The BDA is pleased to announce that the 2009 British Dental Conference and Exhibition will be held from June 4 to 6 2009 at the Scottish Exhibition and Conference Centre, Glasgow.

Based on the theme ‘Dentistry is transforming’, the conference programme will feature motivational, expert speakers who will inspire you to develop new ideas for your practice and enhance your career.

New clinical Speaker
Lara Dallaico, a Prosthodontist and Aesthetic specialist from Oral Design Milan, Italy, will talk about ‘Art and visual perception applied to aesthetic dentistry’. This speaker will give you insight into making your restorations fit your patient’s face while looking real and natural, a truly fascinating presentation not to be missed! Catch Lara Dallaico in the Lomond Auditorium from 2pm-5.30pm on Thursday June 4.

Charan Gill – Keynote speaker
Inspirational entrepreneur Charan Gill MBE, the man behind the Harlequin Leisure Group, will be the keynote speaker. He developed the largest Indian restaurant in the UK and built a reputation as Glasgow’s ‘Curry King’.

Cheryl Sheets – Main clinical speaker
Clinician, educator, author and lecturer Dr Cheryl Sheets will be presenting a day-long lecture on Friday June 5 2009 looking at ‘Meeting the demands of today’s aesthetic restorative practice’. Dr Sheets has a private practice in California and specialises in aesthetic rehabilitations, dentistry and implants. She is also Clinical Professor of Restorative Dentistry, USC School of Dentistry, Los Angeles and co-executive director of the Newport Coast Oral Facial Institute, an international non-profit teaching and research centre; considered to be one of the finest microsurgical training centres in the world.

Career and business development seminars
There will be a range of sessions focusing on career paths, setting up in practice, and business planning. If you are thinking of diversifying into areas such as dentistry and implants, the business development streams will help you explore opportunities in these areas.

Clinical seminars
You will also have the chance to attend a wide variety of clinical presentations covering topics such as management of failures, veneers, periodontology, caries detection and diagnosis, plus much, much more.

Exhibition-only tickets – FREE
You may be interested in attending the Exhibition only. If this is the case, you will be pleased to hear that this is FREE! Not only will you have access to 6,900 sq m of Exhibitors, but you will also be able to attend Exhibition hall seminars in the Exhibition hall throughout each day.

BDA Conference Exhibition

The dynamic DENTSPLY team will be showcasing their innovative and highly acclaimed products at the British Dental Association (BDA) British Dental Conference and Exhibition 2009. From the 4th-6th June, the Scottish Exhibition and Conference Centre, Glasgow will be host to some of the biggest names in dentistry.

DENTSPLY – Bringing Excellence To The BDA

CEREC AC Bluecam – Seen in a new light.
Sirona UK is a specialist division of Sirona Dental Systems, the manufacturer of the CEREC System, and has now for the last 6 years supplied and supported CEREC 2 CAD/CAM all-ceramic restoration system here in the UK.

With product simplicity key to the success of any dental practice, Sirona are now proud to launch their new CEREC AC Bluecam imaging unit making the CEREC even easier to use for the dentist.

Sirona has helped to successfully integrate CEREC into dental practices for over 22 years, with more than 24,000 systems now in worldwide use. It offers convincing long-term aesthetic restorations in one visit.

Sirona UK’s mission is to deliver satisfaction to the dentist using tried and tested in-surgery training methods supported by SIRONA specialists who are dedicated to your success.

Septodont will be at the BDA show in Glasgow to show why commitment to quality and innovative products have confirmed Septodont as the world leader of dental anaesthetics.

The BDA show will underline the success that N’Durance has experienced since its launch in October 2007. N’Durance® is a real landmark development for Septodont and comes after many years development in conjunction with a number of leading universities.

The revolutionary new dimer acid main matrix technology is unique and exclusive to Septodont and exhibits several outstanding advantages over existing material currently in the marketplace.

Today, Septodont are as committed as ever meeting the changing needs of the profession. So with numerous products in the final stages of development and the new CPD workshop being introduced, the future looks very bright.

To find out more information including details of our stand A46 call 0800 294 4700 or email bda@delegate.com.

Money Saving Offers from Kerr
Kerr realise that times are a little tough and are therefore placing greater emphasis on saving you money with regular, realistic promotions.

You can claim a FREE Bendi Curing Light worth over £600 when you purchase refills of Hercutite XRV Ultra composite, as well as making substantial savings on the various kit options.

For luting, Maxcem Elite takes cementation to the next level of simplicity. This self-etch, self-adhesive resin cement is perfect for all indirect restorations.

