Highline
Highline bespoke healthcare storage solutions, from Support Chairs, are the ultimate answer in mobile storage systems. Their Orthodontic Trolleys incorporate a variety of features designed to make Orthodontic Treatment even easier and more efficient.

Composed of modules, containing sets of 4 different drawer sizes, they can be combined in one of nine models to create units of the required height, width and mixture of drawer sizes. Some models feature an open space for storing equipment etc or a glass fronted cupboard with a height adjustable shelf.

Stylish and efficient, Highline Orthodontic Trolleys are constructed from aluminium, steel and high quality plastics, which are resistant to most stains including blood. Drawer fronts are available in either simulated aluminium or navy metallic finish.

For further information contact Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk

Regular Care for your Handpieces!
Correct and regular maintenance is the key to prolonging the life of your valuable instruments and considerably reducing your repair costs. NSK’s Care Plus is a simple and reliable way to care for all your high and low speed handpieces.

At the touch of a button, Care 3 Plus automatically cleans and lubricates up to 5 instruments, at one time, in less than 2 minutes, ensuring superb handpiece performance is maintained at all times. Featuring a unique rotational Maintenance System, Care 3 Plus ensures all low speed handpieces rotate continuously throughout the cleaning process, guaranteeing that maintenance solution is delivered to even the hardest to reach parts of the handpiece.

Take care of all your handpieces with NSK’s Care3 Plus. For more information please contact Jane White at NSK on 0800 6514969 or your preferred dental supplier.

New Sirona XIOS sensors generate intraoral images in just a few seconds
The new Sirona XIOS sensors combine the advantages of digital X-ray and cutting-edge imaging technology. "Digital X-ray speeds up the examination process, reduces radiation doses and delivers more precise diagnostic information," explains Kerstin Buchner, Product Manager of the Sirona Imaging Systems Division. "The Sirona XIOS is a fully digital sensor system that generates X-ray images practically in real time and thus speeds up and simplifies treatment workflow. Thanks to their slimline design and rounded edges, the sensors are easy to place in the patient’s mouth."

The flat cable exit on the rear of the sensor likewise facilitates the easy positioning of the sensor.

For further information please contact: Sirona Dental Systems 01843 701 5040 Info@sironadental.co.uk

Orthospace Interproximal Reduction System
Attention Aligners Users! If you are using aligner appliances then the Orthospace Interproximal Reduction System is the system for you.

Today, retainer type appliances are more popular than ever. The Orthospace Interproximal Reduction System makes creating the required spaces for this type of treatment easy and efficient.

Orthospace is a thin flexible interproximal tool, which facilitates the re-contouring of enamel and many types of dental materials. It also enables re-distribution of the interproximal tooth structure correcting the inadequate space, caused by an insufficient arch length.

The kit comprises of 1 x Handpiece EVA System, 1 x Extractor, 1 pack of Files 7 pieces, 1 set of Wedges, 1 set of Measuring Gauges (12 pieces) & 1 x Tweezers for Wedges.

The Dental Directory is offering the Orthospace Kit at £595.00 and until end of June, buy the Kit and receive a pack of 7 Files free, worth £159.65.

For more information call The Dental Directory on 01576 591 291.

Tricky Situation … not with StarFlow!
Permanent retention is increasingly being recommended as the only way to ensure long-term stability of orthodontic treatment and more and more dentists have found that StarFlow from Danville Materials is the perfect solution to bond lingual or labial permanent wire retention.

Each seal is manufactured to order so that they meet all the incumbent’s needs including specific requirements on colours and materials. Support Chairs also offer a wide range of accessories so that the Stool can be customized to the operator’s specific needs.

Support Stools are now also available with a new Swing and Swing Mini Armrest.

For further information contact your regular Dental Dealer or Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

Powerfully Intelligent
NSK’s powerful Surge XT Plus is a surgical micromotor ideal for placement of mini implants often used in complex orthodontic treatment. Used primarily in conventional implant procedures, the Surge XT Plus combines accuracy, speed, torque and control.

With a growing reputation in surgical applications, the Surge XT Plus brings a new dimension of control through NSK’s innovative and unique Advanced Torque Calibration (ATC).

Boding can be a tricky job especially on vertical tooth surfaces, but Starflow makes easy work of it, as it’s a super low viscosity flowable composite that resists slumping and gravitational forces, staying in place until you are ready to permanently light-cure your retention.

Available in 5gm and 1gm single patient use syringes, Starflow also provides long-term fluoride release and has the highest compressive strength of any flowable composite available, so it’s unlikely to break or shear once placed.

