Scientific seal of approval for the implant planning and implementation of the GALILEOS system

Scientists at Cologne University subjected Sirona’s GALILEOS 3D X-ray system to intensive testing over a period of two years. These experts were convinced by the system’s accuracy, as well as its intuitive user interface.

Sirona is the only manufacturer worldwide which offers an integrated concept consisting of 3D imaging as well as computer-aided implant planning and implementation. In combination the GALAXIS 3D X-ray software and the GALILEOS System requires only one scan in order to visualise the entire cranial volume.

With the help of integrated software application “GALILEOS Implant™” the practitioner can plan the implants on the same user interface. This planning data, together with a plaster impression and bite registration, is then sent to the Sirona subsidiary SfCAT in Bonn. In a matter of days the practitioner receives the custom-made surgical template.

Videocam Practical and Precise

The remarkable Videocam from Castellini perfectly illuminates the operating area with LED flash technology and has the ideal capacity for clinical observation.

Easily facilitated by the wealth of software available in the Videocam System, images captured in this system can be used in a variety of applications and can help patients better understand diagnosis and treatment options.

The Soft-Touch command allows crisp images to be captured using a dental foot control, without the use of a flash. These images boast outstanding clarity and sharpness and can be simply transferred to a PC via USB 2.0.

Interlucal exams are simplified by the Videocam’s miniaturised head and Macro function. This outstanding feature allows the Videocam to translate even the smallest details and create high-resolution, natural coloured images that are accurate and precise.

Castellini pride itself on producing the highest quality technology so you can provide your patients with the highest quality care.

For further information about the comprehensive range of Castellini products call 0870 756 0219 or visit www.castellini.com

The OPMI Pico: the best microscope at the best price

Developed by world-renowned experts at Zeiss exclusively for dental use, the OPMI Pico is an excellent addition to any practice. Truly versatile, this established microscope benefits a wide range of specialist and general dental procedures, and is available from Nuview at an affordable price.

The OPMI Pico lets you examine the very finest details and the integrated light source means that you can see hard-to-reach regions in conditions approaching daylight.

Form follows function and all settings are easily changed without interrupting procedures. With the addition of the MORA Interface (Mechanical Optical Rotating Assembly), the OPMI Pico becomes even more mobile, and features include quick switching between site overview and detailed view, with one-hand repositioning.

The OPMI Pico is supported by a friendly and prompt after-care service from Nuview, to ensure that you get the most from this high quality technology.

For more information please call Nuview on 01445 756059, email info@nuview-ltd.com or visit www.voroskopos.co.uk

We’ve refocused our vision...

As the UK’s No. 1 supplier of loupes and lights, our vision is to supply the very best precision products, combining exceptional quality with outstanding design.

Our new loupes and lights are expertly custom-made by leading supplier ExaVi-sion™. Founded by Jorn Rønvig and optometrist Kim Jensen, ExaVision™ offers a welcome commitment to delivering superior design and quality craftsmanship, which perfectly complements our 16 years of unrivalled loupes experience and outstanding customer service.

Available in 2 styles, 3 frame colours and 5 frame sizes, each ExaVision™ loupes is individually crafted to your personal measurements at a purpose-built factory on the small, tranquil island of Samsø in Denmark. ExaVision™ produce loups and lights to the highest standards, providing a quality product that Evident are proud to endorse.

Our vision has always been to exceed our customers’ expectations and we are confident our exceptional service combined with the superb quality of ExaVision™ loups and lights will refocus your vision too!

Sident Dental Systems
Orthophos XG Plus
The optimum in 2D digital imaging!

Looking for the optimum in 2D digital imaging? Incorporating a colour touch screen, innovative electronic platform and software upgrade options the Orthophos XG, from Sident Dental Systems, is easy to operate and has a logical patient positioning system that facilitates optimum imaging results. Consequently it provides exceptional imaging quality and user-friendliness.

Its user interface is clearly laid out and easy to understand, its touch screen graphics making selection of functions easy whilst virtually eliminating operator errors. Consequently it accelerates imaging procedures and produces consistently excellent image quality.

It features an intuitive programme structure, enabling Practises to choose between standard, constant magnification or artefact-free imaging. These imaging areas can be selected individually to minimise radiation doses to patients.

Finally its high-performance data processing facilities help ensure fast acquisition, presentation and archiving of images.

For further information call Sident Dental Systems on 01952 582900 or email j.colville@sident.co.uk

Digital Dental
The NEW PaX Primo
A new concept for panoramic digital imaging.

Digital Dental, the UK’s leading independent digital imaging company, are UK Distributors for the PaX Primo the ideal entry level digital panoramic unit from Vatech & E Woo, the world’s no.1 Digital Dental Radiography & CT manufacturer.