For luting, Maxcem Elite takes cementation to the next level of simplicity. This self-etch, self-adhesive resin cement is perfect for all indirect restorations.

Available at no charge to the dentist, the Plan is suitable for every practice, whether focusing on general or specialist treatments. Proven successful in the US market over the last 20 years, Munroe Sutton is now helping UK dentists enjoy a substantial increase in profits and develop and maintain strong relationships with patients.

As well as visiting the GSK stand (B27) delegates are invited to visit the iso-active ‘dome experience’ situated outside the main entrance on Friday 5th June. Visitors will have the opportunity to experience iso-active technology.

GlassSmile®Klinie Consumer Healthcare UK – Oral Care (stand B27)
GlassSmile®Klinie Consumer Healthcare (GSK) will showcase a number of new product launches at this year’s BDA Conference, including new Corsodyl® Daily Gum & Tooth Paste. This clinically proven toothpaste helps to maintain tight and firm gums and, unlike many regular toothpastes, over 67% of the ingredients are for the care of gingiva and teeth, up to twice the amount of many other toothpastes.

Sensodyne, Aquafresh and Macleans have launched a new unique range of toothpastes containing iso-active technology.

As well as visiting the GSK stand (B27), delegates are invited to visit the iso-active ‘dome experience’ situated outside the main entrance on Friday 5th June. Visitors will have the opportunity to try our new iso-active® foaming gel toothpastes and experience the next generation in oral care.

GSK are also sponsoring a special presentation on the topic of paediatric restoration by Peter Day, entitled “Trauma, Tears and Transplant” on Friday 5th June at 14:15 in Bideford Room 1.

For more information on kemdent products, please visit us on stand number A13 or if you are unable to attend the BDA call Jane White on 0800 6341909.

Have you heard about NSK Advantage? Benefit from huge savings of up to 40% on high street brands with NSK’s new customer benefit scheme.

P&G Professional Oral Health

Products sold in practices are often demonstrated to patients to ensure they’re being used correctly. In recognition of the time and effort this entails, P&G will include a free educational DVD and the white Oral-B II range of seven replacement heads with every Professional Care and Triumph prodcut sold. This is the first time the Profession have been given their own extra value pack sold only to dental professionals and by dental practices to help ensure patients use the right type of brush, the right way.

The launch of these packs coincides with some upgrades which are being launched into the Professional prior to Professional Care and Triumph ranges. The Professional Care 550 model has been streamlined and has the addition of a large sensor on the rear of the handle that will illuminate if too much pressure is applied. Next is ‘Professional Care 3000’. This model has been streamlined and has added another function.

For more information contact your P&G representative or call 0870-2421850.

GC Helping You to Help Your Patients

GC will be further promoting Minimal Intervention programme with two new products recently added to the range. GC Saliva-Check and Aquatec add another dimension by showing whether a patient carries a high level of Streptococcus mutans in the saliva. This chair-side diagnostic tool demonstrates whether a patient is at further risk of caries development, without the need for bacterial cultures.

To make your denture patients more comfortable, allowing for soft tissue to adjust properly after implant surgery, GC has introduced Tissue Conditioner. This all-in-one soft reliner and conditioning material is classed as the next generation of acrylic soft reline materials, patented by GC.

Another new product within GC’s portfolio is GC Initial II, the new One Body, Press-over Metal and Press-over Zircon systems. These feldspar based pressable ceramics demonstrate unsurpassed lifelike aesthetics in no time!

For further information please contact GC UK on 01908 218 999.

Maximise Your Potential

Visit PracticeWorks and take your practice to the next level!

PracticeWorks will be inspiring delegates to be the best at the British Dental Association (BDA) British Dental Conference & Exhibition 2009. From the 4th-6th of June 2009, dental professionals will be attending the Scottish Exhibition and Conference Centre, Glasgow to discover the impressive products and services of leading providers PracticeWorks.

The expert team will be showcasing the R4 Practice Management Software Version 3.0 that is currently transforming dental practices all over Britain. There is no need to install any software or back up the system with the new Managed Service.

Learn more about the extensive digital imaging products also from PracticeWorks such as the new 9500 Cone Beam CT Scanner. Professionals can now take high quality CBCT scans in the comfort of their own office. The incredibly high resolution ensures the anatomical information is undistorted, helping dentists give an accurate diagnosis.

For more information contact PracticeWorks on 0800 169 9692 or visit www.practiceworks.co.uk