To bond your retainers with confidence please contact Ex-
dent on FreeCall 0500 521111 or visit www.evident.co.uk

Ergonomically designed for optimum comfort!
Support Stools, from Support Chairs, are the product of world class Swedish furniture design by Bruno Mathsson. They have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent's back and provide maximum comfort. The fully adjustable back support and bowl-shaped seat ensure a proper posture.

Oral Relief Gel (does NOT contain Choline Salicylate!)
Ortho-Care (UK) Ltd, has launched its long awaited and highly requested Oral Relief Gel. It has been specially formulated
with analgesic properties to relieve pain and help reduce inflammation. Its antiseptic properties help to treat infections in mouth ulcers caused by braces and other fixed appliances. The Gel is pleasant tasting as well as being mild when applied to the affected area. Great news especially for the younger patient!

Oral Relief Gel is available in over the counter display units containing 12 handy sized tubes.

For information call Customer Services on 01274 791081 Email info@orthocare.co.uk or visit the website www.orthocare.co.uk.

New and Improved

NSK’s Prophy-Mate neo is a reliable and user-friendly air polishing system and is the perfect instrument for orthodontists to effectively clean and polish before bond-up, during treatment when changing arch wires and after de-bonding.

Thanks to its original detachable 360° front-end swivel connection and newly introduced selectable 60° and 80° tips, this compact, lightweight system now delivers greater polishing power directly onto the tooth surface. An all-round tooth polishing system, Prophy-Mate neo can polish all anterior teeth, re-move stains and polish teeth after de-bonding making these routine procedures easier and more efficient than ever before.

A 24/7 Client Legal Helpline is also available, providing access to a dedicated call centre team of legal consultants, barristers, solicitors and legal executives.

For more information contact Professional Fee Protection on 0845 587 1177 or email info@pfp.com www.pfponline.com.

Come to a Town near you!

Sirona Dental Systems are pleased to invite you to attend a live demonstration of the revolutionary CEREC chairside system at a local practice near you.

This will give you the perfect opportunity to see the CEREC System up close with a live demonstration, carried out by a local practitioner, without obligation.

The first CEREC System was introduced over 20 years ago, and is now accepted proven technology. The CEREC system is constantly evolving and progressing as the most innovative chairside restoration system in the market place today.

CEREC is clinically proven; it offers superbly aesthetic, long term and durable restorations for your patients in a single visit whilst also generating outstanding extra income for your dental practice.

Take the plunge and call Sirona Dental Systems on 0845 671 9140 for details of a live demonstration close to you.

Sirona – the dentist’s choice for CEREC.

The muco-adhesive properties of Xantan gel, containing a 1.5% concentration of Chlorhexidine, formulated as one third fast releasing dichloroacetone and two thirds slow releasing dihydrochloride. This enables the Xantan gum to retain its microbiological integrity, and the chlorhexidine also adheres to the gel contamination-free for 15 days.

Of particular use as an ad-junctive in the management of periodontal and peri-implant pocket management, Chlo-Site does not induce bacterial resist-

Effective

Peri-odontal Healing With Chlo-Site Gel

Chlo-Site Gel provides clinicians with a straightforward and non-surgical periodontal healing aid. The round-tip needle lets the clinician apply Chlo-Site to the deepest part of peri-

odontal pockets while the innova-
tive design minimises trauma to the surrounding tissue.

Chlo-Site is a unique type of Xantan gel, containing a 1.5% concentration of Chlorhexi-
dine, formulated as one third fast releasing dichloroacetone and two thirds slow releasing dihydrochloride. This enables the Xantan gum to retain its microbiological integrity, and the chlorhexidine also adheres to the gel contamination-free for 15 days.

Preparation with Mrs. Hi-Di® Diamond Burs

Mrs. Hi-Di® is well re-
spected – with her years of expe-
rience, she is a key asset to the team. Her mastery over the di-
amond grit mean that she is reli-
able & durable and always runs true. She ensures most clinical situations are met with her various patterns and she’s always kind to your hands piece.

DENTSPLY’s Indirect Restora-

tion Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products, such as Hi-Di Diamond Burs, fit each step of this proce-

dure, making it quicker and easier

Now in convenient SingleDose blisters

Futurabond M
High adhesion values on enamel and dentine, quick and simple application as an all-in-one and one-step adhesive as well as high tolerance to moisture – these are the properties that distinguish Futurabond M. The new adhesive from VOOCO is a nano-particle reinforced, light-curing, one-component, self-etch bond for building a durable, adhesive bond with excellent marginal integrity between tooth substance and restorative.

