Highline

Highline bespoke healthcare storage solutions, from Support Chairs, are the ultimate answer in mobile storage systems. There Orthodontic Trolleys incorporate a variety of features designed to make Orthodontic Treatments even easier and more efficient.

Composed of modules, containing sets of 4 different drawer sizes, they can be combined in one of nine models to create units of the required height, width and mixture of drawer sizes. Some models feature an open space for storing equipment etc or a glass fronted lockable cupboard with a height adjustable shelf.

Stylish and efficient, Highline Orthodontic Trolleys are constructed from aluminium, steel and high quality plastics, which are resistant to most stains including blood. Drawer fronts are available in either simulated aluminium or navy metallic finish.

For further information contact Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk

New Sirona XIOS sensors generate intraoral images in just a few seconds

The new Sirona XIOS sensors combine the advantages of digital X-ray and cutting-edge imaging technology. "Digital X-ray speeds up the examination process, reduces radiation doses and delivers more precise diagnostic information," explains Kerstin Buchner, Product Manager of the Sirona Imaging Systems Division. "The Sirona XIOS is a fully digital sensor system that generates X-ray images practically in real time and thus speeds up and simplifies treatment workflow. Thanks to their slimline design and rounded edges, the sensors are easy to place in the patient's mouth."

The flat cable exit on the rear of the sensor likewise facilitates the easy positioning of the sensor.

For further information please contact: Sirona Dental Systems 0845 071 5040 Info@sironadental.co.uk

Regular Care for your Handpieces!

Correct and regular maintenance is the key to prolonging the life of your valuable instruments and considerably reducing your repair costs. NSK's Care+ Plus is a simple and reliable way to care for all your high and low speed handpieces.

At the touch of a button, Care+ Plus automatically cleans and lubricates up to 5 instruments, at one time, in less than 2 minutes, ensuring superb handpiece performance is maintained at all times. Featuring a unique rotational maintenance system, Care+ Plus ensures all low speed handpieces rotate continuously throughout the cleaning process, guaranteeing that maintenance solution is delivered to even the hardest to reach parts of the handpiece.

Take care of all your handpieces with NSK's Care+ Plus. For more information please contact Jane White at NSK on 0800 6541909 or your preferred dental supplier.

Orthospace Interproximal Reduction System

Attention Aligners Users! If you are using aligner appliances then the Orthospace Interproximal Reduction System is the system for you.

Today, retainer type appliances are more popular than ever. The Orthospace Interproximal Reduction System makes creating the required spaces for this type of treatment easy and efficient.

Orthospace is a thin flexible interproximal tool, which facilitates the re-contouring of enamel and many types of dental materials. It also enables reduction of the interproximal tooth structure correcting the inadequate space, caused by an insufficient arch length.

The kit comprises of 1 x Handpiece EVA System, 1 x Extractor, 1 pack of Files 7 pieces, 1 set of Wedges, 1 set of Measuring Gauges (12 pieces) & 1 x Tweezers for Wedges.

The Dental Directory is offering the Orthospace Kit at £595.00 and until end of June, buy the Kit and receive a pack of 7 Files free, worth £159.05.

For more information call The Dental Directory on 01576 591 291.

Orthospace is so easy to use, and your patients can achieve the same results at home. With Platypus the entire mouth can be flossed in just 1-2 minutes. The best bit is, the Platypus is so easy to use, and your patients can achieve the same results at home. Please contact us for further information or a sample.

Ortho 25

Ergonomically designed for optimum comfort!

Orthostool, from Support Chairs, are the product of world class Swedish furniture design by Bruno Mathsson. They have been developed for professionals working in sedentary positions, where both body support and the ability to move freely are essential. The seat and back of the Support Stool is designed to take the weight off the incumbent's back and provide maximum comfort. The fully adjustable back support and bowl-shaped seat ensuring a proper posture.

Each seat is manufactured to order so that they meet all the incumbent’s needs including specific requirements on colours and materials. Support Chairs also offer a wide range of accessories so that the Stool can be customised to the operator’s specific needs.

For further information contact your regular Dental Dealer or Support Chairs on 01296 581764, fax 01296 586585, email sales@supportstool.co.uk or visit www.supportstool.co.uk.

oral Relief Gel (does NOT contain Choline Salicylate!)

Ortho-Care (UK) Ltd, has launched its long awaited and highly requested Oral Relief Gel. It has been specially formulated
with analgesic properties to relieve pain and help reduce inflammation. Its antioxidant properties may also offer light infection in mouth ulcers caused by braces and other fixed appliances. The Gel is pleasant tasting as well as being mild when applied to the affected area. Great news especially for the younger patient!

Oral Relief Gel is available in over the counter display units containing 12 handy sized tubes.

