“The feedback we receive is incredibly rewarding!”

Dentists attending courses the brand new dental education facility in Manchester, DARE, have responded enthusiastically to the training they received.

Rachel Lurely Harvatt from Malmes Dental says, “The course was very informative and an absolute joy to attend due to the relaxed environment and smooth running of all the parts.”

Principal dentist and co-owner of the training facility, Phil Broughton, wants DARE to become a right of passage for clinicians. “DARE evolved from the need to provide dentists with education courses that are entertaining as they are academic. The aim is on gaining hands-on experience, in a friendly, relaxed environment.”

Phil adds, “DARE provides a place for practitioners to meet with a network of likeminded individuals on courses covering a broad range of disciplines. The feedback we receive from dentists who take part on our courses is incredibly rewarding!”

With courses ranging from restorative dentistry to training on how to administer bronchial orlo and fillers, there is a programme at DARE to suit everyone.

Dr Maria Retagui, Lecturer in Periodontology of UCL Eastman Dental Institute was awarded the Andre Schroeder Research Award at the 8th Symposium of the International Team for Implantology (ITI) in Geneva, Switzerland.

The ITI World Symposium has become one of the leading scientific meetings in implant dentistry and related fields. With more than 5000 participants, it provides an ideal setting for the presentation of the Award - not least because Professor Schroeder was one of the founders of the ITI.

In addition to Dr Retagui, the other authors/collaborators of the awarded project were Dr Ivan Wall (UCL Biochemical Engineering) and Professor Nikos Dimitriou (UCL Eastman Dental Institute). The project was part of Dr Retagui’s PhD project where Professor Dimitriou was the primary supervisor and Professor Mark Lewis (formerly of the UCL Eastman Dental Institute) the co-supervisor.

The ITI World Symposium has become one of the leading scientific meetings in implant dentistry and related fields. With more than 5000 participants, it provides an ideal setting for the presentation of the Award - not least because Professor Schroeder was one of the founders of the ITI.
Nobel Biocare – At the forefront of technological innovation

Nobel Biocare was delighted to be named OLA Best Exhibitor at the Dental Technology Show in Coventry this year. Nobel Biocare’s representatives were also on hand to discuss their comprehensive array of training and educational tools. These tools range from an anatomic tooth library, automatic cut-back functions and efficient CAD design tools make producing the perfect restoration as straightforward as possible.

Sensodyne Pronamel for Children & Aquafresh at EAPD Conference

GlaxoSmithKline Consumer Healthcare (GSK), manufacturers of Aquafresh and Sensodyne Pronamel are proud to be platinum sponsors of the European Academy of Paediatric Dentistry (EAPD) 10th annual congress which takes place 4th-6th, June in Harrogate. Visitors to the GSK stand (No 19) can find out more about Aquafresh’s support to dental practices in engaging their younger patients in good oral care habits from an early age through a range of educational materials and products.

Representatives will also be on hand to answer questions on Sensodyne Pronamel children, which has been specifically developed to help protect against the growing concern of acid erosion of children’s teeth.

As part of the education programme GSK will sponsor a pre-congress symposium on the topic of Tooth Surface Loss and its Restoration in Children and Adolescents on Thursday 3rd June with speakers including Professor David Bartlett. To find out more about the congress visit www.eapd-2010.org.uk/programme.htm

The Clinical Innovations Conference 2010 | the state of the nation

Dr. Sara Abdulla Alnour Aljily is a GDP from Madina Dental Centre in Doha, Qatar. “I heard about the Clinical Innovations Conference through Smile-on’s regular email updates. I decided to take part in this extraordinary gathering to widen my experiences and knowledge which I believed did really happen.”

“I have found the conference to be well organised and very professional with excellent speakers, which is of course the most important thing! Attending the conference has been a great experience and has helped update my skills. I’ll definitely be putting these skills to good use when I go back home.”

Organised by Smile-on and the AOG in association with The Dental Directory, the event succeeded in inspiring and motivating attendees, helping to raise standards in dentistry and enhance practitioners’ enjoyment of their chosen profession.

