Platypus is what you have been searching for! Platypus is the easiest, quickest and most effective flossing device you and your patients may ever use. With Platypus the entire mouth can be flossed in just 1-2 minutes. The best bit is, the Platypus is so easy to use, and your patients can achieve the same results at home. Please contact us for further information or a sample.

Each set is manufactured to order so that they meet all the incumbent’s needs including specific requirements on colours and materials. Support Chairs also offer a wide range of accessories so that the Stool can be customised to the operator’s specific needs.

For further information contact your regular Dental Dealer or Support Chairs on 01296 581764, fax 01296 586585, email sales@supports stool.co.uk or visit www.supportstool.co.uk

Powerfully Intelligent

NSK’s powerful Surgic XT Plus is a surgical micromotor ideal for placement of mini implants often used in complex orthodontic treatment. Used primarily in conventional implant procedures, the Surgic XT Plus combines accuracy, speed, torque and control.

With a growing reputation in surgical applications, the Surgic XT Plus brings a new dimension of control through NSK’s innovative and unique Advanced Torque Calibration (ATC).

Can you afford to prove your innocence?

Professional Fee Protection Limited (PFP) can offer an insurance that pays up to £75,000 towards accountant’s fees in the event of a tax investigation, vital if you find yourself facing the following:

A Full Enquiry
An extensive examination considering all aspects of the self assessment tax return, involving a comprehensive review by HM Revenue & Customs of all books and records under the entries made on the return.

A VAT & A NIC Enquiry
A challenge as to the accuracy or completeness of returns submitted.

To apply for a Card today simply call 0800 085 4958.

Effective Periodontal Healing With Chlo-Site Gel

Chlo-Site Gel provides clinicians with a straightforward and non-surgical periodontal healing aid. The round-tip needle lets the clinician apply Chlo-Site to the deepest part of periodontal pockets while the innovative design minimises trauma to the surrounding tissue.

Chlo-Site is a unique type of Xanthan gel, containing a 1.5% concentration of Chlorhexidine, formulated as one third fast releasing diclohexone and two thirds slow releasing dihydrochloride. This enables the Xanthan gum to retain its micro-biological integrity, and the chlorhexidine also acts as a gel contamination-free for 15 days.

The muco-adhesive properties of Xanthan mean that Chlo-Site adheres to mucosal tissue, forming a sterile barrier to combat bacteria.

Of particular use as an adjunct in the management of periodontal and peri-implant pocket management, Chlo-Site does not induce bacterial resistance.

Chlo-Site Gel is supplied in ready to use disposable syringes, and is available from Oraldent, the leading oral care specialists.

For further information on Chlo-Site from Oraldent, please contact 01480 862080.

Preparation with Mrs. Hi-D1® Diamond Burs

Mrs. Hi-D® is well-received—her years of experience, she is a key asset to the team. Her mastery of the diamond grit mean that she is reliable & durable and always runs true. She ensures most clinical situations are met with her various patterns and she’s always kind to your handspieces.

DENTSPLY’s Indirect Restora-
tive Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients.

DENTSPLY’s quality, branded products, such as Hi-D1 Diamond Burs, fit each step of this procedure, making it quicker and easier

Now, you can combine Pro-
phy-Mate neo with FLASH pearl, NSK’s new and effective prophy cleaning powder. FLASH pearl quickly and safely removes stains, plaque and calculus for perfect cleaning and a sparkling result every time.

For more details or a free sam-
piece of FLASH pearl please con-
tact Jean White at NSK on 0800 654 189 or your preferred dental supplier.

New and Improved

NSK’s Prophy-Mate neo is a reliable and user-friendly air polishing system and is the perfect instrument for orthodontists to effectively clean and polish before bond-up, during treatment when changing arch wires and after de-bonding.

Thanks to its original de-tachable 360° front-end swivel connection and newly introduced selectable 60° and 80° tips, this compact, lightweight system now delivers greater polishing power directly onto the tooth surface. An all-round tooth polishing system, Prophy-Mate neo can clean, polish, re- move stains and polish teeth af- ter de-bonding making these routine procedures easier and more efficient than ever before.

A247/Client Local Legal Helpline is also available, providing access to a dedicated call centre team of legal consultants, barristers, solicitors and legal executives.

Carl Zeiss EyeMag Pro

Affordable
High Quality
Magnification

Experience excellent quality at an attractive cost with Carl Zeiss EyeMag Pro loupes. Valuable in both general and specialist dentistry, the EyeMag Pro range offers 5 working distances from 500mm to 500mm, with 5.2X to 5X magnification – letting you work in the most comfortable position all the time.

Futurabond M

High adhesion values on enamel and dentine, quick and simple application as an all-in-one and one-step adhesive as well as high tolerance to moisture – these are the properties that distinguish Futurabond M. The new adhesive from VOOCO is a nano-particle reinforced, light-curing, one-component, selfetch bond for building a durable, adhesive bond with excellent marginal integrity between tooth substance and restorative.

Futurabond M now also comes in the convenient and hygienic SingleDose blisters. This unit dose delivery system is simply opened with the applicator, and the bond is ready for application. One coat is sufficient: this shortens the entire bonding process to only 35 seconds. The blister is gas-tight and does not have to be shaken. This system greatly facilitates cross-infection control procedures in the dental clinic.