For information call Customer Service on 01 8174 377, Email info@orthocare.co.uk or visit the website www.orthocare.co.uk

New and Improved

NSK’s Prophy-Mate neo is a reliable and user-friendly air polishing system and is the perfect instrument for orthodontists to effectively clean and polish before bond-up, during treatment when changing arch wires and after de-bonding.

Thanks to its original detachable 360˚ front-end swivel connection and newly introduced selectable 60˚ and 80˚ tips, this compact, lightweight system now delivers greater polishing power directly onto the tooth surface. An all-round tooth polishing system, Prophy-Mate neo can clean enamel and dentin, remove stains and polish teeth after de-bonding making these routine procedures easier and more efficient than ever before.

Now, you can combine Prophy-Mate neo with FLASH pearl, NSK’s new and effective prophylaxis cleaning powder. FLASH pearl quickly and safely removes stains, plaque and calculus for perfect cleaning and a sparkling result every time.

For more details or a free sample of FLASH pearl please contact Joe White at NSK on 0800 6541 809 or your preferred dental supplier.

Have you heard about NSK Advantage? Benefit from huge savings of up to 40% on high street brands with NSK’s new customer benefit scheme. For more information visit www.peoplevalue.co.uk/nsk-advantage.

Coming to a Town near you!

Sirona Dental Systems are pleased to invite you to attend a live demonstration of the revolutionary CEREC chairside system at a local practice near you.

This will give you the perfect opportunity to see the CEREC System at close quarters with a live demonstration, carried out by a local practitioner, without obligation.

The first CEREC System was introduced over 20 years ago, and is now accepted proven technology. The CEREC system is constantly evolving and progressing as the most innovative chairside restoration system in the market place today.

CEREC is clinically proven; it offers superbly aesthetic, long term and durable restorations for your patients in a single visit whilst also generating outstanding extra income for your dental practice.

Take the plunge and call Sirona Dental Systems on 0845 671 0140 for details of a live demonstration close to you.

Sirona – the dentist’s choice for CEREC

Well Done to Marathon Man Dr Alfie Chan

On Sunday the 28th of March 2009, Dr Alfie Chan joined 17,000 fellow runners to tackle the Reading Half Marathon, raising money for Cancer Research in the process and finishing the event in the excellent time of 2 hours and 12 minutes!

A loyal client of Dental Business Solutions (IBS), the UK’s leading consultancy and accountancy firm, providing a range of services to dental professionals, Dr Chan joined the entire race wearing the colours of the company, with the name of IBS Partner George Manolescue, who has recently been diagnosed with Hodgkin’s Lymphoma.

The muco-adhesive properties of Xanthan gel, containing a 1.5% concentration of Chlorhexidine, formulated as one third fast releasing dihydrogen and two thirds slow releasing dihydrochloride. This enables the Xanthan gum to retain its microbicidal integrity, and the chlorhexidine also clears the gel contamination-free for 15 days.

Chlo-Site is a unique type of Xanthan gel, containing a 1.5% concentration of Chlorhexidine, formulated as one third fast releasing dihydrogen and two thirds slow releasing dihydrochloride. This enables the Xanthan gum to retain its microbicidal integrity, and the chlorhexidine also clears the gel contamination-free for 15 days.

For further information on Chlo-Site from Oraldent, please contact 01480 862080.

Preparation with Mrs. Hi-D® Diamond Burs

Mrs. Hi-D® is well-received - with her years of experience, she is a key asset to the team. Her many years of an expe- dient grit mean that she is reliable & durable and always runs true. She ensures most clinical situations are met with her various patterns and she’s always kind to your handspieces.

DENTSPLY’s Indirect Restora- tion Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products, such as Hi-D Diamond Burs, fit each step of this procedure, making it quicker and easier...
Now in convenient SingleDose blisters

Futurabond M

High adhesion values on enamel and dentine, quick and simple application as an all-in-one and one-step adhesive as well as high tolerance to moisture - these are the properties that distinguish Futurabond M. The new adhesive from VOOCO is a nano-particle reinforced, light-curing, one-component, self-etch bond for building a durable, adhesive bond with excellent marginal integrity between tooth substance and restorative.

Convenient and hygienic SingleDose

Futurabond M now also comes in the convenient and hygienic SingleDose blisters. This unit dose delivery system is simply opened with the applicator, and the bond is ready for application. One coat is sufficient: this shortens the entire bonding process to only 35 seconds. The blister is gas-tight and does not have to be shaken. This system greatly facilitates cross-in-fec tion control procedures in the dental clinic.

Manufacturer: VOOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.vooco.com

Adjunctive Therapies And The Fight Against Periodontitis

Adjunctive treatments doubtless have an essential role. When used from the outset in combination with scaling and root planning, they provide the most effective method of ensuring good results and patient satisfaction in the treatment of periodontal disease.