World leader Tavom enjoy success at the DTS 2010

Tavom was proud to exhibit at the recent Dental Technology Show 2010 at the Ricoh Arena in Coventry. As the largest dental technology showcase in Europe, the DTS promised delegates the chance to network with the individuals that are currently driving the industry forward – and it didn’t disappoint!

A world leader in dental furniture and cabinetry, Tavom invited delegates to experience the style and practicality of its designs first hand.

Included was the Evo Lab System, which provides comfort and ease of operation, whilst maximising the available space through innovative storage solutions. Boasting the perfect combination of outstanding aesthetic design, value and functionality, this cabinetry makes a vital contribution to the operating capability and efficiency of a dental laboratory.

Delegates enjoyed witnessing the durable, high quality, hygienic and aesthetically pleasing dental furniture and cabinetry, and left with a clear understanding of how Tavom can assist them in the future in creating a professional and functional practice that is a joy to work in.

For more information or a booking form please contact Suzy Rowlands on 0208 241 8526 or email suzy@bacd.com.

Improving Periodontal Health with Colgate Total Toothpaste
Maintaining an effective level of plaque control is a challenge for most individuals. The published consensus on evidence-based advice for improving periodontal health focuses on the key role of daily oral hygiene. 1

‘Delivering Better Oral Health – An evidence-based toolkit for prevention’ 1 guidance is supported by varying levels of evidence, from level 1 which is ‘strong evidence from at least one systematic review of multiple, well designed randomised control trials’, to level 5 evidence that is the consensus opinion of a group of experts.

Colgate Total toothpaste is for everyday use. It contains a unique combination of triclosan, an antibacterial agent, along with a copolymer. In addition to patient samples, Colgate have a number of resources to support patient recommendation of Colgate Total toothpaste, these include a waiting room poster for your practice to encourage your patients to seek advice from you on how to improve their gingival health, along with a patient information leaflet entitled ‘Helpful tips to keep your gums healthy’ to help you in your patient education.

For further information or to request patient samples, please call the Colgate Customer Care Team on 01483 401 901.

Septodont Ltd is proud to announce the launch of their new and improved website. Septodont collaborated with the marketing and design team of Six and Co to provide a more comprehensive source of company information and services. The new site features a fresh design, focused on delivering information pertaining to products and services in an easy to navigate, aesthetically pleasing approach. Septodont General Manager Mike Cann has led the online development and believes that the new site better reflects the company’s ethos and key messages.

“This represents a significant advance for Septodont in the UK, coming at a time when we are bringing many new products to market and continuing investment into the development of others. It is vital that our website effectively communicates who we are and our capabilities in working with dentists around the UK.”

We hope you will enjoy surfing the site. Your comments and suggestions are most welcome, through the site’s “Contact” facility. For more information about Septodont and to see the new website please visit www.septodont.co.uk.

Quickslieper 2010 Hands On Training Sessions Now Taking Bookings

General Medical are UK Distributors for Quicksleeper, the computer controlled local anaesthetic system that delivers profound anaesthesia quickly, easily and painlessly. They will be running Hands On Training Sessions in Glasgow (Friday 18th June), Edinburgh (Saturday 19th June), Southampton (Friday 17th September), Bath (Friday 24th September), Hornchurch (First 1st October), Birmingham (Friday 15th October), Manchester (Friday 19th November) and Barnsley (Friday 26th November).

Quickslieper enables Dentists to perform Osteocentral Anaesthesia whereby a small amount of conventional local anaesthetic is placed in the spong bone in between teeth. Eliminating the need for painful infiltration, block and palatal injections it delivers a profound anaesthesia almost instantaneously; a real Practice Builder, especially when treating children and other potentially nervous patients.

Using Quicksleeper it is possible to anaesthetize between 2 and 8 teeth with just one injection without the need for additional palatal or buccal injections – enabling more treatment to be performed per session.

Places are strictly limited so to book your place contact General Medical on 01380 734990, visit www.generalmedical.co.uk or email info@generalmedical.co.uk