Manufacturer: VOOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.vooco.com

For more information contact Tim McCarthy, Mobile: 07500-769-615, or email t.mccarthy@vooco.com

Adjunctive Therapies And
The Fight Against
Periodontitis

Adjunctive treatments doubtlessly have an essential role. When used from the outset in combination with scaling and root planing, they provide the most effective method of ensuring good results and patient satisfaction in the treatment of periodontal disease.

This highly effective spray is available in a choice fragrance. Dentists, hygienists and dental nurses can choose a disinfectant spray with an odour to suit their mood! It is available in neutral, lemon, fruit and flower fragrances. Just spray it and let the patients enjoy the wonderful fragrance.

To take advantage of this excellent special offer ring Jackie or Helen on 01795 770256 or visit our website www.kemdent.co.uk

Genus

Genus Group has built its outstanding reputation on quality, reliability construction and refurbishment. A family-run company with a focus on teamwork and communication, Genus enables clients to realise their vision, guiding the project from planning through to completion.

For example, the most cost effective option, Dentomycin, has several beneficial actions. It combats the wide range of harmful bacteria thought to be prevalent in periodontal disease, and is also a highly effective anti-inflammatory. It enables the clinician to reach areas that are hard to access with instruments alone, and attacks the acidic, destructive enzymes produced by bacteria. This leading adjunctive can also reduce pocket depths by up to 42% over 12 weeks when combined with scaling and root planning.

For more information please contact John Jesshop at Blackwell Supplies on 07971 128077 or email john.jesshop@blackwell-supplies.co.uk

Buy 2 Practice-safe sprays
and receive a 20% discount

Surgery professionals appreciate the versatility of PracticeSafe spray. Not only can it disinfect the alcohol resistant surfaces of a Dental Practice but medical products such as band and angle pieces can be cleansed and disinfect to a very high standard.

With a choice of 3 programme cycles – small load, normal load and a double wash for heavily contaminated instruments – UltraClean II is also claimed to have a high load capacity of 6 dental trays per cycle, making cleaning more cost effective.

Help Patients
Keep Teeth And
Gums Healthy,
Wherever They Are

It can take time to help patients attain a high standard of oral and dental care. With Travel Sets from Curaprox you can make sure that patients keep to their regimen wherever they go.

These attractive boxes contain everything your patients need including a mini tube of Curasept toothpaste (with 0.05% of the potent bactericide Chlorhexidine and 0.05% fluoride), a modified Curaprox CS3960 toothbrush with a detachable handle and super soft head and an anatomically shaped tartar stick, featuring a patented mineral-based surface that has been designed to make tartar removal much easier.

As part of their drive to provide dentists with a range of integrated decontamination solutions, Prestige Medical has announced the launch of Ultra-Clean II – a bench top washer/disinfector/dryer which they claim will give guaranteed compliant performance to the ‘best practice’ standard in the HTM 01-05 guidelines.

When used in conjunction with an autoclave that can run in vacuum or non vacuum mode, Prestige Medical say that UltraClean II will allow a seamless, hands free process from cleaning to sterilization in the autoclave, which should help to eliminate sharp injuries and instrument damage.

More information is available from Prestige Medical direct by calling 01254 844 105 or email sales@prestigemedical.co.uk

New DUO

The new and improved DUO boasts advanced features in ergonomics, accessibility and comfort and its unveiling was well received by delegates at the International Dental Show in Cologne in March 2009.

Renowned for its outstanding range of Dental units, Castellini has once again called upon the latest in technology and design to create a highly efficient and immaculately designed system to suit all dental practices.

Introducing the NEW DUO

For further information about the comprehensive range of Castellini products call 0780 756 8210 or visit www.castellini.com.

Mr Artio™ “Tools for a True Artist”

Mr. Artio™ – he is so light and agile with an ergonomic grip and super strong tips, the DENTSPLY team often wonder how they would cope without him. He simply loves creating works of art with his DENTSPLY restorative friends!

OpusDent

OpusDent is delighted to announce that their new Velopex Laser Fibres work perfectly with the Opus 5 and Opus 10 Dental Diode Lasers. These 520 micron flexible fibres are sheathed in a white plastic outer. These fibres work superbly with either the Velopex Classic, or Colour, Diode Laser models.

Amaris Gingiva

For the highest standards in aesthetic dentistry, Amaris Gingiva is the only restorative that permits chairside gingival shade matching. This new gingiva-shaded, composite-based restoration system facilitates individual shade-matching using a combination of a base shade (natural) with three mixable opaque shades in white, light and dark. The result is a representative-tation of the gingiva that appears natural.

Deep Clean With The Pik Pocket™ Tip

The Waterpik® Dental Water Jet is rapidly becoming the dentists first choice for outstanding dental care, creating healthier gingival tissue and helping to prevent the progression of periodontal disease.

Panadent

HurriSeal

The product is the same as we had last year, but this year expiration date, the reason we have two years on it is because all new products have to go on stability before they can justify their expiration date whenever any changes are made, in this case with the container. The product passed an accelerated three month which justifies a two year expiration and it’s currently in the midst of an accelerated six months to justify the three year expiration. The next batch will have three years on it, this batch however won’t be manufactured till August.

Eliminate Bad Breath

Periproductions specialises in premium oral hygiene products, incorporating the latest technology.

Deep Clean With The Pik Pocket™ Tip

The Waterpik® Dental Water Jet is rapidly becoming the dentists first choice for outstanding dental care, creating healthier gingival tissue and helping to prevent the progression of periodontal disease.

As part of our commitment to Fresh Breath Clinics we have produced a Fresh Breath Kit and a “How to set up a Fresh Breath Clinic Manual” available with the purchase of the kits.