For example, the most cost effective option, Dentrornyin, has several beneficial actions. It combats the wide range of harmful bacteria thought to be prevalent in periodontal disease, and is also a highly effective anti-inflammatory. It enables the clinician to reach areas that are hard to access with instruments alone, and attacks the acidic, destructive enzymes produced by bacteria. This leading adjunctive can also reduce pocket depths by up to 42% over 12 weeks when combined with scaling and root planing.

For more information please contact John Jesshop at Blackwell Supplies on 07971 128077 or email john.jesshop@blackwellsupplies.co.uk

**Seminar Success for Ivoclar Vivadent**

An extremely favourable response has been received from those who attended the Ivoclar Vivadent seminars recently held in Lichtenstein and the UK. Many have stated the positive benefits and relevance in attending the workshops, with some expressing an interest to attend future seminars that will be held later in the year on a variety of topics.

Through this principle, behind which the proven Amaris-know how stands, extensively exposed cervical areas caused by gingival recession and wedge-shaped defects in the cervical area can be controlled in the future, both functionally and aesthetically. With Amaris Gingiva, the high standard placed on the capacity of the product, pores no longer has to end at the cervical boundary. This new material permits the reconstruction of the 'red' boundary with a predictable result.

**Manufacturer:** VOCO GmbH, PO Box 767, 27457 Cuxhaven, Germany, www.voco.com

**Mr Artio™ “Tools for a True Artist”**

Mr. Artio™ – he is so light and agile with an ergonomic grip and super strong tips, the DENTSPLY team often wonder how they would cope without him. He simply loves creating works of art with his DENTSPLY restorative friends!

DENTSPLY’s Indirect Restorative Team understand that crown & bridge restorations are amongst the most demanding procedures carried out by a dentist, with high expectations from their patients. DENTSPLY’s quality, branded products fit each step of this procedure, making it quicker and easier to ensure an accurate, long lasting restoration and help you to “get it right first time”.

**Restorative Hand Instruments with Mr Artio™ “Tools for a True Artist”**

For more information, please contact your local DENTSPLY Product Specialist on: +44 (0)8000 723315 or visit our website: www.dentsply.co.uk.

---

**Amaris Gingiva**

For the highest standards in aesthetic dentistry, Amaris Gingiva is the only restorative that permits chairside gingival shade matching. This new gingiva-shaded, composite-based restoration system facilitates individual shade-matching using a combination of a base shade (nature) with three mixable opaque shades in white, light and dark. The result is a representative-tation of the gingiva that appears natural.

**OpusDent support**

Velopex are delighted to announce that their new Velopex Laser Fibres work perfectly with the Opus 5 and Opus 10 Dental Diode Lasers. These 320 micron flexible fibres are sheathed in a white plastic outer. These fibres work superbly with either the Velopex Classic, or Colour, Diode Laser models.

**Deep Clean With The Pik Pocket™ Tip**

The Waterpik® Dental Water Jet is rapidly becoming the dentists first choice for outstanding dental care, creating healthier gingival tissue and helping to prevent the progression of periodontal disease.

Teamed with regular brushing, the Waterpik® has seen amazing survey results including a significant reduction in gingival bleeding (up to 95 %) and a reduction in gingivitis compared to regular brushing and flossing (up to 52 %).

The biggest problem with periodontal pockets is daily cleaning, but using the Waterpik® dental water jet with a Pik Pocket™ subgingival delivery tip will allow easy and gentle deep cleaning, even for pockets of up to 6mm.

For your professional courtesy discount on the Waterpik® Dental Water Jets speak to your wholesaler or visit www.waterpik.co.uk. The product is also widely available in Boots stores.

**Pandent HurriSeal**

The product is the same as we had before with the three year expiration date, the reason we have two years on it is because all new products have to go on stability before they can justify their expiration date whenever any changes are made, in this case with the container. The product passed an accelerated three month which justifies a two year expiration and it’s currently in the midst of an accelerated six months to justify the three year expiration. The next batch will have three years on it, this batch however won’t be manufactured till August.

**Eliminate Bad Breath**

Periproduts specialises in premium oral hygiene products, incorporating the latest technology.

RetarDEX Oral Rinse, Spray and Toothpaste, are highly effective, well researched and clinically proven oral health care products. The active ingredient, in this range chemically degrades odour causing volatile sulphur compounds (VSC) on contact, thus eliminating, not masking, bad breath. It is a highly effective dental germicide and plaque retardant. Re-tarDEX Oral Rinse and spray are free from alcohol and pH balanced. Whilst retardDEX Toothpaste is non foaming as it does not contain sodium lauryl sulphate (SLS).

As part of our commitment to Fresh Breath Clinics we have produced a Fresh Breath Kit and a ‘How to set up a Fresh Breath Clinic Manual’ available with the purchase of the kits.

For further information please contact Periproduts Ltd, Tel: 020 8888 1500 Fax: 020 886 9911, E-Mail: sales@periproduts.co.uk.