Simple and compact, the PaX Primo Intelligent features Vatech’s AMPT technology enabling Practitioners to obtain perfect image quality regardless of the patient’s position and size of the dental arch. It captures a series of images and automatically combines them into the optimum diagnostic view.

In addition to the standard panoramic and TMJ modes the PaX Primo Intelligent also has Bitewing, Horizontal/Vertical segments and Cross Sectional modes. All of these functions and the superb image quality make this the prime choice for your next panoramic system.

Digital Dental can also supply Vatech & E Woo’s complete range of CT and Panoramic Units.

For further information call Digital Dental on 0800 027 8593, email sales@digitaldental.co.uk or visit www.digitaldental.co.uk

Clark Dental

Schick Technologies is well-renowned for its range of high quality digital imaging equipment, and dental practices throughout the UK are benefiting from its outstanding portfolio.

Dr Shan Perera of Connaught House Dental Practice, Rayleigh, Essex, brought Schick Technologies into his practice. “Schick Technologies has a long reputation of robust equipment and is seen as the cutting edge,” he says. “Also, it was the only company that could support our OPG to iPan.” This has enabled the...
Must-Have Technology at Must-Have Prices

Keeping ahead with the continuing advances in dentistry is more affordable than ever thanks to Evident’s offering of excellent quality dental imaging products at unbeatable prices.

The ASPD is dedicated to providing the most up to date information and guidance to the dental professional in need of assistance. Relevant to the recent budget release ASPD members can provide help with pensions, insurance, accuracy, sales and valuation and much more. Success in the current climate and in light of the most recent budget is possible; gaining the best information is the key.

The Velopex Zephyr 150 Surgery Air Supply is available (until end of July 08) with the Velopex Aquacut Quattro and trolley for £2,995.00 + VAT, a saving of over £1,240 (+VAT) from list price.

It is the only dental CBCT to offer image ‘Freeview’ FOV. This allows the operator to customise precisely the FOV required.

Why pay twice the price for an intraoral camera when you can pay much less and achieve the same results with the easy to use, lightweight Cammy. Capturing a clear image of your patient’s mouth, the advanced Cammy™ instantly enables the patient to see exactly what you see. In addition, its distinctive mini-head design enables you to access even the hardest to reach areas, helping identify cracks and find root canals. Capturing images of your patient’s mouth has never been easier with Cammy’s™ zoom toggle and freeze buttons.

For more information on the ASPD please call 0800 4586775 or visit www.aspd.co.uk

Bleaching solutions

With Vita’s unique bleached shade guide you can monitor your bleaching process in a realistic and logical manner (special offer price £52.00) and to cure any cervical sensitivity INSTANTLY and for up to 9 months, use Hurriseal® Dentin Desensitizer 5ml (special offer price £50.28) without glutar-aldehyde!

For more information please contact Tim McCarthy UK sales manager, Mobile: 07 500-769-615, tmccarthy@voco.com

Velopex Zephyr 150 Surgery Air Supply

We are delighted to introduce the Velopex Zephyr 150 Surgery Air Supply. This is the first Compressor designed specifically to be sited within the Dental Surgery – rather than inside in a shed! The neat clean lines and white powder coat finish make this powerful compressor an easy addition to a dental surgery, either mounted on a Velopex trolley or sited within cabinetry. The low noise signature of this oil free twin- head design, make it suitable for all occasions. When mounted on the Velopex Trolley (which can also house the Velopex Aquacut Quattro as well as the Velopex Colour Diode Laser) the Velopex Zephyr can provide all of the compressed air requirement of the surgery.

For more information please call 020 7887 6841 or visit www.munrosutton.co.uk/dentist

It is an elegantly simple solution to boosting patient bases and increasing profitability, while offering great prices to patients. The uptake of a wide variety of attractive dental plan packages by individuals and employer groups of every size results in a pooling of potential patients, while dental practices join the Dental Network for access to this valuable resource.

Mark Chapman Director Sales & Marketing Mobile: 07734 041487 Email: mark@velopex.com

Win-win dental plan solutions

A solution that offers ‘the best of both worlds’ may at first appear to be too good to be true. However, with Mark Sutton’s highly successful Patient Referral Plan, there is no catch. This innovative system has arrived from the US where Munroe Sutton has been helping dentists grow their profitability for 50 years. Indeed, over 69,000 dentists and 7 million US patients have chosen the Munroe Sutton dental plan.

Mark Sutton offers effective marketing at no cost to the practitioner via an array of direct, innovative strategies with proven benefits for both practitioners and patients.