Convenient and hygienic SingleDose

Futurabond M now also comes in the convenient and hygienic SingleDose blisters. This unit dose delivery system is simply opened with the applicator, and the bond is ready for application. One coat is sufficient: this shortens the entire bonding process to only 35 seconds. The blister is gas-tight and does not have to be shaken. This system greatly facilitates cross-infection control procedures in the dental clinic.

Manufacturer: VOOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.vooco.com

For more information contact Tim McCarthy, Mobile: 07500-709-615, or email t.mccarthy@vooco.com

Adjuvative Therapies And The Fight Against Periodontitis

Adjuvant treatments doubtless have an essential role. When used from the outset in combination with scaling and root planing, they provide the most effective method of ensuring good results and patient satisfaction in the treatment of periodontal disease.

For example, the most cost effective option, Dentomycin, has several beneficial actions. It combats the wide range of harmful bacteria thought to be prevalent in periodontal disease, and is also a highly effective anti-inflammatory. It enables the clinician to reach areas that are hard to access with instruments alone, and attacks the acidic, destructive enzymes produced by bacteria. This leading adjuvantic can also reduce pocket depths by up to 42% over 12 weeks when combined with scaling and root planing.

For more information please contact John.Jesshop@blackwell-supplies.co.uk or email john.jesshop@blackwell-supplies.co.uk

Buy 2 Practice-safe sprays and receive a 20% discount

Surgery professionals appreciate the versatility of PracticeSafe sprays. Not only can it disinfect the alcohol resistant surfaces of a Dental Practice but medical products such as band and angle pieces can be cleansed and disinfectated to a very high standard.

PracticeSafe disinfectant spray is alcohol based and highly effective against MRSA/HBV/HIV/IVC/DVDY/vaccinia, tuberculo-cidial, hospitalism prophylaxis, bacteriolytic, fungicidal.

This highly effective spray is available in a choice fragrance, Dentists, hygienists and dental nurses can choose a disinfec-tant spray with an odour to suit their mood! It is available in neutral, lemon, fruit and flower fragrances.

To take advantage of this excellent special offer ring Jackie or Helen on 01795 770256 or visit our website www.kemdent.co.uk

Genus

Genus Group has built its outstanding reputation on quality, reliable construction and refurbishment. A family-run company with a focus on teamwork and communication, Genus enables clients to realise their vision, guiding the project from planning through to completion.

Genus combines flexible services including interior con-

structure and design with outstanding space planning. Genus will impress with state of the art workplace designs and interiors that are perfectly suited to the unique demands of the dental industry.

Genus oversee every element of the project to ensure that everyone involved is working towards the same goal, pooling skills to complete both outstanding, and beautiful results. Whilst Genus does not supply equipment they are happy to offer client’s with assistance and independent advice on technical solutions.

Help Patients Keep Teeth And Gums Healthy, Wherever They Are

It can take time to help pa-
tients attain a high standard of oral and dental care. With Travel Sets from Curaprox you can make sure that patients keep to their regimen wherever they go.

These attractive boxes contain everything your patients need including a mini tube of Curasept toothpaste (with 0.05% of the potent bactericidal Chlorhexidine and 0.05% fluo-
ride), a modified Curaprox C5900 toothbrush with a de-tachable handle and super-soft head and an anatomically shaped tartar stick, featuring a patented mineral-based surface that has been designed to make tartar removal much easier.

Travel Sets are the perfect size for patients to carry anywhere, fitting easily into handbags, gym bags and hand luggage for patients going on holiday. The Travel Sets packed in packs of 12 and refills are readily available to help pa-
tients keep their travel sets fully stocked.

Prep&ster Medical launches new ‘clean machine’

As part of their drive to pro-
vide dentists with a range of in-
tegrated decontamination solu-
tions, Prestige Medical has an-
nounced the launch of Ultra-
Clean II – a bench top washer/disinfector/dryer which they claim will give guar-
anted compliant performance to the ‘best practice’ standard in the HTM 01-55 guidelines.

With a choice of 3 pro-
gramme cycles – small load, normal load and a double wash for heavily contaminated in-
struments – UltraClean II is also claimed to have a high load ca-
pacity of 6 dental trays per cycle, making cleaning more cost ef-

cfective.

Software of Excellence
Introducing the NEW DUO

The new and improved DUO boats advanced features in ergonomies, accessibility and comfort and its unveiling was well received by delegates at the International Dental Show in Cologne in March 2009.