Dentomycin: The Adjunctive Treatment That Reduces Key Pathogens In Periodontitis

Dentomycin provides clinicians with an effective antimi-
crional and anti-inflammatory adjunctive, effective at any point during the treatment of chronic adult periodontitis in-
cluding the earliest stage. Combined with scaling and root planing, Dentomycin can reduce pocket depths by up to 42% in just 12 weeks.

Dentomycin is proven to at-
tack the bacteria prevalent in perio-
dental disease. After 3 or 4 applications (with 14 days be-
tween each one), this cost-ef-
fective product significantly reduces the key pathogens and is also effective in areas that are hard to reach using instru-
ments, with the flexible, pre-
filled applicator allowing you to access and apply the gel di-
rectly to the pocket base.

Easy to use and cost-effec-
tive, Dentomycin is simply an essential product.

For more information please call John Jesshop of Blackwell Supplies on 020 7224 1457 or fax 020 7224 1604

How to Talk Money with Confidence

Software of Excellence’s ‘Thrive in 2008’ seminar series continues into June, as the

world leaders in practice man-
agement and marketing solu-
tions, team up with “thought
leaders” Ashley Lather, to help you learn more about getting the most from your Practice Management system; inform, market, and sell to your pa-
tients.

As one of the dental indus-
try’s finest motivational speak-
ers, Ashley is the ideal person to guide you through some proven techniques so that you can feel confident and com-
fortable when talking money and achieving the right prices for your services.

The seminars, which in-
clude a complimentary buffet, will be worth 4 hours of ver-
ifiable CPD and will run from 8-
10pm at the following venues throughout June: Places cost £66 (incl.VAT) per person or £119 (incl.VAT) for two people.

• 08 June Glasgow
• 10 June Belfast
• 13 June Manchester
• 16 June Bristol
• 22 June Dublin
• 24 June London
Places are limited so to avoid disappointment reserve your place today by calling 0845 545 5767.

NobelActive™

The innovative dental im-
plant NobelActive™ has been especially designed for high ini-
tial stability in soft bone and ex-
traction sockets. NobelActive™ was launched after the success-
ful completion of pre-launch activity involving experienced users worldwide over an eight-
month period.

Dental professionals have found several benefits in work-
ning with NobelActive™ includ-
ing:
• High initial stability, even in compromised bone situations
• Bone condensing property
• Adjustable implant orienta-
tion for optimal final place-
ment
• Built-in Platform Shifting
• Single-function prosthetic con-
nection
• TiUnite & Groovy compatible

More than 150,000 NobelAc-
tive™ implants were sold in 2008. This unprecedented re-
sponse signifies that NobelAc-
tive™ surpasses the require-
ments and demands of experi-
enced surgical and restorative clinicians around the world.

The innovative NobelAc-
tive™ implant system delivers exceptional stability and be-
cause of its built-in platform shifting functionality, ad-
justable implant orientation ca-
pability and dual-function pros-
thetic connection, NobelActive™ offers patients a beauti-
ful, natural-looking aesthetic every time.

Supporting Dental Excellence!

KaVo would like to congratu-
late the Casterbridge Dental Stu-
dio in Dartet in winning the award for Dental Laboratory of The Year at the 2009 Dental awards.

The Casterbridge Dental Stu-
dio fought off fierce competition from several outstanding UK Laboratories to be bestowed this prestigious award. The team demonstrated to the judging panel a superior commitment to quality and standards, outstand-
ing team ethics and training and an edge that sets them apart from other laboratories.

Casterbridge is the second UK laboratory with KaVo’s Ever-
est CAD/CAM technology to win this award in recent years. The innovative Everest offers profes-
sionals an intelligent software module for excellent workflow with features including:
• Scanning precision 1:1 - Original to digital
• Comfortable project administra-
tion
• Software-supported modelling and construction
• Fully-automatic CNC manu-
facturing
• Therm – reliably to a perfect finish

For further information on special offers or to place or-
ders call Helen or Jackie on 01795 770090 or visit our web-
site www.kemdent.co.uk

Ionoseal – Now in new NDT™ syringe

Hygienic and efficient use through non-dripping tech-
ology

Starting now, syringes that run, drip and leave strings and the accompanying waste of expen-
sive material belong to the past. Ionoseal, the proven lin-
ing material, is now available in the specially designed NDT™ syr-
inge. VOCA has successfully developed a non-running, non-
dripping syringe based on the innovative non-dripping tech-
nology (NDT™) especially for highly flowable materials.

Lining material with opti-
mal material and handling properties

Ionoseal is a light-curing, ready-for-use, glass ionomer