Renowned for its outstanding range of Dental units, Castellini has once again called upon the latest in technology and design to create a highly efficient and immaculately designed system to suit all dental practices.

Mr Artio™ “Tools for a True Artist”

Mr. Artio – he is so light and agile with an ergonomic grip and super strong tips, the DENTSPLY team often wonder how they would cope without him. He simply loves creating works of art with his DENTSPLY restorative friends!

A substantial number of delegates attended the first seminars hosted by the company felt the courses proved invaluable in relation to important aesthetic dentistry topics. Developed to help further strengthen the skills of dental teams by enabling dental practitioners to achieve greater client care and long-term success individually, the courses will continue to run throughout the year at various locations.

Hands on tutorials enabled participants to evaluate and test the vast selection of Ivoclar Vivadent products that are relevant to implement these strategies.

For more information on other seminars being run by Ivoclar Vivadent please call 0116 284 7880.

Amaris Gingiva

For the highest standards in aesthetic dentistry, Amaris Gingiva is the only restorative that permits chairside gingival shade matching. This gingiva-shaded, composite-based restoration system facilitates individual shade-matching using a combination of a base shade (mat) with three mixable opaque shades in white, light and dark. The result is a representation of the gingiva that appears natural.

DENTSPLY’s Indirect Restorative Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quicker and easier to ensure an accurate, long lasting restoration and help you to “get it right first time”.

Restorative Hand Instruments with Mr Artio™ “Tools for a True Artist”

For more information, please contact your local DENTSPLY Product Specialist on: +44 (0)8000 722515 or visit our website: www.dentsply.co.uk.

OpusDent support

Velopex are delighted to announce that their new Velopex Laser Fibreamin perfect with the Opus 5 and Opus 10 Dental Diode Lasers. These 520 micron flexible fibres are sheathed in a white plastic outer. These fibres work superbly with either the Velopex Classic, or Colour, Diode Laser models.

Through this principle, behind which the proven Amaris-know how stands, extensively exposed cervices are caused by gingival recession and wedge-shaped defects in the cervical area can be controlled in the future, both functionally and aesthetically. With Amaris Gingiva, the high standard placed on the capacity of the restoration composites no longer has to end at the cervical boundary. This new material permits the reconstruction of the ‘red, white’ boundary with a predictable result.

Manufacturer: VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.voco.com

For more information contact Tim McCarthy, Mobile: 07508-769-615 or email jmcCarthy@voco.com.

Deep Clean With The Pik Pocket™ Tip

The Waterpik® Dental Water Jet is rapidly becoming the dentists first choice for outstanding dental care, creating healthier gingival tissue and helping to prevent the progression of periodontal disease.

Teamed with regular brushing, the Waterpik® has seen amazing survey results including a significant reduction in gingival bleeding (up to 95 %) and a reduction in gingivitis compared to regular brushing and flossing (up to 92%).

The biggest problem with periodontal pockets is daily cleaning, but using the Waterpik® dental water jet with a Pik Pocket™ subgingival delivery tip will allow easy and gentle deep cleaning, even for pockets of up to 6mm.

For your professional courtesy discount on the Water-pik® Dental Water Jets speak to your wholesaler or visit www.waterpik.co.uk. The product is also widely available in Boots stores.

Pandent HurriSeal

The product is the same as we had last year, the three year expiration date, the reason we have two years on it is because all new products have to go on Stability before they can justify their expiration date whenever any changes are made, in this case with the container. The product passed an accelerated three month which justifies a two year expiration and it’s currently in the midst of an accelerated six months to justify the three year expiration. The next batch will have three years on it, this batch however won’t be manufactured till August.

Eliminate Bad Breath

Periprroducts specialises in premium oral hygiene products, incorporating the latest technology.

RetarDex Oral Rinse, Spray and Toothpaste, are highly effective, well-researched and clinically proven oral health care products. The active ingredient, in this range chemically degrades odour-causing volatile sulphur compounds (VSC) on contact, thus eliminating, not masking, bad breath. It is a highly effective dental germicide and plaque retardant. Re-tarDex Oral Rinse and spray are free from alcohol and pH balanced. Whilst retardDex Toothpaste is non-foaming as it does not contain sodium lauryl sulphate (SLS).

As part of our commitment to Fresh Breath Clinics we have produced a Fresh Breath Kit and a ‘How to set up a Fresh Breath Clinic Manual’ available with the purchase of the kits.

For further information please contact Periproducts Ltd, Tel: 020 8868 1500 Fax: 020 868 9011, E-Mail: sales@periproducts.co.uk.
